To obtain the best performance and ensure years of trouble-free use, please read this instruction manual completely.
WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.
The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

LASER SAFETY

This unit employs a laser. Only a qualified service person should remove the cover or attempt to service this device, due to possible eye injury.

CAUTION: USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.

CAUTION: VISIBLE LASER RADIATION WHEN OPEN AND INTERLOCK DEFEATED. AVOID EXPOSURE TO BEAM.

LOCATION:
* PRINTED ON THE BACK

CLASS 1 LASER PRODUCT
KLASSE 1 LASER PRODUKT
KLASS 1 LASER APPARAT
CLASSE 1 PRODUIT LASER

* INSIDE, TOP OF THE MECHANISM

CAUTION - VISIBLE LASER RADIATION WHEN OPEN AND INTERLOCK DEFEATED. AVOID EXPOSURE TO BEAM.

CONNECTION TO POWER (For the area of Great Britain)

Before Switching on make sure that the voltage of your electricity supply is the same as that indicated on the rating plate.

Mains Cord
This appliance may be fitted with a non-rewireable plug. If it is necessary to change the fuse in a non-rewireable plug the fuse cover must be refitted. If the fuse cover is lost or damaged, the plug must not be used until a replacement available from the appliance manufacturer is obtained.
It is important that the colour of the replacement fuse cover corresponds with the rating marking on the base of the plug.
If the plug has to be changed because it is not suitable for your socket, or becomes damaged, it should be cut off and an appropriate plug fitted following the wiring instructions below.
The plug removed must be disposed of safely as insertion into a 13A socket is likely to cause an electrical hazard. For your own safety read the following instructions carefully before attempting to connect this unit to mains.
The wires in this mains lead are coloured in accordance with the following code:
BLUE=NEUTRAL, BROWN=LIVE

Important
As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:-
The wire which is coloured blue must be connected to the terminal which is marked with the letter N or coloured black.
The wire which is coloured brown must be connected to the terminal which is marked with the letter L or coloured red.
No connection is to be made to the earth terminal of the plug.
If a 13 Amp (BS 1363) Plug is used, a 3 Amp Fuse must be fitted, if any other type of Plug is used a 3 or 5 Amp Fuse must be fitted, either in the Plug or Adaptor, or on the Distribution Board.
Mains Supply: 220 - 240 V
50 Hz - AC only
Do not make any connection to the larger pin marked with the letter “E” or by the symbol ↓ or coloured green or green and yellow.
PRECAUTIONS

IMPORTANT

Use only discs marked DVD or disc with this DVD player.

POWER SUPPLY

The main power supply is engaged when the main plug is plugged in a 220-240V~50Hz AC outlet. To operate the unit, press the STANDBY button to turn on the unit.

WARNING

To avoid fire or electric shock, do not expose this unit to rain or moisture.

WARNING:

LIVE PARTS INSIDE.

DO NOT REMOVE ANY SCREWS.

DEW WARNING

Moisture condensation may occur inside the unit when it is moved from a cold place to a warm place, or after heating a cold room or under conditions of high humidity. Do not use the DVD Player at least for 2 hours until its inside is dry.

CAUTION

1) Do not attempt to open the cabinet. There are no parts you can service inside. Refer all servicing to qualified service personnel.
2) Slot and openings in the cabinet and at the side or bottom are provided for ventilation. To ensure reliable operation and to protect the unit from overheating these opening must not be blocked or covered. Avoid enclosed spaces such as book cases unless proper ventilation is provided.
3) Keep the unit away from the radiator heat sources.
4) Avoid using near strong magnetic fields.
5) Do not push objects of any kind into this through the cabinet slot as they could touch current carrying parts or short circuit parts resulting in a fire or electric shock.
6) Never spill liquid of any kind on this unit. If liquid is spilled into the unit, consult qualified service engineer.
7) Use this unit in a horizontal (flat) position only.
8) This equipment is in Stand-by mode when it turns off whilst the power cord is connected.

DECLARATION OF CONFORMITY

This product complies with the requirement of the directives
EMC-Directive: 89 / 336 / EEC
CE Marking: 93 / 68 / EEC

declare that the DVD player

DV-P325E/DV-P325E(UK)

are in compliance with following norms:

EN 55013:1990
EN 55020:1994
EN 61000-3-2/A14:2000
EN 61000-3-3/1995
EN 60065:1998
EN 60825-1:1994
A NOTE ABOUT RECYCLING
This product's packaging materials are recyclable and can be reused. Please dispose of any materials in accordance with your local recycling regulations.
Batteries should never be thrown away or incinerated but disposed of in accordance with your local regulations concerning chemical wastes.

The serial number of this product may be found on the back of the DVD player. No others have the same serial number as yours. You should record the number and other vital information here and retain this book as a permanent record of your purchase to aid identification in case of theft. Serial numbers are not kept on file.

SYMBOLS USED IN THIS MANUAL
The following symbols below appear in some headings and notes in this manual, with the following meanings:

- **DVD**
  - Description refers to playback of DVD video discs.

- **CD**
  - Description refers to playback of audio CDs.

- **MP3**
  - Description refers to playback of MP3 discs.

FEATURES

- **Dolby Digital sound**
  This player can handle Dolby Digital surround sound having 5.1 channels when connected to a Dolby Digital decoder.

- **Still/fast/slow/step playback**
  Various playback modes are available including still pictures, fast forward/reverse, slow motion and step frames.

- **Random playback for audio CD and MP3**
  This player can shuffle the order of tracks to play them in random order.

- **Programme playback for audio CD and MP3**
  You can programme the order of tracks to play them in any desired order.

- **DVD menus in a desired language**
  You can display DVD menus in a desired language, if available on a DVD.

- **Screen saver/Auto power-off functions**
  The screen saver programme starts when there is no input from the player for five minutes in the stop mode. When the screen saver programme is activated for 30 minutes, the power is automatically turned off.

- **Subtitles in a desired language**
  You can select a desired language for the display subtitles, if that language is available on a disc.

- **Selecting a camera angle**
  You can select the desired camera angle, if a disc contains sequences recorded from different angles.

- **Choices for audio language and sound mode**
  You can select the desired audio language and sound mode, if different languages and modes are available on a disc.

- **Parental lock**
  You can set the control level to limit playback of discs which may not be suitable for children.

- **Automatic detection of discs**
  This player automatically detects if a loaded disc is DVD, audio CD or MP3 on disc.

- **Playing an MP3 disc**
  You can enjoy MP3 files which are recorded on CD-R/RW.

- **Direct Search**
  You can search the desired title, chapter, and track with numeric button during playback or in stop mode.

