Thank you for purchasing your new Hitachi Bluetooth Micro Hi-Fi System with docking for ipad/iphone/ipod. Please follow this quick start guide for a successful first-time set up. We recommend that you spend some time reading this instruction manual in order to fully understand all the operational features of it. Read all the safety instructions carefully before use and keep this instruction manual for future reference.

**Step 1** Unpacking

Remove all packaging from the unit. Retain the packaging. If you dispose of it, be sure to do so according to any local regulations.

**Step 2** Operating Your Remote Control

1. Press and hold the back cover to open the battery compartment of the remote control.

2. Insert two AAA batteries (not included). Make sure the (+) and (-) ends of the batteries match the (+) and (-) ends indicated in the battery compartment.

3. Close the battery compartment cover.

**Step 3** Connections

- **Connecting the Aerial:** Connect one end of the aerial cable to the aerial socket on the rear of the unit. Then position the aerial to obtain optimum reception.

- **SPEAKER Connection:** Connect the speaker cables at the back of the speakers to the SPEAKER OUT (L/R) sockets at the rear of the unit.

- **Connecting the Control Cable:** Connect the control cable between the CD player and the amplifier.

- **Connecting to the Mains Supply:**
  - This unit is designed to operate with an AC 230V-50Hz power supply.
  - Connecting the unit to any other power source may cause damage to the unit. Unwind the mains cable to its full length. Connect the mains plug to a mains socket. Make sure the mains plug is fully inserted into the mains socket. The unit is now connected and ready to use.
  - To switch the unit off completely, remove the mains plug from the mains socket.

**Step 4** Clock Setting

Auto setting the clock:

In TUNER mode, press the RDS button repeatedly until RDS IN clock (or selected clock) is automatically updated.

Manual setting the clock:

1. In STANDBY mode, press and hold the the CLOCK button on the remote control until the hours digits are flashing.

2. Press the +/- buttons on the remote control to adjust the hour digits. While the digits are flashing, press the ENTER or CLOCK button on the remote control to confirm, then the minute digits will flash.

3. Press the +/- buttons to adjust the minute digits. While the digits are flashing, press the ENTER or CLOCK button on the remote control to confirm. Each activated state will be displayed for 15 seconds.

**Step 5** Basic Operation

**Switching the Unit On:**

When you first connect the unit to the mains socket, the unit will be in STANDBY mode and the STANDBY button will be lit.

1. Press the STANDBY button on the unit or the remote control to switch the unit on. The word "STANDBY" will also appear on the display.

2. Press the STANDBY button on the unit or the remote control to switch the unit back to standby mode. The STANDBY button will be lit.

3. Press the menu button to select the menu or if you want to switch the unit off completely.

**Selecting Modes:**

Press the FUNCTION dial on the unit to switch between USB, TUNER, CD, AUX, BT, and DISC modes. The selected mode will be shown on the display. Additionally press the USB, TUNER, AUX, BT, DISC button on the remote control to select desired mode.

**Tip:** Well done! Your new Hi-Fi System is now ready to use.

You will find that there are many exciting features available. To get to know all these features, please take some time to read the instruction Manual provided with your Bluetooth Micro Hi-Fi System.
