

# CDM 7

## Floor-standing loudspeaker system

### Product Summary

- The CDM 7 is an imposing floorstander which not only makes the best of the real wood veneer finish, but also means extra volume. The 165mm Kevlar® mid/bass combined with the additional 165mm Cobex® low-frequency driver, delivers a bass response as tactile as the beautifully crafted cabinets themselves.

### Technical highlights

- B&W's Tweeter on top technology ensures that the sound remains focused and time-sensitive and that the stereo image is presented with unparalleled three dimensional accuracy.

Kevlar®: B&W developed and patented the method of using Kevlar® for loudspeaker cones to reduce unwanted standing waves. DuPont originally created Kevlar® for use in bulletproof vests.

<b>Description</b>	3-way 4th-order vented-box system	<b>Power Handling</b>	30 · 150W into 8 ohms on unclipped programme
<b>Drive Units</b>	1 x 25mm (1in) alloy dome · high frequency 1 x 165mm (6.5in) kevlar® · bass/midrange 1 x 165mm (6.5in) Cobex bass	<b>Dimensions</b>	Height: 950mm Width: 220mm Depth: 290mm
<b>Frequency Response</b>	40Hz · 20kHz ± 3dB on reference axis	<b>Net Weight</b>	18.5kg
<b>Sensitivity</b>	90dB spl (2.83V 1m)	<b>Finish</b>	Cabinet: Real Wood Veneers, Black Ash, Cherry, Red Ash Grille: Black Cloth
<b>Nominal Impedance</b>	8 ohms (minimum 4 ohms)
