IMPORTANT NOTICE & PRECAUTIONS

Thank you for using our company multi-media player! To operate the unit correctly, please read the operation manual carefully before using. Keep this operation manual for further reference.

The unit is designed only for DC 12V negative ground operation systems. Make sure your vehicle is connected to a DC 12V negative ground operation system. Be sure to connect the speaker(-) leads to the speaker(+) terminal. Never connect the left and right channel speaker wires together or to the vehicle body.

The normal temperature for operation is between -20 and +60 degrees Celsius. Do not operate in extremely high or low temperatures or block vents or radiator panels of the unit. Blocking them will cause heat to build up inside the unit and may cause damage or fire.

This unit can play the following discs (12 cm) and media files: DVD±R/RW / MPEG 4 / DivX / AVI / SVCD / VCD / MP3 / WMA / CD-R/RW / JPEG.

This operation manual shows the full version of this unit. GPS navigation system; dynamic multi-colour illumination; iPod connection, digital TV tuner; analog TV tuner; Bluetooth, AM radio band and RDS (Radio Data System) optional features of the software and may not be included. Refer to the exact functions & features equipped with this unit for operation.

INSTALLATION

Accessories included in the package for installation

![Accessories](image)

Mounting Method

- Put the mounting sleeve into the dashboard.
- Bend the tabs of the mounting sleeve (1) outward into the dashboard for a secure mounting.
- To remove the unit, insert the release keys (2) on both sides of the unit and then pull the unit out from the dashboard.

If necessary, use the strap (6) to secure the back of the unit in place. The strap (6) can be bent by hand to the desired angle.
To Detach the Front Panel

Before detaching the front panel, be sure to turn off the unit. Press the release button and pull off the front panel from the main unit.

To Replace the Front Panel

First, insert the left hand side of the front panel into the main unit. Then push the right hand side of the front panel into the main unit until it locks firmly.

WIRING CONNECTION

BACK OF MAIN UNIT

Remarks:
This drawing shows the full version of the unit and may not be available for connection on some versions. Refer to the exact functions and features of the unit for proper connection.
Due to the law of some countries, video playback is not allowed during driving.

7. AUX IN  Plug an external device to this port for output of that external device through the unit.

8. USB  Insert USB device to this slot for digital files playback. (Note: The USB slot is intended for data transfer only)
Remark: When USB devices had been inserted both in the front & back USB slots, playback will only be made at the front USB device (available for unit with back side USB slot)

9. SD /  Insert an SD/MMC card to this port for digital files playback.
10. TFT Screen  Shows the operation status of the unit. This screen is also a touch display – soft touch the screen for different operations of unit (for details, refer to other parts of this operation manual).

11. LCD Display  Shows the operation status of the unit.

12. DISC SLOT  Insert or remove disc from this disc slot.

13. ▲ Press to eject disc from the disc slot (when a disc has been inserted).

14. BND  Radio Mode
During unit operation, press to shift current operating mode to radio mode for operation.
At radio mode, press repeatedly to select the desired radio band for broadcasting.
Bluetooth Mode
Press to end a call or refuse an incoming call.

15. ►►▌/▌◄◄ Radio Mode – Manual Tune
Press repeatedly to fine tune the radio frequency upward or downward.
Radio Mode – Auto Seek
Press & hold shortly to tune the radio frequency upward or downward station for broadcasting.
Disc / USB / SD / iPod Input Mode – Select Tracks
Press repeatedly to shift track upward or downward for playback.
Disc / USB / SD / iPod Input Mode – Fast Forward / Fast Rewind
Each time Press & hold shortly to activate various fast forward or fast rewind speeds for playback. (Note: In iPod input playback mode, fast forward or fast rewind mode just in one step only)
TV Mode – Channel Selection
Press to scroll TV channel upward or downward for broadcasting.
TV Mode – Auto Seek
Press and hold shortly to tune the TV frequency upward or downward and stop for broadcasting when a TV channel received.
BLUETOOTH Mode – Select Tracks
Press repeatedly to shift track upward or downward for music playback transmitted from mobile phone.
16. 1 – 6
In radio mode, press any one of the number keys 1 – 6 to select a station previously stored in the memory. Press the desired number key for several seconds, and the current station broadcasting will be stored into this number key.

17. MIC
For voice reception under Bluetooth operation.

18. ★
In playback mode, press to start, pause or resume playback.

19. OSC
In video & photo playback mode, press & hold shortly to display the contents of the currently playing sources on screen. (Note: Depends on the media files recorded, not all sources can be displayed)

20. MENU
For Unit without GPS Navigation
Press & hold shortly to shift the current operating mode to the main menu for operation options.
For Unit with GPS Navigation
Press & hold shortly to shift the current operating mode to GPS navigation mode or from the GPS navigation mode to the previous operating mode.

21. RPT
In playback mode and depends on playback device, press & hold shortly to select the desired repeat playback mode.

