IMPORTANT SAFEGUARDS

Please read all of these instructions regarding your display and retain them for future reference.

1. Read this manual fully and carefully before operating your display.

2. Keep this manual handy as a reference for operating procedures and safety information.

3. Pay close attention to all warnings in this manual and follow the instructions carefully.

4. Do not allow other persons to use this system until they have read and understood the operating instructions.

5. Do not install the display where it may (i) obstruct the driver’s vision, (ii) impair the performance of any of the vehicle’s operating systems or safety features, including air bags, hazard lamp buttons or (iii) impair the driver’s ability to safely operate the vehicle.

6. Do not operate this display if doing so in any way will divert your attention from the safe operation of your vehicle. Always observe safe driving rules and follow all existing traffic regulations. If you experience difficulty in operating the system or reading the display, park your vehicle in a safe location and make necessary adjustments.

7. Please remember to wear your seat belt at all times while operating your vehicle. If you are ever in an accident, your injuries can be considerably more severe if your seat belt is not properly buckled.

8. Never use headphones while driving.

9. To promote safety, certain functions are disabled unless the parking brake is on, and the vehicle is not in motion.

10. Never set the volume of your display so high that you cannot hear outside traffic and emergency vehicles.

WARNING

Do not attempt to install or service your display by yourself. Installation or servicing of the display by persons without training and experience in electronic equipment and automotive accessories may be dangerous and could expose you to the risk of electric shock or other hazards.

To ensure safe driving

WARNING

• LIGHT GREEN LEAD AT POWER CONNECTOR IS DESIGNED TO DETECT PARKED STATUS AND MUST BE CONNECTED TO THE POWER SUPPLY SIDE OF THE PARKING BRAKE SWITCH. IMPROPER CONNECTION OR USE OF THIS LEAD MAY VIOLATE APPLICABLE LAW AND MAY RESULT IN SERIOUS INJURY OR DAMAGE.

• To avoid the risk of damage and injury and the potential violation of applicable laws, this unit is not for use with a video screen that is visible to the driver.

• To avoid the risk of accident and the potential violation of applicable laws, no viewing of front seat video should ever occur while the vehicle is being driven.

• In some countries or states the viewing of images on a display inside a vehicle even by persons other than the driver may be illegal. Where such regulations apply, they must be obeyed and this unit’s DVD features should not be used.

When you attempt to watch a video image while driving, the warning “Viewing of front seat video source while driving is strictly prohibited.” will appear on the front display. To watch a video image on the front display, park your vehicle in a safe place and apply the parking brake.
Parking brake interlock
Certain functions (Video viewing and certain touch panel keys) offered by this unit could be dangerous and/or unlawful if used while driving. To prevent such functions from being used while the vehicle is in motion, there is an interlock system that senses when the parking brake is set. If you attempt to use the functions described above while driving, they will be come disabled until you stop the vehicle in a safe place, and (1) apply the parking brake, (2) release the parking brake, and then (3) apply the parking brake again. Please keep the brake pedal pushed down before releasing the parking brake.

When using a display connected to V OUT
This unit’s V OUT is for connection of a display to enable passengers in the rear seats to watch the DVD or Video CD.

WARNING
NEVER install the rear display in a location where the driver can watch a DVD while driving.

When using the rear view camera
With an optional rear view camera, this unit can be used as an aid to keep an eye on trailers, or when backing into a tight parking spot.

WARNING
• SCREEN IMAGE MAY APPEAR REVERSED.
• USE INPUT ONLY FOR REVERSE OR MIRROR IMAGE REAR VIEW CAMERA. OTHER USE MAY RESULT IN INJURY OR DAMAGE.

CAUTION
• The rear view camera function is to be used as an aid to keep an eye on trailers, or while backing up. Do not use for entertainment purposes.
• Please note that the edges of the rear view camera images may differ slightly according to whether full screen images are displayed when backing up, and whether the images are used for checking the rear when the vehicle is moving forward.

