TRUESONIC 2 SERIES

**TS210**
- 10-inch LF transducer, 1-inch neodymium HF driver
- 1100 watts class D power
- Two XLR ¼-inch combo Mic/Line inputs
- Stand/pole-mountable or flyable by integrated M10 rigging points
- XLR output to link speakers

**TS220**
- 12-inch LF transducer, 1-inch neodymium HF driver
- 1100 watts class D power
- Two XLR ¼-inch combo Mic/Line inputs
- Stand/pole-mountable or flyable by integrated M10 rigging points
- XLR output to link speakers

**TS212W**
- Built-in Bluetooth for wireless audio streaming
- Bluetooth link for cable-free stereo playback
- 12-inch LF transducer, 1-inch neodymium HF driver
- 1100 watts class D power
- Two XLR ¼-inch combo Mic/Line inputs

**TS215W**
- Built-in Bluetooth for wireless audio streaming
- Bluetooth link for cable-free stereo playback
- 15-inch LF transducer, 1-inch neodymium HF driver
- 1100 watts class D power
- Two XLR ¼-inch combo Mic/Line inputs

**TS218S**
- 18-inch LF transducer
- 1200 watts class D power
- Stereo XLR line inputs
- Stereo XLR line outputs
- Rear-panel crossover bypass and polarity reverse controls

**TS215S**
- 15-inch LF transducer
- 1200 watts class D power
- Stereo XLR line inputs
- Stereo XLR line outputs
- Rear-panel crossover bypass and polarity reverse controls

**TS212S**
- 12-inch LF transducer
- 1200 watts class D power
- Stereo XLR line inputs
- Stereo XLR line outputs
- Rear-panel crossover bypass and polarity reverse controls

STEALTH PRO
Dual-channel UHF transmission and True Diversity reception for mission-critical applications
Dual-antenna UHF diversity for increased reliability and signal consistency
Auto frequency scan and sync between transmitter and receiver units
Two XLR + balanced TRS ¼-inch combo inputs
Aluminum and steel enclosures and removable antennae
High-visibility backlit LCDs for controlling and monitoring critical activity

STEALTH PRO EXPANDER PACK
Two additional Stealth Pro UHF True Diversity receivers

RADIUS 100
All-in-one, easy-to-use wireless system for a wide range of professional applications
Dual-antenna UHF diversity for increased reliability and signal consistency
UHF band operation: 520–937.5MHz (regionally selected)
Receiver includes a high-visibility back-lit LCD display: Displays RF frequency and channel, AF and RF signal levels and other critical functions
Single-button scan feature for quickly identifying the optimal operating frequency

RADIUS 100L
RADIUS 100H
RADIUS 100M

RADIUS 200
All-in-one, easy-to-use wireless system for the most demanding professional applications
Dual-antenna/dual-receiver True Diversity design for mission-critical, dropout-free operation
UHF band operation: 520–937.5MHz (regionally selected)
Receiver includes a high-visibility back-lit LCD display: Displays RF frequency and channel, AF and RF signal levels and other critical functions
Single-button scan feature for quickly identifying the optimal operating frequency

RADIUS 200L
RADIUS 200H
RADIUS 200M

BAT PRO
XLR-equipped rechargeable Bluetooth receiver
Battery- or AC-powered (power adapter included)
Stream audio wirelessly to mixers or powered loudspeakers
Bluetooth links two receivers for cable-free stereo playback
USB port for charging or continuous AC power for fixed use

PORTABLE PA

TRANSPORT 12
- Battery-powered full-range PA speaker with wireless microphone included
- 200 watts of class D power powers 12-inch LF transducer and 1-inch HF driver
- XLR+¼-inch combo Mic/Line input and XLR Link Output
- XLR Mix Output for connecting to additional loudspeakers
- Built-in sound-reactive LED arrays provide brilliant light show
- Five lighting modes with adjustable color and brightness
- Integrated 3-channel professional audio mixer with volume and 2-band EQ on each channel
- Bluetooth-equipped wirelessly stream backing tracks or background music from any Bluetooth-compatible device
- 200-watt bi-amplified design with (3) 6.5-inch low/mid woofers and a 1-inch high-frequency transducer

MIXPACK 10
- High-performance all-in-one portable sound system for any event
- 400-watt peak power output
- Removable 8-channel powered mixer conveniently stores for transport
- Integrated storage compartment for cables and other accessories

SPECTRUM PA
- Battery-powered full-range PA speaker with wireless microphone included
- 200 watts of class D power powers 12-inch LF transducer and 1-inch HF driver
- XLR+¼-inch combo Mic/Line input and XLR Link Output
- XLR Mix Output for connecting to additional loudspeakers

POWERSTRIP USB
- Connect up to 11 devices simultaneously
- Edison-type AC outlets, (4) USB 3.0 Type A ports and (1) dedicated 5V, 2.1A USB charging port
- EMI/RFI/Surge protection and AC filtering for reliable, quiet power and ultimate equipment protection
- Quality, all-metal construction—made to last
- Pull-bristle data communication over USB 3.0 (also works with USB 2.0 devices)

TX15USB
- Onboard USB media player: Play your favorite music via USB flash drive, no DJ required
- 15-inch LF transducer and 1-inch titanium diaphragm HF driver
- 600 watts peak class D output
- XLR+¼-inch combo Mic/Line Input and XLR Link Output
- XLR Mix Output for connecting to additional loudspeakers

TROOPER
- Battery-powered full-range PA speaker with wireless microphone included
- 200 watts of class D power powers 12-inch LF transducer and 1-inch HF driver
- XLR+¼-inch combo Mic/Line + stereo RCA and ⅛-inch inputs
- Onboard USB media player with convenient playback controls
- Telescoping handle and lift-back wheels for easy transport