22. GPS / ★
(MICRO SD CARD)
For Unit with GPS Navigation Only
Insert micro SD card installed with navigation software to this port for operation under GPS mode. (Note: GPS operation mode requires up to 4GB of space on microSD card.)

Note
Printing and symbols on the above drawing may vary from the exact main unit. Refer to the main unit for exact functions and features. User is recommended to use the touch screen controls to operate. Most of the functions cannot be operated by the main unit.
REMOTE HANDSET – GENERAL OPERATION

BATTERY REPLACEMENT
Refer to the back of remote handset for details on how to replace the battery.

1. Touch to shift to EX-FACTORY SETUP MENU.
2. Touch to shift to previous page, touch twice to shift to previous operation mode.
3. Touch to turn off the screen. When the screen turned off, touch any portion of the screen to turn the screen back on.
4. Touch to shift to BLUETOOTH mode for BLUETOOTH operation.
5. Touch to shift screen to MAIN MENU.
6. Hold & slide to show the hidden setup modes.
1. Touch to shift to VERSION MENU to show the details of unit. This is not available for setting.
2. Touch to shift to previous page, touch twice to shift to previous operation mode.
3. Touch to turn off the screen. When the screen is turned off, touch any portion of the screen to turn the screen back on.
4. Touch to shift to BLUETOOTH mode for BLUETOOTH operation.
5. Touch to shift screen to MAIN MENU.
6. Hold & slide to show the hidden setup modes.

ON SCREEN – RADIO OPERATION

At MAIN MENU, touch “RADIO” icon to shift screen to RADIO MENU for radio operation.

1. Touch to start searching the radio frequency & storing the strongest signal stations into memory. After one cycle searched, the unit starts intro broadcasting of the preset memory stations for a few seconds. Touch again to stop this intro broadcasting.
2. Touch repeatedly upward and downward to fine tune radio frequency.
3. Touch to tune the radio frequency to upward or downward station for broadcasting.
4. Touch to start intro broadcasting of the preset memory stations for a few seconds. Touch again to stop this intro broadcasting.
5. Touch to select stereo or mono mode at FM radio band. When stereo signal received, stereo indication will be appeared on screen and this is no indication for mono signal.
6. Touch to select local (LOC) setting for reception of strong signal stations and a distant setting for reception of weak stations at FM radio band. When local (LOC) setting is selected, LOC will appear on screen and this is no indication for distant setting.
7. Touch to activate the preset memory stations list on screen.
8. Hold & slide to select the radio frequency for broadcasting.
9. Touch the desired preset station number (any of 1-20) to start broadcasting of the selected station. Touch & hold shortly the preset station number can store the current broadcasting station (frequency) into that station number.
10. Touch to select FM & AM radio band for broadcasting.
11. Touch to turn off the screen. When the screen is off, touch any portion of the screen to turn it back on.
12. Touch to activate audio & visual setting for various audio & visual setups.
13. Touch to shift to BLUETOOTH mode for BLUETOOTH operation.
14. Touch to shift screen to MAIN MENU.
15. Touch to close the preset memory stations list on screen.
16. Hold & slide to show the hidden setup modes.

**ON SCREEN – DISC / USB / SD CARD INPUT OPERATION**

At MAIN MENU, touch "DISC" / "USB" / "CARD" icon on screen to shift to multi-media playback mode and playback will start automatically. Depending on the input device and playback media, the touch screen will show various playback menus for operation.
1. Hold & slide to show the hidden operation icons for operation.

2. At media playback, touch to activate PLAYLIST / FOLDER PLAYLIST (available for input device recorded with folder) to select folder / track for playback.
   At DVD playback mode, touch to show the menu of the disc. (Note: Depending on the DVD input, this function may not be operated)
   At VCD playback mode, touch to shift PBC on or off. At PBC on mode, touch to start the playback at the beginning in sequential order.

3. Touch to shift to next / previous track for playback.
   At video playback mode, touch & hold shortly to activate fast forward / rewind mode. At this mode, touch repeatedly to select various speeds of fast forward / rewind.

4. Touch to start, pause or resume playback.
5. At video playback mode under disc input, touch to stop playback.
   At music / photo playback mode under disc input and playback mode under USB / SD card input, touch to stop playback temporarily and resume normal playback after a few seconds.

6. Touch repeatedly to select repeat playback mode.

7. Touch to turn on or off random playback of the input device.

8. At DVD playback mode, touch repeatedly to view the angle changes in sequential order (available for video recorded with multi-angle senses).

9. At video & photo playback mode, touch repeatedly to zoom in and zoom out of the screen for viewing.

10. Touch repeatedly to select the audio output channels that are recorded in the device.

11. Touch repeatedly to select different subtitles that are recorded in the device.

12. Touch repeatedly to select different speeds of slow motion playback.

13. At DVD playback mode, touch to show the on-screen menu of the disc At VCD playback mode, touch to shift PBC on or off. At PBC on mode, touch to start the playback at the beginning in sequence order.