To avoid battery exhaustion
Keep the vehicle engine running when using this unit to avoid draining the battery power.
• When no power is supplied to this unit, such as when the vehicle battery is being replaced, the microcomputer of this unit returns to its initial condition. We recommend that you transcribe the audio adjustment data.

WARNING
Do not use with vehicles that do not feature an ACC position.
FCC ID: AJDK044
MODEL NO.: AVH P4400BH/AVH P3400BH/AVH P2400BT
IC: 775E K044
This device complies with Part 15 of FCC Rules and Industry Canada licence exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of this device. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.
The antenna for Bluetooth cannot be removed (or replaced) by user.
This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines in Supplement C to OET65 and RSS 102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that it deemed to comply without maximum permissible exposure evaluation (MPE). But it is desirable that it should be installed and operated keeping the radiator at least 20 cm or more away from person’s body (excluding extremities: hands, wrists, feet and ankles).

MODEL NO.: AVH P1400DVD
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Information to User
Alteration or modifications carried out without appropriate authorization may invalidate the user’s right to operate the equipment.

Note
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.
The Safety of Your Ears is in Your Hands

Get the most out of your equipment by playing it at a safe level—a level that lets the sound come through clearly without annoying blaring or distortion and, most importantly, without affecting your sensitive hearing. Sound can be deceiving. Over time, your hearing “comfort level” adapts to higher volumes of sound, so what sounds “normal” can actually be loud and harmful to your hearing. Guard against this by setting your equipment at a safe level BEFORE your hearing adapts.

ESTABLISH A SAFE LEVEL:
- Set your volume control at a low setting.
- Slowly increase the sound until you can hear it comfortably and clearly, without distortion.
- Once you have established a comfortable sound level, set the dial and leave it there.

BE SURE TO OBSERVE THE FOLLOWING GUIDELINES:
- Do not turn up the volume so high that you can’t hear what’s around you.
- Use caution or temporarily discontinue use in potentially hazardous situations.
- Do not use headphones while operating a motorized vehicle; the use of headphones may create a traffic hazard and is illegal in many areas.

About this unit

The tuner frequencies on this unit are allocated for use in North America. Use in other areas may result in poor reception.

WARNING
Handling the cord on this product or cords associated with accessories sold with the product may expose you to chemicals listed on proposition 65 known to the State of California and other governmental entities to cause cancer and birth defect or other reproductive harm. Wash hands after handling.

CAUTION
USE OF CONTROL OR ADJUSTMENT OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.
CAUTION:
THE USE OF OPTICAL INSTRUMENTS WITH THIS PRODUCT WILL INCREASE EYE HAZARD.

CAUTION
- Do not allow this unit to come into contact with liquids. Electrical shock could result. Also, damage to this unit, smoke, and overheating could result from contact with liquids.
- Keep this manual handy for future reference.
- Always keep the volume low enough to hear outside sounds.
- Avoid exposure to moisture.
- If the battery is disconnected or discharged, any preset memory will be erased.

Important (Serial number)
The serial number is located on the bottom of this unit. For your own security and convenience, be sure to record this number on the enclosed warranty card.

DVD video disc region numbers

Only DVD video discs with compatible region numbers can be played on this player. You can find the region number of the player on the bottom of this unit and in this manual (refer to Specifications on page 108).
Before you start

About this manual
This unit features a number of sophisticated functions to ensure superior reception and operation. All the functions have been designed for the easiest possible use, but many are not self-explanatory. This operation manual will help you benefit fully from this unit’s potential and to maximize your listening enjoyment. We recommend that you familiarize yourself with the functions and their operation by reading through the manual before you begin using this unit. It is especially important that you read and observe WARNINGs and CAUTIONs in this manual.

Operating environment
This unit should be used within the temperature ranges shown below.
Operating temperature range: 10 °C to +60 °C (14 °F to 140 °F)
EN300328 ETC test temperature: 20 °C and +55 °C (4 °F and 131 °F)

After-sales service for Pioneer products
Please contact the dealer or distributor from where you purchased this unit for after sales service (including warranty conditions) or any other information. In case the necessary information is not available, please contact the companies listed below:
Please do not ship your unit to the companies at the addresses listed below for repair without advance contact.

