

marantz® UNIVERSAL REMOTE CONTROL

RC1400

RC1400 Universal learning remote control

NEW

The RC1400 provides complete control of every component in a home entertainment system, eliminating the need for multiple remotes. The Marantz RC1400 Universal Learning Remote Control is an easy to use all-in-one remote control, that provides total control of a complete home entertainment system including TV's, cable boxes, satellite receivers, DVD video players, VCR's, and virtually all types of audio components. The RC1400 even includes advanced programming capabilities such as Macro keys that can transmit a series of commands at the touch of a single button. Unlike other "all-in-one" remotes that are difficult to program or are limited in functionality, the RC1400 sets up in minutes, with powerful programming capabilities that let you customize it to match your exact requirements.

because music matters

Features:

- LCD display read out
- Programmable keys
- Macro function keys
- EL back light
- Rename function
- Clone function

- Clock and timer function

Benefits:

- Complete and userfriendly control feedback using LCD readout
- Entire system control by assigning IR commands from any device, into one learnable remote
- Multiple IR commands activated with one key for maximum ease of use
- Easy read out and operation, even in the dark
- Conveniently change and personalize the screen button labels
- Transfer all the IR codes and macros from a fully programmed RC1400, to prevent repetitive programming or to make a back-up remote
- Let the remote operate your home environment every day again with user friendly convenience

Technological glossary:

Control your world

Designed for easy-to-use, intuitive control, the Marantz RC1400 is the latest addition to the Marantz line of programmable system remotes. Want to control an entire entertainment system at the touch of a button? With the RC1400 programmable remote, it is no problem. Derived from the award winning and reviewer acclaimed, "Remote of the Gods" RC2000mk2, it features one button "macro" operation and is also pre-programmed to operate an entire Marantz audio video system right out of the box. If that isn't enough, the RC1400 provides powerful learning and program capabilities to meet and exceed your systems requirements.

Personalize for your convenience

The RC1400 is pre-programmed to control Marantz audio and video components and can operate different brands as well. With the Marantz Digital Learning capability featuring a learning frequency up to 70kHz the RC1400 can easily learn the codes from most non-Marantz component, including IR-controlled accessories such as a motorized projection screens and lighting. The large non-volatile flash memory ensures that non of the personal programming is lost even when the batteries run out. The RC1400 can record your favorite communication sequences as macros, to transmit multiple commands at the touch of one button.

Programmable keys

Every Marantz AV-amplifier or AV-receiver comes with a system remote control to basically fully control every Marantz component in a system. This system remote control however offers even more! In order to have maximum control flexibility, the remote can also be used to control non-Marantz components in a system. The RC1400 can handle 11 devices and has 54 keys at your service, of which 52 are programmable. In total this beauty can handle 462 codes to make sure that you can operate every device in your home. The screen contains two pages with 5 buttons each. The labels of these buttons can be changed according to your preference. The EL backlight function makes sure that this remote service you even in times of darkness.

Macro function keys

To combine multiple commands, this remote offers the possibility to define macro's. By activating a macro, a sequence of commands is transmitted. The RC1400 can handle 20 commands in one macro and even has an adjustable macro interval time. Very usefull if you want to switch on your entire system. It just requires pressing one button.