- **On-screen display**
  Information about the current operation can be displayed on a TV screen, allowing you to confirm the currently active functions (such as programme playback), on the TV screen using the remote control.

- **DTS (Digital Theater System)**
  Sound system different from Dolby Digital sound system.

- **Search**
  Chapter search: Search for the chapter designated by user is possible.
  Title search: Search for the title designated by user is possible.
  Track search: Search for the track designated by user is possible.
  Time search: Search for the time designated by user is possible.

- **Repeat**
  Chapter: Repeated playback of the chapter of the disc being played is possible.
  Title: Repeated playback of the title of the disc being played is possible.
  Track: Repeated playback of the track of the disc being played is possible.
  Disc (audio CD): Repeated playback is possible.
  (MP3): Repeated playback is possible.
  A-B: The part between A and B designated by user is possible.
  Album: Repeated playback of the folder of the MP3 disc being played is possible.

- **Zoom**
  2-time and 4-time magnified screen can be displayed.

- **Marker**
  The part designated by user can be called back.

- **Resume Play**
  User can resume to playback from the part at which the play was stopped even if the power turn off.

- **SRS TruSurround**
  You can enjoy stereophonic virtual space on your existing stereo system.

- **Component Video Out Jacks**
  Jacks located on the back of the DVD Player which are used to send high-quality video to a TV via Component Video In Jacks.

- **Dimmer**
  Brightness of the display can be varied.

- **Bit rate indication**

- **DRC (Dynamic range control)**
  You can control the range of sound volume.

- **Shuttle**
  You can adjust the playback speed using the Shuttle Ring (the outer ring).

This player conforms to the PAL/NTSC color system. You cannot play discs recorded in other colour systems such as SECAM.

- Some discs include region codes as shown below.

- The number inside the symbol refers to a region of the world, and a disc encoded in a specific region format can only be played back on DVD players with the same region code.

The following discs cannot be played back on this DVD player.

- DVD with region codes other than 2 or ALL.
- DVD-ROM
- DVD-RAM (Never play back, otherwise malfunction may result.)
- CD-ROM
- VSD
- CDV (Only plays back the audio part.)
- CD-G (Only plays back the audio part.)
- CD-R/CD-RW (Only plays back the discs which audio CD and MP3 is recorded.)
- CD-I (Never play back, otherwise malfunction may result.)
- SACD
- Photo CD (Never play back, otherwise malfunction may result.)
- Any other discs without compatibility indications

DISC TYPES

[DVD]

Data on a DVD is divided into sections called "titles", and then into subsections called "chapters", each of which is given a title or chapter number. Playback conditions are preset on some DVD video discs, and these playback conditions take priority over user operations on this player. If a function you selected does not run as desired, refer to the manual accompanying the disc.

Example

<table>
<thead>
<tr>
<th>Title 1</th>
<th>Title 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chapter 1</td>
<td>Chapter 2</td>
</tr>
<tr>
<td>Chapter 3</td>
<td>Chapter 4</td>
</tr>
</tbody>
</table>

[AUDIO CD]

Data on an audio CD is divided into sections called "tracks", each of which is given a track number.

Example

<table>
<thead>
<tr>
<th>Track 1</th>
<th>Track 2</th>
<th>Track 3</th>
<th>Track 4</th>
<th>Track 5</th>
<th>Track 6</th>
</tr>
</thead>
<tbody>
<tr>
<td>Album 1</td>
<td>Album 2</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

[MP3]

Data on an MP3 is divided into sections called "albums", and then into subsections called "tracks", each of which is given an album or track number.

Example

<table>
<thead>
<tr>
<th>Track 1</th>
<th>Track 2</th>
<th>Track 3</th>
<th>Track 4</th>
<th>Track 1</th>
<th>Track 2</th>
</tr>

**LOADING THE BATTERIES**

1. Open the battery compartment cover.

2. Insert two AA batteries, with each one oriented correctly.

3. Close the cover.

**Notes**

- Do not mix alkaline and manganese batteries.
- Do not mix old and new batteries.
1. **DIGITAL AUDIO OUT JACKS:**
   Use either an optical or coaxial digital cable to connect to a compatible Dolby Digital receiver. Use to connect to a Dolby Digital decoder or DTS decoder.

2. **ANALOG AUDIO OUT JACKS**
   Connect to the Audio input jacks of A/V-compatible TV or wide screen TV, Stereo system.

3. **VIDEO OUT JACK**
   Use a video cable to connect one of the jack to Video input on your A/V-compatible TV or wide screen TV, Stereo system.

4. **S-VIDEO OUT JACK**
   Use the S-Video cable to connect this jack to the S-Video jack on your A/V-compatible TV or wide screen TV for a higher quality picture.

5. **EURO A/V (SCART) JACK**
   Use the Euro audio/video cable to connect this jack to the 21 pin scart jack on your A/V-compatible TV or wide screen TV for a best quality picture.

Manufactured under license from Dolby Laboratories. “Dolby” and the double-D symbol are trademarks of Dolby Laboratories.

“DTS” and “DTS Digital Out” are trademarks of Digital Theater Systems, Inc.
The following show examples of connections commonly used to connect the DVD player to TV and other components.

Notes

- Be sure to turn off the power to all components in the system before connecting another component.
- Refer to the Instruction Manuals for your TV, stereo system and any other components to be connected to the DVD player.

**CONNECTION TO AN AUDIO SYSTEM**

**Method 1** DVD Player + Stereo system

**Method 2** DVD Player + Dolby Digital decoder or DTS decoder

Notes

- If you use the Euro audio/video cable, it is not necessary to connect the analog audio cable.
- If output Dolby Digital audio, connect to a Dolby Digital decoder, and set Dolby Digital to on for audio output in the setup mode. (See page 27)
- If output DTS audio, connect to a DTS decoder, and set DTS to ON for audio output in the setup mode. (See page 27)
- Unless connected to a Dolby Digital decoder, or a DTS decoder, set Dolby Digital or DTS to off for audio output in the setup mode. Playing a DVD using incorrect settings may generate noise distortion, and may also damage the speakers. (See page 27)
- The audio source on a disc in a 5.1 channel Dolby Digital surround format cannot be recorded as digital sound by an MD or DAT deck.
- Set Dolby Digital and DTS to off for audio output in the setup mode for method 1 only. Playing a DVD using incorrect settings may generate noise distortion, and may also damage the speakers. (Refer to page 27 to set ON for Dolby Digital and DTS)

**Optical cable (not supplied)**

- Optical cable (not supplied) may be damaged when bent at sharp angles. Ensure cables are coiled in loops with a diameter of 15 cm or more when storing them.
- Use a cable which is 3m or shorter.
- Insert cable plugs firmly into the connectors when making connections.
- If a plug has minor scratches or is dirty, clean it with a soft cloth before inserting it into a connector.
CONNECTION TO A TV (FOR VIDEO)

<table>
<thead>
<tr>
<th>Method 1</th>
<th>Method 2</th>
<th>Method 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Basic Audio</td>
<td>Good picture</td>
<td>Better picture</td>
</tr>
</tbody>
</table>

- **Method 1**: DVD Player + TV with Video Input Jack
- **Method 2**: DVD Player + TV with S-Video Input Jack
- **Method 3**: DVD Player + TV with 21 pin scart Jack

**Notes**
- If you use the Euro audio/video cable, it is not necessary to connect the analog audio cable.
- Connect the DVD player directly to a TV. If the A/V cables are connected to a VCR, pictures may be distorted due to the copy protection system.