1 Register your product. We will keep the details of your purchase on file to help you refer to this information in the event of an insurance claim such as loss or theft.
2 Receive updates on the latest products and technologies.
3 Download owner’s manuals, order product catalogues, research new products, and much more.
4 Your feedback is important in our continual effort to design and build the most advanced, consumer focused product in the industry.

Serial number
Before you start

Demo mode

The feature demo automatically starts when you select Off for the source and continues while the ignition switch is set to ACC or ON. To cancel the feature demo, press and hold MUTE. Press and hold MUTE again to restart. Operating the feature demo while the car engine is turned off may drain the battery power.

⚠️ Important
Failure to connect the red lead (ACC) of this unit to a terminal coupled with ignition switch on/off operations may lead to battery drain.

Adjusting the response positions of the touch panels (Touch Panel Calibration)

If you feel that the touch panel keys on the screen deviate from the actual positions that respond to your touch, adjust the response positions of the touch panel. Refer to Adjusting the response positions of the touch panels (Touch Panel Calibration) on page 75.

Use and care of the remote control

Installing the battery

Slide the tray on the back of the remote control out and insert the battery with the plus (+) and minus (–) poles aligned properly.
- When using for the first time, pull out the film protruding from the tray.

⚠️ WARNING
- Keep the battery out of the reach of children. Should the battery be swallowed, consult a doctor immediately.
- Batteries (battery pack or batteries installed) must not be exposed to excessive heat such as sunshine, fire or the like.

⚠️ CAUTION
- Use one CR2025 (3 V) lithium battery.
- Remove the battery if the remote control is not used for a month or longer.
- There is a danger of explosion if the battery is incorrectly replaced. Replace only with the same or equivalent type.
- Do not handle the battery with metallic tools.
- Do not store the battery with metallic objects.
- If the battery leaks, wipe the remote control completely clean and install a new battery.
- When disposing of used batteries, comply with governmental regulations or environmental public institutions’ rules that apply in your country/area.
- “Perchlorate Material special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate. (Applicable to California, U.S.A.)”

Using the remote control

Point the remote control in the direction of the front panel to operate.
- The remote control may not function properly in direct sunlight.

⚠️ Important
- Do not store the remote control in high temperatures or direct sunlight.
- Do not let the remote control fall onto the floor, where it may become jammed under the brake or accelerator pedal.
Head unit

(AVH-P4400BH)

- **1 SRC/OFF**
  - Displaying the home display.

- **2 +/– (VOLUME/VOL)**
  - Turning the information display off.

- **3 MUTE**
  - USB port
  - When connecting, open the USB connector lid.

- **4 HOME**
  - AUX input jack
  - (3.5 mm stereo/video jack)
  - Use to connect an auxiliary device.

- **5 MODE**
  - CAUTION!
    - Do not use unauthorized products.

- **6 ⬅️ ➡️ (TRK)**
  - When the navigation system is connected, press MODE to switch to the navigation display. Press MODE and hold to turn the display off. Press MODE again to turn the display on.
  - For details on how to operate a navigation system from this unit, refer to its operation manual.

Notes

- When the navigation system is connected, press MODE to switch to the navigation display. Press MODE and hold to turn the display off. Press MODE again to turn the display on.
  - For details on how to operate a navigation system from this unit, refer to its operation manual.

**Part** | **Part**
--- | ---
1 SRC/OFF | 7 (eject)
2 +/– (VOLUME/VOL) | 8 Disc loading slot
3 MUTE | 9 Auto EQ microphone input jack
| 10 When connecting, open the USB connector lid.
| 11 Use to connect an auxiliary device.

**CAUTION**

- (AVH-P3400BH/AVH-P2400BT/AVH-P1400DVD)
  - Use an optional Pioneer USB cable (CD U50E) to connect the USB audio player/USB memory as any device connected directly to the unit will protrude out from the unit and may be dangerous.

- Do not use unauthorized products.

