POWER RATING: 117 Volts AC or DC; consumption - 25 watts per unit

TUBES USED: 1-14F7; 1-50L6GT Pilot Lamp - NE51 Neon

CONNECTIONS: All stations are connected to form a single system with a multi-wire cable. The number of wires in the cable is one more than the number of stations in use, (that is, for five stations a cable of six conductors is needed).