**HOW TO CONNECT TO A TV WITHOUT AUDIO/VIDEO INPUT JACKS**

If your TV does not have RCA type audio and video input jacks it is still possible to connect this DVD player to your TV’s 75-ohm coaxial antenna terminal using a commercially available Stereo Audio/Video RF Modulator, not included. Connect the audio and video outputs of the DVD player to the audio and video inputs on the RF Modulator, and then connect the coaxial output of the RF Modulator (usually marked “TO TV”) to the 75 ohm coaxial antenna terminal on your TV. Follow the instruction supplied with the RF Modulator for more details.

If your TV’s 75 ohm coaxial antenna terminal is already occupied by an antenna or cable box connection, remove that cable from your TV’s antenna terminal and reconnect it to the coaxial antenna input terminal of the RF Modulator (usually marked “ANT IN”), then connect the RF modulator to your TV’s antenna terminal as described above.

**Note**
- The picture quality from DVD discs will not be as good if the DVD player is connected to the TV’s antenna terminal through an RF Modulator.
PLAYING A DVD VIDEO OR AN AUDIO CD

Getting started
Turn on the power of the TV, amplifier and any other components which are connected to the DVD player. (Change the input system to suit the DVD player, and check that the sound volume is correct.)

1 Press the POWER/STANDBY button.
   • The power will turn on.

2 Press the OPEN CLOSE button.
   • The disc loading tray will open.

3 Place a disc into the tray.
   • Make sure the disc is sitting properly in the correct recess, with the label side up.

4 Press the PLAY button.
   • The tray will close automatically, and playback will then start from the first chapter or the first track of the disc. With some discs, if the tray has been closed by pressing the OPEN CLOSE button, You need to press the PLAY button to start the disc.
   • When you playback the DVD which a title menu is recorded, it may appear on the screen. In this case, refer to “USING THE DVD MENUS” or “USING THE TITLE MENU”.

5 Press the STOP button to stop play.

Notes
• While the setup menu is shown you can not open or close the tray.
• A “prohibited icon” may appear at the top-right on the TV screen during operation, warning that a prohibited operation has been encountered by the DVD player or the disc.
• If a disc is dirty or has scratches, the pictures may appear distorted and the playback operation may stop. In such cases, clean the disc and unplug the power cord and then plug it again before resuming playback.
• With DVDs that use some titles for playback programme signals, playback may start from the second title, or it may skip these titles.
• During the playback of a two layered disc, pictures may stop for a moment. This happens when the 1st layer switches to the 2nd layer. This is not a malfunction.

USING THE DVD MENUS

Some DVDs contain their own menus, such as a guidance menu which describes the contents of the disc or a selection menu for sound, language and other customized settings.

1 Press the MENU button.
   • The DVD menu will appear.

2 Select the desired title.
   • Press the arrow buttons (▼/▲/▶/◀) to change the setting, and then press the ENTER button.

3 Playback will start from the selected title.
USING THE TITLE MENU

With a DVD containing a title menu, you can select the desired titles from the menu.

1. Press the TOP MENU button.
   - The title menu will appear.

2. Select the desired title.
   - Press the arrow buttons (↑/↓/←/→) to select a desired title, and then press the ENTER button.

CALLING UP A MENU SCREEN DURING PLAYBACK

For DVDs

- Press the MENU button to call up the DVD menu.
- Press the TOP MENU button to call up the title menu.

Note

- Contents of menus and corresponding menu operations may vary between discs. Refer to the manual accompanying the disc for details.

PAUSING PLAYBACK OR DISPLAYING A STILL PICTURE

1. Press the PAUSE/STEP button during playback.
   - Playback will pause, with sound muted.

2. Press the PLAY button to resume playback.

RESUMING PLAYBACK FROM THE POINT WHERE PLAYBACK STOPPED

1. Press the STOP button during playback.
   - Playback will stop, and then appear the resuming message at the centre.

2. Press the PLAY button. Playback will start from the point where the previous playback session was stopped.

Note

- The resume function can be reset by pressing the STOP button twice or by opening the disc loading tray.

STEPPING THROUGH FRAMES

1. Press the PAUSE/STEP button while playback is paused.
   - The next picture frame is displayed with sound muted each time the button is pressed.

2. Press the PLAY button to resume playback.
High speed playback
- Turn the Shuttle Ring in either direction during playback. The further the ring is rotated, the faster the playback speed in the forward (FWD) or reverse (REV) direction. Keeping the ring in the rotated position cycles the playback speed every 1.5 seconds.

For DVDs
Slow motion
- Turn the Shuttle Ring in the FWD direction while the playback is paused to activate the slow motion mode. Keeping the ring in the rotated position cycles the playback speed in three steps every 1.5 seconds. ($\times 1/16 \times 1/8 \times 1/2$)
- You can also activate the slow motion using the remote control.

2 Press the PLAY button to return to normal playback speed.
- FAST FORWARD or REVERSE from a TITLE to other TITLES is not possible.

SHUTTLE FUNCTION (Main Unit)

For DVDs
Slow motion
- Turn the Shuttle Ring in the FWD direction while the playback is paused to activate the slow motion mode. Keeping the ring in the rotated position cycles the playback speed in three steps every 1.5 seconds. ($\times 1/16 \times 1/8 \times 1/2$)
- You can also activate the slow motion using the remote control.

2 Press the PLAY button to return to normal playback speed.
- Slow playback is not available with audio CDs.
- The reverse of slow playback is not available.
- Slow playback from a TITLE to other TITLES is not possible.

Notes
- Slow playback is not available with audio CDs.
- The reverse of slow playback is not available.
- Slow playback from a TITLE to other TITLES is not possible.