Source off display

Source on display

1 Source Off
2 Rear View

Touch panel keys

1 Source icon
   Selecting a favorite source. When the source icon is not displayed, it can be displayed by touching the screen.

2 Rear View
   Displaying the rear view image by turning the rear view image on. When the rear view image is displayed, you can switch to the source display by touching the display. You can operate from the source display temporarily at this time. If you do not perform any operations within a few seconds, the display will return to the rear view image. To turn off the rear view image, press HOME to return to the HOME display and then press the touch key again. This unit can be setup to display the rear view image automatically when you move the shift lever to the REVERSE (R) position. For details about the settings, refer to Setting the rear view camera (back up camera) on page 67.

3 OFF
   Turning the source off.

4 Audio
   Displaying the Bluetooth connection menu. Refer to Introduction of Bluetooth connection menu operations on page 71.

5 Theme
   Displaying the Theme menu. Refer to Introduction of Theme setting menu operations on page 74.

6 VIDEO
   Displaying the menu. Refer to Menu operations on page 57.
Switching to HOME display
1 Press HOME when you want to switch the display.

Turning the source on using the buttons
1 Press SRC/OFF to turn the source on.

Turning the source off using the buttons
1 Press SRC/OFF and hold until the source turns off.

Selecting a source using the buttons
1 Press SRC/OFF to cycle through the sources listed below:

- XM XM tuner
- SIRIUS SIRIUS tuner
- Digital Radio Built in Digital Radio tuner (Function of AVH P4400BH/AVH P3400BH)
- Disc Built in DVD player
- USB/iPod USB/iPod
- Pandora Pandora
- TEL/Audio Bluetooth telephone/audio (Function of AVH P1400DVD)
- Audio Built in Bluetooth audio (Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
- AUX AUX
- AV AV input
- EXT 1 External unit 1
- EXT 2 External unit 2

Adjusting the volume
1 Press +/- (VOLUME/VOL) to adjust the volume.

Notes
- In this manual, iPod and iPhone will be referred to as “iPod”.
- The USB/iPod icon will change as follows:
  - USB is displayed when a USB storage device is connected.
  - iPod is displayed when an iPod is connected.
  - USB/iPod is displayed when no device is connected.
• An external unit refers to a Pioneer product, such as those which will be available in the future. Although incompatible as a source, the basic functions of up to two external units can be controlled with this unit. When two external units are connected, the external units are automatically allocated to external unit 1 or external unit 2.

### Operating the scroll icon and the scrubber bar

1. Scroll icon
   Appears when selectable items are hidden.
2. Scrubber bar
   Appears when items cannot be displayed on a single page only.

---

Viewing the hidden items
1. Touch the scroll icon or drag the scrubber bar to view any hidden items.
2. Also, you can drag the list to view any hidden items.

Specifying the playback point
1. Drag the scrubber bar on the screen.
   (Not available when the scrubber bar is grayed out.)
Activating the touch panel keys

Touch panel keys

1. Turning the display to simplified display.
   Returning to the normal display by touching the screen anytime.

2. Viewing the hidden touch panel keys.

3. Shortening the touch panel area.

Common operations for menu settings/lists

- Displaying still images as a slide show when listening to another source.
  You cannot view slideshows when DVD or USB source is selected.
  Viewing slideshows. Refer to Introduction of still image playback as a slideshow operations on page 33.

- Displaying the Favorite menu. Refer to favorite menu on page 71.

- Returning to the previous display. Returning to the previous list/category. (the folder/category one level higher)

Adjusting the LCD panel angle

(Function of AVH P4400BH)

CAUTION
Keep hands and fingers clear of the unit when opening, closing, or adjusting the LCD panel. Be especially cautious of children’s hands and fingers.

1. Press (eject) to display the ejecting menu.

2. Adjust the LCD panel to an easily viewable angle.

   - Laying the panel down.
   - Returning the panel to the upright position.

   As the set angle is saved, the LCD panel will automatically be adjusted to the same position the next time the LCD panel is opened.

