THE FISHER K-10
Dynamic SPACEXPANDER®

With this remarkable device, the owner of a home music system can now add the new dimension of reverberation to listening. The FISHER K-10 recreates electronically the reverberation of the concert hall, and, in this manner, makes for auditorium listening pleasure even in the smallest of rooms. The FISHER K-10 Dynamic SPACEXPANDER® works equally well on records, tape and broadcasts.

THE FISHER HEADPHONES
MODEL HP-50

THE FISHER WS-1
WIDE-SURROUND® SPEAKER SYSTEM

These compact units augment the sound from the primary speaker systems to create a breadth of music reproduction that makes every seat in the room a 'front-row-center' location. The FISHER WS-1 overcomes the 'paint source' of sound, gives the listener the illusion he is sitting in the most desirable seat in the concert hall.