By using only the NUMERIC buttons.
1 Directly enter the desired track number with the numeric buttons when the disc is being played, stopped, or paused.

By using the ‘SEARCH MODE’ button.
1 Press ‘SEARCH MODE’ button.
- Track search display will show up.

2 Enter the desired track number with the numeric buttons (if you are entering a single digit number press “0” first).
- In either way, when you finish entering the number, the selected track will start automatically.

Notes
- If you didn’t press “0” before entering the single digit number, you have to press ‘ENTER’ button to go to the desired track.

STARTING FROM A DESIRED TRACK OR CHAPTER

There are 2 ways you can jump to a desired title or a chapter.

By using the ‘SEARCH MODE’ button.
1 Press ‘SEARCH MODE’ button.
- Title/Chapter search display will show up.

2 If you wish to perform a title search, select ‘TT’. If you wish to perform a chapter search, select ‘CH’ with ▲/▼ buttons.
- When you finish entering the number, the selected title or chapter will start automatically.

Notes
- If you didn’t press “0” before entering the single digit number, you have to press ENTER to go to the desired title or the chapter.

By using only the NUMERIC buttons.

TITLE SEARCH:
1 Directly enter the desired title number with the numeric buttons when the disc is stopped.
CHAPTER SEARCH:
1 Directly enter the desired chapter number with the numeric buttons when the disc is being played or paused.
- When you finish entering the number, the selected title or chapter will start automatically.

TRICKS WITH THE SKIP BUTTONS ( الصحيונות בשטח של אוטומציה)
If the SKIP button is pressed during playback or while playback is paused, the current track/chapter will be skipped and the next track/chapter will start. When the SKIP button is pressed once, the top of the current track/chapter will be located for replaying. When the SKIP button is pressed again within 2-seconds after playback begins, the previous track/chapter will be located.

STARTING FROM A DESIRED TIME COUNT

1 Press the SEARCH MODE button twice.
2 Press the numeric buttons to set the desired time count.
- Example: 1 hour, 23 minutes and 30 seconds
  1 → 2 → 3 → 3 → 0

Notes
- In the case of DVD, Time Search in Title is effective. (But Time Search in Chapter is ineffective.)
- In the case of CD, Time Search in Track is effective. (But Time Search in the entire disc is ineffective.)
- Playback from a desired time count is not available with some discs or if the unit is in stop mode.
- If wrong numbers are entered, press the CLEAR button and re-enter the correct numbers.

MARKER

You can define the part to be called back.

1 Press the SEARCH MODE button three times during playback.

Set the marker
- Using the cursor button, position the cursor on to the marker number shown as “NOT SET”. Press the ENTER button when the screen to be reviewed appears. The marked time will be displayed. Up to 5 points can be marked.

Call back the marker
- Using the cursor buttons, position the cursor on to the marker number to be called back and press the ENTER button.

Clear the marker
- Using the cursor buttons, position the cursor on to the marker number to be cleared and press the CLEAR button.
To clear all markers, place the cursor on “AC” (All clear markers) and press the ENTER button.

2 Press the SEARCH MODE button or the RETURN button to exit the display.

RANDOM (Audio CD)

1 Press the MODE button in stop mode.
- The programme setting menu screen will appear.
2 Press the MODE button again.
3 Press the PLAY button.
Random playback will then start.

Note
- Programme playback is not available during random playback.

REPEAT

1 Press the REPEAT button.

For DVDs
- A single title or chapter is played back repeatedly.
- Pressing the REPEAT button cycles the display on the screen as follows.

For audio CDs
- The whole disc or a single track is played back repeatedly.
- Pressing the REPEAT button cycles the display on the screen through Off, Track and All.
The whole Disc is played back repeatedly.

If the REPEAT button is pressed once during programme/random playback, the current track is played back repeatedly.
If the REPEAT button is pressed again, the programme/random playback is performed repeatedly.

Notes
• Repeat playback is not available with some discs.
• The REPEAT setting will be cleared when moving to other title, chapter or track.
• Repeat playback is not function during A-B repeat playback.

A-B REPEAT

You can define a section to be played back repeatedly.

1 Press the A-B REPEAT button during playback.
• The starting point (A) will then be selected.

2 Press the A-B REPEAT button again at the end point (B) of the desired section.
• The selected section will be played back repeatedly.

3 To exit A-B repeat playback, press the A-B REPEAT button and set it to OFF.

Notes
• With DVDs, the A-B repeat section can be set only within the current title.
• With audio CDs, the A-B repeat section can be set within the current track.
• A-B repeat is not available with some scenes in DVD.
• To cancel the A point which was set, press the CLEAR button.
• A-B repeat playback is not functional during title, chapter, track or all repeat playback modes.

PROGRAMME (Audio CD)

1 Press the MODE button in stop mode.
• The program screen will appear.

2 Press the numeric buttons to enter the desired track numbers.
• 50 programs can be displayed at once on the screen. Press “▼” to go to the next page.

3 Press the PLAY button.
• Playback will start in the programmed order.
• While the programme is being played back, the STOP button works as follows.
• Press the STOP button once and then the PLAY button again, playback will restart from the point where the STOP button was pressed. (Programme continued)
• Programme will be cleared when you turn the power off.

TO CLEAR THE PROGRAMME
• Press the STOP button twice, and the programme will be cleared.
Notes

- Adding programmes is not possible during programme playback. You must stop the current playback before such operations can be carried out.
- Press the CLEAR button to cancel a programme. The most recently entered programme will then be deleted.
- Up to 99 programmes can be entered.
- Playback from a desired track and random playback are not available during programme playback.
- Programme settings are cleared when the power is turned off or the disc loading tray is opened.
- Press the MODE button to check the programmed setting.

ZOOM PLAYBACK (enlargement onscreen)

Images can be enlarged on the screen to your taste.

1 Press the ZOOM button during playback.
- An image will be enlarged at the centre of the screen.
- Pressing the ZOOM button cycles the zooming images in two steps.

2 When the cursor (▲/▼/◄/►) button is pressed during zoom play, the part to be zoomed moves.
- The zooming frame can be moved from the center .... 4 steps to the right. 4 steps to the left. 4 steps to the top. 4 steps to the bottom when 2 time zooming, and 6 steps each when 4 time zooming.
- Current position will be displayed on the right-bottom of the screen. Press the ENTER button, and the display disappears.

Note

- Zooming function does not work while disc menu is shown.