Ejecting a disc

(AVH P4400BH)
CAUTION
Keep hands and fingers clear of the unit when opening, closing, or adjusting the LCD panel. Be especially cautious of children’s hands and fingers.

1 Press ▲ (eject) to display the ejecting menu.

2 Eject a disc.

![Ejecting a disc.](image)

Ejecting a disc

Ejecting a disc (AVH P3400BH/AVH P2400BT/AVH P1400DVD)

1 Press ▲ (eject). ▶

Setting the clock

1 Switch to Clock Adjustment display.
Refer to Basic operations on page 14.

2 Select the item to set.

3 Touch ▲ or ▼ to set the correct date and time. ▶
**Introduction of tuner operations**

**Radio**

- **1** Radio
- **2** Local
- **3** FM1
- **4** FM2
- **5** FM3
- **6** AM

**Touch panel keys**

1. **FM1**
   - Selecting a band (FM1, FM2, or FM3) by touching the left icon. Switching to the AM band by touching the right icon. The icon for the selected band is highlighted.

2. **Local**
   - Turning local seek tuning on and off. Refer to **Tuning in to strong signals** on page 39.

3. **EQ**
   - Switching the equalizer curves. Refer to **Using the equalizer** on page 57. Touch and hold for more than two seconds to turn the auto equalizer on or off. Refer to **Using the auto equalizer** on page 58.

4. **Preset channel list**
   - Displaying the preset channel list. Refer to **Storing and recalling stations** on page 39. Refer to **Storing the strongest stations** on page 39.

5. **TAG**
   - Saving song information (tag) from the broadcasting station to your iPod. Refer to **Using iTunes tagging** on page 40.

6. **Seek tuning**
   - Tuning up or down manually. Touch and hold for more than two seconds to skip stations. Seek tuning starts as soon as you release. Touch again to cancel seek tuning.

**Switching preset channels using the buttons**

1. Press \( \leftarrow \) or \( \rightarrow \) (TRK).

**Seek tuning using the buttons**

1. Press and hold \( \leftarrow \) or \( \rightarrow \) (TRK).

**Notes**

- Listening AM radio while an iPod is charged from this unit may generate noise. In this case, disconnect the iPod from this unit.
- Touch panel keys not listed under **Introduction of tuner operations** may appear on the display. Refer to **Indicator list** on page 97.
About HD Radio™ broadcasting

HD Radio™ broadcasting is high quality audio and data services. HD Radio broadcasting is brought to you by your local FM/AM stations. HD Radio broadcasting features the following:

- High quality audio
- FM multicasting
- Data services

AM band
- Analog AM
- Analog AM → Digital AM

FM band
- Analog FM
- Analog FM → Digital FM
- Analog FM
  - Digital FM-1ch
  - Digital FM-2ch
  - Digital FM-3ch

PSD
Program Service Data: Contributes to the superior user experience of HD Radio Technology. Presents song name, artist, station IDs, HD2/HD3 Channel Guide, and other relevant data streams.

HD2/HD3
Adjacent to traditional main stations are extra local FM channels. These HD2/HD3 Channels provide new, original music as well as deep cuts into traditional genre.

Digital Sound
Digital, CD quality sound. HD Radio Technology enables local radio stations to broadcast a clean digital signal. AM sounds like today’s FM and FM sounds like a CD.

iTunes® Tagging

iTunes® Tagging provides you the opportunity to discover a wide range of content and the means to “tag” that content for later review and purchase from the iTunes® Store.

Introduction of HD Radio tuner operations

This receiver is ready to receive HD Radio broadcasts when connected to the GEX P20HD, sold separately. For details concerning operation, refer to the HD Radio tuner’s operation manual.
**Touch panel keys**

1. **FM1**
   - Selecting a band (FM or AM) by touching the band key. The touch panel key for the selected band is highlighted.
   - Switching between FM1, FM2, and FM3 by touching the band key.
   - When AM is selected, you cannot switch to another AM band by touching the band key.

2. **Local**
   - Turning local seek tuning on or off.
   - Refer to Tuning in to strong HD Radio signals on page 39.