14. Touch to activate **KEYBOARD MENU** to input track number directly for playback

15. Hold & slide to select the position (time) for playback.

16. Hold & slide to select the position (time) for playback.

17. Touch to shift to MUSIC FOLDER PLAYLIST / MUSIC PLAYLIST to select music playback (when the playback device recorded with music files).

18. Touch to shift to PHOTO FOLDER PLAYLIST / PHOTO PLAYLIST to select photo playback (when the playback device recorded with photo files).

19. Touch to shift to VIDEO FOLDER PLAYLIST / VIDEO PLAYLIST to select video playback (when the playback device recorded with video files).

20. Touch to shift to **FOLDER PLAYLIST / PLAYLIST** to select desired folder / file for playback. To start playback touch selected file twice.

21. Touch to shift to previous **FOLDER PLAYLIST / PLAYLIST**.

22. Touch to shift page up / down.

23. Touch to erase the input digit.

24. Touch to confirm after input the number of track for playback.

25. Touch to shift screen to **MAIN MENU**.

26. Touch to shift back to **MUSIC PLAYBACK MENU**.

27. Touch to turn the screen off. When the screen is turned off, touch any portion of the screen to turn it back on.

28. Touch to activate audio & visual setting for various audio & visual setup.

29. Touch to shift to **BLUETOOTH** mode for **BLUETOOTH** operation.
ON SCREEN – BLUETOOTH OPERATION

At MAIN MENU and at other operation modes, touch “BT” icon on screen to shift to BLUETOOTH operation.

LINK UP WITH MOBILE PHONE
To link up BLUETOOTH connection with the mobile phone, take your phone and follow the steps:
- set the mobile phone to BLUETOOTH state
- start to search for a new device
- after search, new device “CAR-KIT”, “CAR BT” or similar device will appear
- input default code “0000” or “8888” in the mobile phone
- at the same time, BLUETOOTH icon & BT DEVICES MENU will appear on screen
- connection succeeded and you can start using BLUETOOTH function

BT DEVICE MENU (NO CONNECTION)  BT DEVICE MENU (CONNECTED)

BT DIAL MENU  BT INCOMING CALL MENU
1. Touch to shift to **BT DEVICE MENU**.
2. Touch to activate **BT DIAL MENU**.
3. Touch to activate **BT RECORD MENU**.
4. Touch to activate **BT PHONE BOOK MENU**.
5. Touch to activate **BT MUSIC MENU**.
6. Touch to select the linked up device.
7. Touch to delete the linked up device.
8. Touch to input phone number.
9. Touch to erase the digit input by error.
10. Touch to dial out.
11. Touch to hang up.
12. Touch to shift conversation between mobile phone & **BLUETOOTH** of the unit.
13. Touch to turn on or off sound muting of the microphone.
14. Touch to input digits (for conversation that needs to input data).
15. Touch to refuse an incoming call.
16. Touch to pick up an incoming call.
17. Touch to download incoming calls / dial out numbers / missing calls of the mobile phone to the unit.
18. Touch to show list of missing calls.
19. Touch to show list of dial out numbers.
20. Touch to show list of incoming calls.
21. Touch to shift page up and down.
22. Touch to download the phone book of the mobile phone to the unit.
23. Touch to activate or close the key board for phone book searching.
25. Touch to start / pause / resume music playback transmitted from the mobile phone.
26. Touch to select upward or downward track for playback.
27. Touch to turn the screen off. When the screen is turned off, touch any portion of the screen to turn it back on.
28. Touch to activate audio & visual setting for various audio & visual setups.
29. Touch to shift screen to MAIN MENU.

ON SCREEN – AUXILIARY INPUT OPERATION

At MAIN MENU, touch "AV IN" icon on screen to shift to auxiliary input operation (provided an auxiliary video device had been connected). At auxiliary input operation, touch any portion of screen to activate AUX INPUT MENU for operation.

AUX INPUT MENU

1. Touch to activate audio & visual setting for various audio & visual setups.
2. Touch to shift to BLUETOOTH mode for BLUETOOTH operation.
3. Touch to shift screen to MAIN MENU.

IMPORTANT NOTICE FOR ON SCREEN OPERATION

Interfaces, photos, images, icons & location as shown in this part of operation manual may be varied from the exact unit. However, all of them come with similar outlook of the same type and with the same operation method.
SPECIFICATION

GENERAL
Power Requirement: DC 12 Volts, negative ground
Load Impedance: 4 Ohms
Maximum Power Output: 40 watts x 4 channels

**Note**

After attempting the above efforts, if the unit still cannot operate normally, consult your service dealer. Never attempt to disassemble the unit by yourself. No service part inside the unit.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