PLAYING AN MP3 DISC

1 Insert an MP3 file-recorded disc.
- The MP3 menu screen shows up.
- “+” appears at the head of the album name.
- The player can recognize 255 ALBUMS and TRACKS altogether.
- If all the TRACKS cannot be displayed at once on the screen, “▼” appears to go to the next page. If there is a previous page, “▲” appears onscreen. On the left of “▼”, the current page and the total number of pages are displayed.

2 Press the PLAY button after the following operation.

[FIRST PLAY]
Select FIRST PLAY with ▲/▼.

[TRACK]
Select the desired TRACK with ▲/▼.

[ALBUM]
Select the desired ALBUM with ▲/▼ and call the TRACKs with ENTER button.
- Press the ENTER or ► button to go to the next hierarchy.
- Press the ◄ button to go back to the previous hierarchy.
- Press the TOP MENU to go back to the top hierarchy.
- ALBUMS can be played up to the 8th hierarchy.

3 To stop the play, press the STOP button.
CHANGING THE ONSCREEN DISPLAY DURING MP3 DISC PLAY

The information on an MP3 disc in play can be checked.

1 Press the DISPLAY button during playback.
   - The TRACK currently in play will be highlighted.

2 Press the DISPLAY button again.
   - The album name being displayed will be replaced by the elapsed time of the track.
   - T will be displayed when the repeat play has been selected.
     T: Track repeat
     A: Album (folder) repeat
     D: Disc repeat

3 Press the DISPLAY button again, and the display screen disappears.

PLAYING AN MP3 DISC AT RANDOM

1 Press the MODE button twice in STOP mode.
   - The programme setting menu screen will appear.

2 Press the PLAY button.
   - Random play starts.

PLAYING AN MP3 DISC FROM A DESIRED TRACK

1 Press the SEARCH MODE button during playback.
   - The SEARCH menu shows up.
   - The TRACK currently in play or under RESUME ON will be highlighted. In the case of RESUME OFF, the first track of the disc will be highlighted.
   - Press the RETURN button, and the SEARCH menu disappears.

2 Using the ▲/▼ buttons, select a track to be played. Then press the PLAY button to start playing.

Notes
- During play, a desired track can be directly searched. Just type in the TRACK number with the numeric buttons.
- If the typed TRACK number is not available, the "disable" symbol appears and the direct search mode is cancelled.
- Playback cannot be started from a desired time count.

PLAYING AN MP3 DISC IN A PROGRAMMED WAY

1 Press the MODE button in STOP mode.
   - The programme screen shows up.

2 Use the ARROW buttons (▲/▼>/◄) to select a track. Then press the ENTER button to save it in a programme.
   - When an ALBUM name is highlighted, press the ► button, and the next hierarchy shows up.
• Press the \(\text{\textless}\) button to go back to the previous upper hierarchy.

• If the entire program cannot be displayed at once on the screen, \(\text{\textgreater}\) appears to go to the next page.

When the disc has been programmed, press the PLAY button.

• Programmed play starts.

Notes

• Press the CLEAR button, and the last-programmed entry will be deleted.

• Press the RETURN button, and the STOP screen will show up with the programme contents in memory.

• The programme setting will be cancelled when the power is turned off or the disc tray is opened.

• Programme will be cleared when you turn the power off.

**TO CLEAR THE PROGRAMME**

• Press the STOP button twice, and the programme will be cleared.

**SETTINGS**

---

**CHANGING THE AUDIO LANGUAGE OR SOUND MODE**

The DVD player has a function which allows you to select the desired audio language and sound mode.

**For DVDs**

Press the AUDIO button during playback, and then press the AUDIO button to select the desired audio language.

• The audio language can be changed if multiple languages are recorded on the DVD being played.

---

**For audio CDs**

Press the AUDIO button during playback.

• Pressing the AUDIO button cycles the sound mode through STEREO, L-CH and R-CH.

---

Notes

• Pressing the Audio button may not work on some DVDs with multiple audio languages (e.g. DVDs which allow audio language setting on the disc menu). Operation varies between discs, so refer to the manual accompanying the disc.

• Current audio language and sound mode will be displayed when you press the AUDIO button at first.

• If a desired language is not shown after pressing the Audio button several times, the disc does not have an audio source in that language.

• The audio language resets to the one which has been selected in the setup mode, every time the power is turned on or discs are replaced. If that language is not available on a disc, a language defined by the disc is selected.

• The screen display will disappear after about 5 seconds.

• If you use DIGITAL AUDIO OUT jack, the sound mode of audio CDs can not be changed.

---

Note

• For some Audio language, three dashes (---) may appear instead of a three-letter abbreviation for the language (ENG, FRE, etc.).
CHANGING THE SUBTITLE LANGUAGE

The DVD player has a function which allows you to select the desired language for subtitles.

1. Press the SUBTITLE button during playback, and then press the SUBTITLE button to select the desired subtitle language.

- The subtitle language can be changed if the subtitles are recorded in multiple languages on the DVD being played.
- The subtitle language cannot be changed if the subtitles are recorded in a single language on the DVD being played.

2. Press the ANGLE button while the angle number is shown on the screen.

- Pressing the SUBTITLE button cycles the subtitle language from SUBTITLE 1, SUBTITLE 2 and all the languages recorded.
- Current subtitle mode will be displayed when you press the SUBTITLE button at first.
- Press the SUBTITLE button, and then press the cursor (↑/↓) button to set it to on or off.

- The subtitle language resets to the one which has been selected in the setup mode, every time the power is turned on or discs are replaced. If that language is not available on a disc, a language defined by the disc is selected.
- It may take time to display the subtitles in the selected language.
- The screen display will disappear after about 5 seconds.
- When “SUBTITLE NOT AVAILABLE” appears onscreen, it means no subtitle is recorded on the scene.

Notes
- For some Audio language, three dashes (---) may appear instead of a three-letter abbreviation for the language (ENG, FRE, etc.).
- Some discs allow subtitle language setting on the disc menu. (Operation varies between discs, so refer to the manual accompanying the disc.)
- If the desired language is not shown after pressing the SUBTITLE button several times, the disc does not have subtitles in that language.

CHANGING THE CAMERA ANGLE (Multi-Angle Pictures)

The DVD player has a function which allows you to select the desired camera angle.

1. Press the ANGLE button during playback.

- If the disc contains sequences recorded from different camera angles, the angle icon (.Angle) will appear at the top-right of the screen. You can change the camera angle when the icon appears on the screen.
- The camera angle cannot be changed if the disc does not contain sequences recorded from different camera angles.

2. Press the ANGLE button while the angle number is shown on the screen.

- The screen display will disappear after about 5 seconds.
- Current camera angle will be displayed when you press the ANGLE button at first.