3. **Seek All**
   - Switching between Digital broadcasting station seek and normal seek.
   - Refer to Switching the seek mode on page 51.

4. **Seek HD**
   - Switching to the analog broadcast of the same frequency.
   - Refer to Switching the reception mode on page 51.

5. **Blending D/A Auto**
   - Switching the equalizer curves.
   - Refer to Using the equalizer on page 57.
   - Touch and hold for more than two seconds to turn the auto equalizer on or off.
   - Refer to Using the auto equalizer on page 58.

6. **EQ**
   - Displaying the preset channel list.
   - Refer to Storing and recalling stations on page 39.

7. **TAG**
   - Saving song information (tag) from the broadcasting station to your iPod.
   - Refer to Using iTunes tagging on page 40.

8. **Seek Tuning**
   - Tuning up or down manually.
   - Touch and hold for more than two seconds to skip stations.
   - Seek tuning starts as soon as you release. Touch again to cancel seek tuning.
     - When an analog station is received, tuning down operation is conducted with in the analog broadcasting. (6 → 2)
     - If a digital broadcast is not yet received, tuning up operation tunes in the next analog station. (2 → 6)

**Digital Radio tuner information**

- Switching the digital radio tuner information.

**Switching preset channels using the buttons**

1. Press ◀ or ▶ (TRK).

**Seek tuning using the buttons**

1. Press and hold ◀ or ▶ (TRK).

**Note**

Touch panel keys not listed under Introduction of HD Radio tuner operations may appear on the display.

Refer to Indicator list on page 97.
Introduction of XM/SIRIUS tuner operations

You can use this unit to control an XM satellite digital tuner (GEX P920XM), which is sold separately.

You can use this unit to control a SIRIUS Satellite Radio tuner, which is sold separately.

For details concerning operation, refer to the XM tuner’s operation manuals. This section provides information on XM operations with this unit which differs from that described in the XM tuner’s operation manual.

When the SIRIUS tuner is used together with this unit, some operations differ slightly from those described in the SIRIUS operation manual. This manual provides information on these points. For all other information on using the SIRIUS tuner, please refer to the SIRIUS operation manual.

- With this unit, you can operate one additional function: XM/SIRIUS channel direct selection. Refer to Selecting an XM/SIRIUS channel directly on page 49.

Recalling radio station frequencies assigned to preset tuning keys. Refer to Storing and recalling stations on page 39.

Selecting the channel category when selecting Mode Category. Refer to Switching the XM/SIRIUS channel selection mode on page 48 and Selecting a SIRIUS channel from a channel category on page 49.

Selecting a track, fast forwarding/reversing or pausing/playing for the SIRIUS tuner. Refer to Using the Instant Replay function on page 51.

Displaying information on games for the SIRIUS tuner. Refer to Displaying game information on page 50.

Selecting teams for game alert on the SIRIUS tuner. Refer to Selecting teams for Game Alert on page 49.

Switching the SIRIUS information. Refer to Switching the SIRIUS display on page 51.

Manual tuning (step by step) using the buttons

1. Press ▼ or ► (TRK).

Seek tuning using the buttons

1. Press and hold ▼ or ► (TRK).

Notes

- You can also perform tuning from a desired channel category. (Refer to Selecting a SIRIUS channel from a channel category on page 49.)
- Touch panel keys not listed under Introduction of XM/SIRIUS tuner operations may appear on the display. Refer to Indicator list on page 97.
Introduction of video playback operations

You can view DVD/DVD R/DVD RW/CD/CD R/CD RW/USB/iPod.

- (AVH P4400BH)
  Depending on your iPod, there may not be any output unless you use CD IU201V (sold separately). Be sure to use CD IU201V to connect your iPod.

- (AVH P3400BH/AVH P2400BT/AVH P1400DVD)
  Depending on your iPod, there may not be any output unless you use CD IU51V/CD IU201V (sold separately). Be sure to use CD IU51V/CD IU201V to connect your iPod.

