

INTRODUCTION

Congratulations on your purchase of the ARNC01 Active Noise Canceling Headphones. The technologically advanced 9.25 mm in ear headphones actively isolate and cancel outside noise with a simple flick of an on/off switch, letting you enjoy crystal clear sound on your music player. And the small size of the headphones provides for hours of comfortable wear whether you're enjoying music at home or on the go.

This manual covers connection and detailed operating instructions for setup and use of the ARNC01 Active Noise Canceling Headphones. If, after having reviewed the instructions, you have any questions, please call toll free 1 800 732 6866 or visit www.araccessories.com.

FEATURES

Active noise-canceling technology: A simple on/off switch on the side of the unit provides true noise canceling functionality that delivers high quality sound.

Ultra-comfortable: 9.25 mm in ear design provides superior sound insulation without compromising comfort.

2-pin airline jack: Connects the headphones to an airplane's entertainment system.

Convenient power source: The noise cancelation module uses a standard size AAAA battery.

PACKAGE CONTENTS

Before you get started with these earphones, take a moment to get familiar with the package contents.

- Earphones and noise cancellation activator with clip
- 3 silicone earbud sleeves (small, medium and large)
- Airline plug adapter
- User's guide
- Two AAAA batteries

INSTALLING THE BATTERIES

The ARNC01 earbuds require a single AAAA battery for active noise canceling.

To install the battery:

1. Press and push the battery compartment cover to remove it.
2. Insert the battery, matching it to the (+) and (-) marks inside the battery compartment.
3. Push the battery cover back into place.

Battery Precautions: Always remove old, weak or worn out batteries promptly and recycle or dispose of them in accordance with Local and National Regulations.

INSERTING YOUR EARPHONES

Individual AR earphones are designed specifically for either the left or right side.

Make sure you find the left (L) or right (R) marking on the inside of each earphone so you know which side is which.

Make sure the sleeves cover the end of the earphone stems.

Finally, gently insert your earphones in each ear, just far enough that they fit securely do not push beyond the ear canal opening!

Note: Once you've put on your earphones, use the cord adjuster to increase or decrease the amount of slack in the cord.

These earphones come with the small sleeves installed. If these don't fit the way you want them to, try a different size the next section tells you how to change sleeves.

CHOOSING AND CHANGING SLEEVES

Experiment with the different sizes in this package to find the right sleeves for you. Changing the sleeves is easy.

1. To remove the sleeve on the earphone, pull gently on one sides of the sleeve at the base of the stem until the sleeve comes off.

2. Position the replacement sleeve at a slight downward angle over the earphone stem. Gently push the sleeve up and onto the stem until it fits securely in place.
3. Push the end of the sleeve gently to make sure it covers the stem completely.

CONNECTING TO YOUR AUDIO DEVICE

1. Turn the volume of your audio device all the way down.
2. Plug the earphone mini plug into the headphone jack on your audio device.
3. Put on your earphones.
4. Turn up the audio device volume slowly.

Product information

Keep your sales receipt to obtain warranty parts and service and for proof of purchase. Attach it here and record the model number in case you need it. These numbers are located on the product.

Model No.: ARNC01

Dealer/Address/Phone:

ACTIVATING NOISE CANCELING

The ARNC01 features built in technology designed to heighten your listening experience by actively canceling noise that would otherwise interfere with the music you listen to.

To activate this feature: Turn the ON/OFF switch on the side of the headphones to the ON position. The noise canceling indicator lights up.

After the active noise canceling feature has been turned on, you can then adjust (if further adjustments are needed) any of the audio settings on your listening device.

USING THE AIRLINE ADAPTER

The ARNC01 comes with an adapter that lets you use the earphones with the entertainment systems on airplanes. Insert the adapter plugs into the airplane seat's jacks. Insert the ARNC01's plug into the jack on the adapter.

LISTEN SAFELY!

Enjoy your earphones at a safe volume. Avoid or limit the amount of time you listen at higher volumes permanent hearing loss may occur if the earphones are used at too high a volume. If you experience a ringing in your ears, or your own voice and other sounds seem muffled, stop using the earphones and consult a hearing professional.

Important: Do not use these earphones when operating a motor vehicle or in any environment where the inability to hear outside sounds may present a danger to you or to others. Sounds that you usually rely on as reminders or warnings may seem unfamiliar when using earphones. If you plan to use earphones around sounds like these, make sure you know how to recognize the sounds with your earphones on.

CLEANING AND CARING FOR YOUR EARPHONES

To clean earphone sleeves:

Remove the sleeves from the earphones and wash them in lukewarm water using a mild detergent. Rinse the sleeves in clean water and make sure they are completely dry before putting them on the earphones.

To clean the headphone stems:

Use a dry piece of cotton (either a cotton ball or cosmetic pad would be ideal) to wipe the stems. Do not insert liquids, cleaning products or cleaning tools into the stem opening.

- Do not expose earphones to extreme temperatures.
- Keep the earphones dry. If they get wet, wipe them down immediately.
- Keep the earphones away from dust and dirt.
- Handle the earphones gently and carefully.