Notes
- The subtitle language resets to the one which has been selected in the setup mode, every time the power is turned on or discs are replaced. If that language is not available on a disc, a language defined by the disc is selected.
- It may take time to display the subtitles in the selected language.
- The screen display will disappear after about 5 seconds.
- When “SUBTITLE NOT AVAILABLE” appears onscreen, it means no subtitle is recorded on the scene.

Notes
- For some Audio language, three dashes (---) may appear instead of a three-letter abbreviation for the language (ENG, FRE, etc.).
- Some discs allow subtitle language setting on the disc menu. (Operation varies between discs, so refer to the manual accompanying the disc.)
- If the desired language is not shown after pressing the SUBTITLE button several times, the disc does not have subtitles in that language.

- The subtitle language resets to the one which has been selected in the setup mode, every time the power is turned on or discs are replaced. If that language is not available on a disc, a language defined by the disc is selected.
- It may take time to display the subtitles in the selected language.
- The screen display will disappear after about 5 seconds.
- When “SUBTITLE NOT AVAILABLE” appears onscreen, it means no subtitle is recorded on the scene.

Notes
- For some Audio language, three dashes (---) may appear instead of a three-letter abbreviation for the language (ENG, FRE, etc.).
- Some discs allow subtitle language setting on the disc menu. (Operation varies between discs, so refer to the manual accompanying the disc.)
- If the desired language is not shown after pressing the SUBTITLE button several times, the disc does not have subtitles in that language.
CHANGING THE ON-SCREEN DISPLAY

You can check the information about the disc by pressing the DISPLAY button on the remote control.

For DVDs

1 Press the DISPLAY button during playback.

   CH(Chapter): Current chapter number / the number of total chapter.

   TIME: Elapsed time of the current chapter and remaining time of the current chapter.

2 Press the DISPLAY button again.

   TT(Title): Current title number / the number of total titles.

   TIME: Elapsed time of the current title on remaining time of the current title.

   • Use the number button to start from a desired chapter.

3 Press the DISPLAY button again.

   • BIT RATE indicator will appear.
   • BIT RATE shows the quantity of information which is recorded in DVD.
   • Layer number (1) *1) L0: Layer 0 is playing back
   • L1: Layer 1 is playing back
   • Current Repeat setting (2) *1) C: Chapter repeat
   • T: Title repeat
   • A & B: A-B repeat

   *1) It appears when the layered disc is playing back
   *2) It appears when Repeat play back is set.

4 Press the DISPLAY button or the RETURN button to exit the display.

For audio CDs

1 Press the DISPLAY button during playback.

   TR(Track): Current track number / the number of total tracks.

   TIME: Elapsed time of the current track and remaining time of the current track.

2 Press the DISPLAY button again.

   • Use the number button to start from a desired track.

3 Press the DISPLAY button to exit the display.

BLACK LEVEL SETTINGS

You can set to make the black parts of the picture brighter.

1 Press the MODE button during playback.

   • The setup screen will appear.

2 Press the ENTER button to set it on or off.

   • ON : It makes the dark parts brighter.(Default : ON)
   • OFF : Original picture which is recorded on the disc will be shown.

   • Press the RETURN button to exit the display.

TRUSURROUND SETTINGS

You can enjoy stereophonic sound system when you playback Dolby Digital, PCM 48kHz and MPEG sound.

1 Press the SURROUND button during playback.

   • The setup screen will appear.

2 Press the SURROUND button to turn it on or off.

   • ON : SRS TruSurround on (Default : OFF)
   • OFF : SRS TruSurround off

   • Press the RETURN button to exit the display.

   • SRS TruSurround is available only when the DVD player is connected to a TV or stereo using the red and white AUDIO OUT jacks on the DVD player.
CHANGING THE SETUP ITEMS

LANGUAGE SETTINGS

1 Press the SETUP button in STOP mode.
• The setup screen will appear.

2 Press the ▲/▼ buttons to select Language, and then press the ENTER button.

3 Press the ▲/▼ buttons to select an item, and then press the ENTER button.

AUDI O:
(Voice is played back in selected language.)

SUB TIT L E:
(Subtitles are shown in selected language.)

4 Press the ▲/▼ buttons to select a desired item, and then press the ENTER button.
• If “OTHER” is selected on the “AUDIO LANGUAGE” “SUBTITLE LANGUAGE” or “DISC MENU LANGUAGE” setting screen, the Language Code setting screen will appear. Press the numeric buttons to enter the desired language code while referring to the list on page 29.

5 Press the SETUP button.
• The setup mode will be canceled and the ordinary screen will appear.

Notes
• Language Setting for Audio and Subtitle is not available with some discs. Then use the Audio and Subtitle button. Details are on pages 22 and 23.
• You can also select the item by pressing the numbers which are displayed with the item.
• When you change the setup items, press the STOP button if you are in playback mode.
• While the setup menu is shown you can not open or close the tray.
1 Press the SETUP button in STOP mode.

- The setup screen will appear.

2 Press the ▲/▼ buttons to select DISPLAY and then press the ENTER button.

3 Press the ▲/▼ buttons to select an item, and then press the ENTER button.

4 Press the ▲/▼ buttons to select a desired item, and then press the ENTER button.

5 Press the SETUP button.

- The setup mode will be canceled and the ordinary screen will appear.

Notes

- Be sure to press the SETUP button, or the setting will not work.
- You can also choose the item by pressing the numbers.
- While the setup menu is shown you can not open or close the tray.
**AUDIO SETTINGS**

1. Press the SETUP button in STOP mode.
   - The setup screen will appear.

2. Press the ▲/▼ buttons to select Audio and then press the ENTER button.

3. Press the ▲/▼ buttons to select an item, and then press the ENTER button.

   **DRC (Default : OFF)**
   - **On : DRC**
     - (Dynamic Range Control)
     - This function is for controlling the range of sound volume. By compressing the range of sound volume, it is possible not only to suppress the output of loud sound at night but also to raise the volume of low sound.
   - This function is effective only for the sound recorded by Dolby Digital recording.

   - Dolby Digital (default : BITSTREAM)
   - BITSTREAM : Output by Dolby Digital
   - Set to BITSTREAM when the unit is connected to Dolby Digital Decoder. To turn off Dolby Digital, set at PCM.

   **DTS (Default : OFF)**
   - BITSTREAM : Output DTS sound
   - Set to BITSTREAM when the unit is connected to DTS Decoder.

   **MPEG (Default : PCM)**
   - BITSTREAM : Output MPEG sound
   - Set to BITSTREAM when the unit is connected to MPEG Decoder. To turn off MPEG, set at PCM.