DVD video

Video CD

iPod video

When playing a disc containing a mixture of various media file types

Touch panel keys

- Selecting the repeat range. Refer to Repeating playback on page 42.
- During playback, touch the point at which you want to resume playback the next time the disc is loaded. Refer to Resume playback (Bookmark) on page 43.
- Changing the screen mode. Refer to Changing the wide screen mode on page 47.
- Switching the equalizer curves. Refer to Using the equalizer on page 57. Touch and hold for more than two seconds to turn the auto equalizer on or off. Refer to Using the auto equalizer on page 58.
- Switching among viewing angles during playback. Refer to Changing the viewing angle during playback (Multi angle) on page 45.
- Switching the audio output, when playing video discs recorded with LPCM audio. Refer to Selecting audio output on page 45. Switching between stereo and monaural audio output, when playing Video CD discs.
- Switching between subtitle languages during playback. Refer to Changing the subtitle language during playback (Multi subtitle) on page 45.
- Switching between audio languages during playback. Refer to Changing audio language during playback (Multi audio) on page 44.
Starting the search function. Refer to "Searching for the part you want to play" on page 44. Displaying iPod menus. Refer to "Playing videos from your iPod" on page 42 and "Browsing for a video/music on the iPod" on page 43.

Pausing playback. Returning to normal playback during paused, slow motion, or frame by frame playback.

Displaying the DVD menu during DVD playback. Refer to "Operating the DVD menu" on page 41.

Returning to the top menu during DVD playback.

Stopping playback. If you resume playback, playback will start from the point where you stopped. Touch the key again to stop playback completely.

Displaying arrow keys to operate the DVD menu. Refer to "Using the arrow keys" on page 41.

Skipping to another title. Selecting a folder during DivX/MPEG 1/MPEG 2/MPEG 4 file playback.

Speeding down the playback speed in four steps, during slow motion playback on DVD video/Video CD.

Moving ahead one frame at a time during playback. Refer to "Frame by frame playback" on page 44. Touch and hold for more than two seconds to slow down playback speed. Speeding up the playback speed in four steps during slow motion playback on DVD video/Video CD.

Returning to the specified scene to which the DVD currently being played has been preprogrammed to return. Refer to "Return to the specified scene" on page 45.

Playing the video on your iPod in a random order. Refer to "Random play (shuffle)" on page 42.

Conducting operation from your iPod and listening to it using your car's speakers. Refer to "Operating this unit's iPod function from your iPod" on page 41.

Switching between media file types. Refer to "Switching the media file type" on page 40.

Playing back videos
1. Insert the disc into the disc loading slot with the label side up. Playback will automatically start.
   • If you are playing a DVD or Video CD, a menu may appear. Refer to "Operating the DVD menu" on page 41 and "PBC playback" on page 45.
   • When the automatic playback function is on, the unit will skip the DVD menu and automatically start playback from the first chapter of the first title. Refer to "Automatic playback of DVDs" on page 64.
   • While an iPod is connected to this unit, PIONEER, Accessory Attached or √ (check mark) is displayed on the iPod.
   • When the source icon is not displayed, it can be displayed by touching the screen.
   • Disconnect headphones from the iPod before connecting it to this unit.
   • Depending on the iPod model and the amount of data stored in the iPod, it may take some time for playback to begin.
   • Use the touch panel keys to select the iPod after connecting it to this unit.
   • No Device is displayed when disconnecting the iPod.
   • If a message is displayed after loading a disc containing DivX VOD content, touch Play. Refer to "Playing DivX VOD content" on page 47.

Ejecting a disc
   • Refer to "Ejecting a disc" on page 17.
Selecting a chapter using the buttons
1 Press ◀ or ► (TRK).

Fast forwarding or reversing using the buttons
1 Press and hold ◀ or ► (TRK).
- Fast forward/fast reverse may not always be possible on some discs. In such cases, normal playback will automatically resume.
- The fast forward/fast reverse speed depends on the length of time you press and hold down ◀ or ► (TRK). This function is not available for Video CD.