   **DOWN SAMPLING (Default : AUTO)**
   - Set the output for the DVD recorded in PCM 96 kHz (96 kHz or 48 kHz, or AUTO)
   - Press the ▲/▼ buttons to select an item, and then press the ENTER button.

   - When playing a disc with copyright protection
     - If you select 96 kHz, copyright protection will be activated and no sound will come out. If you select AUTO, sound will be down sampled at 48 kHz.

4. Press the SETUP button.
   - The setup mode will be canceled and the ordinary screen will appear.

**Note**
- While the setup menu is shown you can not open or close the tray.
PARENTAL LOCK

1 Press the SETUP button in STOP mode.
   • The setup screen will appear.

2 Press the ▲/▼ buttons to select PARENTAL, and then press the ENTER button.

3 Press the numeric buttons to enter the 4-digit password, and then press the ENTER button.
   • When doing this for the first time, enter any 4 digits. (except for 4737) That number will be used as the password from the second time onward.
   • By entering the password, you can then change the control level and password settings.
   • When change is selected, press the numeric buttons to enter the 4 digits password. Then press the ENTER button.

4 Press the ▲/▼ buttons to select an item, and then press the ENTER button.

When Parental Level is selected
• Press the ▲/▼ buttons to select an item from ALL or 8 to 1, and then press the ENTER button.

5 Press the SETUP button.
   • The setup mode will be canceled and the ordinary screen will appear.

CONTROL LEVELS

• ALL
   All parental lock is cancelled.

• Level 8 ADULT
   DVD software of any grade (adult/general/children) can be played back.

• Levels 7 to 2
   Only DVD software intended for general use and children can be played back.

• Level 1 KIDS SAFE
   Only DVD software intended for children can be played back, with those intended for adult and general use prohibited.

Notes
• With some DVDs, it may be difficult to find if they are compatible with parental lock. Be sure to check if the parental lock function operates in the way that you have set.
• Record the password in case you forget it.
• While the setup menu is shown you can not open or close the tray.

IF YOU FORGET THE PASSWORD

1) Press the 4, 7, 3, 7 at step 3.
   • Password will be cleared and parental level will be set to ALL.

2) Proceed the above steps 3-5 again.

If you choose a Language that has a 3 letter language code, the code will be displayed every time you change the Audio or Subtitle language setting on pages 22 and 23. If you choose any other languages, "---" will be displayed instead. (3 letter language code is written in bracket.)
### TROUBLESHOOTING GUIDE

If the DVD player does not perform properly when operated as instructed in this Instruction Manual, check the player by consulting the following checklist.

<table>
<thead>
<tr>
<th>Symptom</th>
<th>Cause</th>
<th>Remedy</th>
</tr>
</thead>
<tbody>
<tr>
<td>No power</td>
<td>● Loose power plug.</td>
<td>● Insert the power plug firmly into the wall outlet.</td>
</tr>
<tr>
<td></td>
<td>● The remote control is not aimed at the sensor on the player.</td>
<td>● Unplug the outlet once, and wait for 10 minutes, and then plug it in again.</td>
</tr>
<tr>
<td></td>
<td>● Obstacles present between the remote control and the sensor.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>● The remote control is too far away from the player.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>● Dead batteries.</td>
<td>● Use the remote control within 7m of the player.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>● Replace the batteries.</td>
</tr>
<tr>
<td>The player does not respond to the remote control.</td>
<td>● Loose video connection.</td>
<td>● Connect the video cables firmly.</td>
</tr>
<tr>
<td></td>
<td>● Wrong disc.</td>
<td>● Insert a correct video disc that plays on this player.</td>
</tr>
<tr>
<td>No picture</td>
<td>● Loose audio connection.</td>
<td>● Connect the audio cables firmly.</td>
</tr>
<tr>
<td></td>
<td>● The power of the connected audio component is off.</td>
<td>● Turn the power of the audio component on.</td>
</tr>
<tr>
<td></td>
<td>● Wrong audio output settings.</td>
<td>● Correct the audio output settings.</td>
</tr>
<tr>
<td></td>
<td>● Wrong input settings on the connected audio component.</td>
<td>● Correct the input settings on the audio component.</td>
</tr>
<tr>
<td>No sound</td>
<td>● Copy protection is active.</td>
<td>● Connect the player directly to the TV.</td>
</tr>
<tr>
<td></td>
<td>● Immediately after playing, press fast forward or in reverse.</td>
<td>● There are some cases where pictures may be slightly distorted, which are not a sign of a malfunction.</td>
</tr>
<tr>
<td></td>
<td>● The 1st layer is switching to the 2nd layer, when playing a two layered disc.</td>
<td>● Although Pictures may stop for a moment, this is not a malfunction.</td>
</tr>
<tr>
<td>Distorted picture</td>
<td>● The selected language is not available for audio or subtitles on the DVD.</td>
<td>● No malfunction.</td>
</tr>
<tr>
<td>Audio or subtitle language does not match the setup.</td>
<td>● The DVD does not contain sequences recorded from different camera angles.</td>
<td>● No malfunction.</td>
</tr>
<tr>
<td>The camera angle cannot be changed.</td>
<td>● The DVD does not contain audio source or subtitles in the selected language.</td>
<td>● No malfunction.</td>
</tr>
<tr>
<td>Audio or subtitle language cannot be changed.</td>
<td>● That operation is prohibited by the player or disc.</td>
<td>● No malfunction.</td>
</tr>
<tr>
<td>“Prohibited icon” appears on the screen, prohibiting an operation.</td>
<td>● The setup menu is displayed.</td>
<td>● Cancel the setup mode.</td>
</tr>
</tbody>
</table>

### Notes

Some functions are not available in specific modes, but this is not a malfunction. Read the description in this Instruction Manual for details on correct operations.

- Playback from a desired track and random playback are not available during programme playback.
HANDLING PRECAUTIONS

SERVICING

Should your DVD player become inoperative, do not try to correct the problem by yourself. There are no user-serviceable parts inside. Turn off, unplug the power cord, and please call our help line to locate an Authorised Service Centre.

CABINET CLEANING

- Wipe the front panel and other exterior surfaces of the DVD player with a soft cloth immersed in lukewarm water and wrung dry.
- Never use a solvent or alcohol. Do not spray insecticide liquid near the DVD player. Such chemicals may cause damage and discoloration to the exposed surfaces.

IF THE LASER OPTICAL PICKUP UNIT IS DIRTY

- If the player still does not perform properly when it is operated while referring to the relevant sections and to “TROUBLESHOOTING GUIDE” in this Instruction Manual, the laser optical pickup unit may be dirty. Consult your dealer or an Authorised Service Centre for inspection and cleaning of the laser optical pickup unit.

DISC HANDLING

- Use discs which have the following logos on them. (Optical audio digital discs.)

- Handle the discs so that fingerprints and dust do not adhere to the surfaces of the discs.

- To clean-off, use a soft cloth.
- Do not use a hard cloth since this will mar the disc.
- Wipe the disc in a straight line from center to edge.
- Never wipe with a circular motion.

- Do not use detergent or abrasive cleaning agents.

- Always store the disc in its protective case when it is not used.
SPECIFICATIONS

Product type : DVD Player
Discs : DVD video
          Audio CD
Output signal format : PAL colour
Frequency response
  DVD (linear sound) : 20 Hz to 22 kHz (sample rate: 48 kHz)
          20 Hz to 44 kHz (sample rate: 96 kHz)
  CD : 20 Hz to 20 kHz
Signal-to-noise ratio (S/N ratio)
  CD : 110 dB (JEITA)
Dynamic range
  DVD (linear sound) : 95 dB
  CD : 94 dB (JEITA)
Total distortion factor
  CD : 0.005% (JEITA)
Wow and flutter : Below the measurement limitation (+/-0.001% W PEAK) (JEITA)
Connections
  S-Video output : Mini DIN 4-pin jack (75 ohm)
  Video output : One RCA connector/EURO A/V jack, 1 Vpp (75 ohm)
  Coaxial digital audio output : One pin jack, 500mVpp (75 ohm)
  Analog audio output : Two RCA connectors (one left channel, one right channel)/EURO A/V jack,
                     2 Vrms (47 kilo-ohm)
  RGB video output : EURO A/V jack(R)/(G)/(B), 714mVpp (75 ohm)
  Optical digital audio output : Optical connector
Power source : AC 220-240 V, 50 Hz
Power consumption : 14 W (standby: 2.2 W)
Operating temperature : 5°C to 40°C
Dimensions : W 17-1/8” (435 mm)
               H 2-15/16” (75 mm)
               D 8-1/2” (216 mm)
Weight : 4.63 lbs (2.1 kg)

• Designs and specifications are subject to change without notice.
• If there is a discrepancy between languages, the default language will be English.
Used correctly, domestic batteries are a safe and dependable source of portable power. Problems can occur if they are misused or abused — resulting in leakage or, in extreme cases, fire or explosion. Here are some simple guidelines to safe battery use designed to eliminate any such problems.

**ALWAYS**
Take care to fit your batteries correctly, observing the plus and minus marks on the battery and appliance. Incorrect fitting can cause leakage or in extreme cases, fire or even an explosion.

**ALWAYS**
Replace the whole set of batteries at one time, taking care not to mix old and new batteries or batteries of different types, since this can result in leakage or in extreme cases, fire or even an explosion.

**ALWAYS**
Store unused batteries in their packaging and away from metal objects which may cause a short-circuit resulting in leakage or, in extreme cases, fire or even an explosion.

**ALWAYS**
Remove dead batteries from equipment and all batteries from equipment you know you are not going to use for a long time. Otherwise the batteries may leak and cause damage.

**NEVER**
Never dispose of batteries in fire as this can cause them to explode. Please put dead batteries in with the normal household waste.

**NEVER**
Never attempt to recharge ordinary batteries, either in a charger or by applying heat to them. They may leak cause fire or even explode. There are special rechargeable batteries which are clearly marked as such.

**NEVER**
Supervise children if they are replacing batteries themselves in order to ensure these guidelines are followed.

**NEVER**
Remember that small button cell batteries such as used in some hearing aids, toys, games and other appliances, are easily swallowed by young children and this can be dangerous.

**ALWAYS**
Keep loose button cells away from young children.

**ALWAYS**
Make sure battery compartments are secure.

**ALWAYS**
Seek medical advice if you believe a cell has been swallowed.
SOME DO’S AND DON’TS ON THE SAFE USE OF EQUIPMENT

This equipment has been designed and manufactured to meet international safety standards but like any electrical equipment, care must be taken if you are to obtain the best results and safety is to be assured.

***************

DO read the operating instructions before you attempt to use the equipment.
DO ensure that all electrical connections (including the mains plug, extension leads and interconnections between pieces of equipment) are properly made and in accordance with the manufacturer's instructions.
Switch off and withdraw the mains plug when making or changing connections.
DO consult your dealer if you are ever in doubt about the installation, operation or safety of your equipment.
DO be careful with glass panels or doors on equipment.

***************

DON’T continue to operate the equipment if you are in any doubt about it working normally, or if it is damaged in any way switch off, withdraw the mains plug and consult your dealer.
DON’T remove any fixed cover as this may expose dangerous voltages.
DON’T leave equipment switched on when it is unattended unless it is specifically stated that it is designed for unattended operation or has a standby mode. Switch off using the switch on the equipment and make sure that your family know how to do this. Special arrangements may need to be made for infirm or handicapped people.
DON’T use equipment such as personal stereos or radios so that you are distracted from the requirements of traffic safety. It is illegal to watch television whilst driving.
DON’T listen to headphones at high volume, as such use can permanently damage your hearing.
DON’T obstruct the ventilation of the equipment, for example with curtains or soft furnishings. Overheating will cause damage and shorten the life of the equipment.
DON’T use makeshift stands and NEVER fix legs with wood screws — to ensure complete safety always fix the manufacturer’s approved stand or legs with the fixings provided according to the instructions.
DON’T allow electrical equipment to be exposed to rain or moisture.

ABOVE ALL

---NEVER let anyone especially children push anything into holes, slots or any other opening in the case — this could result fatal electrical shock:
---NEVER guess or take chances with electrical equipment of any kind.
---it is better to be safe than sorry!

***************
For the period of 12 MONTHS from the date of purchase your product has the benefit of our FULL PARTS AND LABOUR GUARANTEE as detailed below.

We undertake to replace or repair any part of the product which fails due to manufacturing defect within 12 months of the date of purchase provided that:

1) The product has been installed and used only in accordance with the instructions supplied with the product.
2) The product has not been repaired, maintained, or modified by any person other than our authorised Engineer.
3) The product serial number is not removed or altered.

This guarantee does not apply to products acquired secondhand or for commercial or communal use. This guarantee does not extend to user control adjustments, battery replacement and aerial adjustment.

Any parts replaced under guarantee shall become the property of Hitachi Home Electronics (Europe) Ltd.

Please note that evidence of the date of purchase will be required before service under guarantee is carried out. This guarantee does not affect your statutory rights. In all cases of difficulty consult your Hitachi dealer.