Notes
- This DVD player can play back a DivX file recorded on CD R/RW, DVD R/RW, or MPEG 1/MPEG 2/MPEG 4. (Please see the following section for files that can be played back. Refer to DivX video files on page 100.)
- Do not insert anything other than a DVD R/RW or CD R/RW into the disc loading slot.
- If the bookmark function is on, DVD playback resumes from the selected point. For more details, refer to Resume playback (Bookmark) on page 43.
- Some operations may not be available while watching a media due to the programming of the disc. In such cases, the icon appears on the screen.
- To ensure proper operation, connect the dock connector cable from the iPod directly to this unit.
- While the iPod is connected to this unit, the iPod cannot be turned on or off.
- Touch panel keys not listed under Introduction of video playback operations may appear on the display. Refer to Indicator list on page 97.
**Playing audio**

### Introduction of sound playback operations

You can listen to DVD R/DVD RW/CD/CD R/CD RW/USB/iPod sound files.

#### Audio CD

- Depending on your iPod, there may not be any output unless you use CD IU201V (sold separately). Be sure to use CD IU201V to connect your iPod.
- Depending on your iPod, there may not be any output unless you use CD IU51V/CD IU201V (sold separately). Be sure to use CD IU51V/CD IU201V to connect your iPod.

#### iPod audio (Control Audio)

- Depending on the Bluetooth audio player connected to this unit, the available operations will be limited to the following two levels:
  - A2DP profile (Advanced Audio Distribution Profile): You can only playback songs on your audio player.
  - AVRCP profile (Audio/Video Remote Control Profile): You can perform playback, pause playback, select songs, etc.
- Since there are a number of Bluetooth audio players available on the market, available operations will vary extensively. When operating your player with this unit, refer to the instruction manual that came with your Bluetooth audio player as well as this manual.
- As the signal from your cellular phone may cause noise, avoid using it when you are listening to songs on your Bluetooth audio player.
- When a call is in progress on the cellular phone connected to this unit via Bluetooth wireless technology, the sound of the Bluetooth audio player connected to this unit is muted.
- The play time may not display correctly.
- Depending on the type of Bluetooth audio player you have connected to this unit, operation and information display may not be available for some functions.

#### iPod audio (App Mode)
Touch panel keys

1. \(\textcircled{1} \)
   - Selecting the repeat range.
   - Refer to Repeating playback on page 42.

2. \(\textcircled{2} \)
   - Playing songs in random order.
   - Refer to Random play (shuffle) on page 42.

3. \(\textcircled{3} \)

   - Refer to Selecting files from the file name list on page 46.
   - Displaying iPod menus.
   - Refer to Browsing for a video/music on the iPod on page 43.

6. \(\textcircled{6} \)
   - Switching between media file types on a DVD/CD/USB.
   - Refer to Switching the media file type on page 40.

7. \(\textcircled{7} \)
   - Selecting a folder.

8. \(\textcircled{8} \)
   - Switching the text information to display on this unit when playing MP3/WMA/AAC files.

9. \(\textcircled{9} \)
   - Pausing and starting playback.

10. \(\textcircled{10} \)
    - Playing songs on the iPod in random order.
    - Refer to Random play (shuffle) on page 42.

11. \(\textcircled{11} \)
    - Changing the speed of audiobook playback on the iPod.
    - Refer to Changing audio book speed on page 46.

12. \(\textcircled{12} \)
    - Switching to Link Search mode to play songs related to the currently playing song on the iPod.
    - Refer to Displaying lists related to the currently playing song (Link Search) on page 46.

13. \(\textcircled{13} \)
    - Conducting operation from your iPod and listening to it using your car’s speakers.
    - Refer to Operating this unit’s iPod function from your iPod on page 41.

14. \(\textcircled{14} \)
    - Performing operations from this unit and listening to the music on your iPod using your car’s speakers.
**Playing audio**

### Text information

- **Displaying the Songs list on the iPod.** Refer to Searching for a video/music by category on page 43.
- **Displaying the Artists list on the iPod.** Refer to Searching for a video/music by category on page 43.
- **Displaying the Albums list on the iPod.** Refer to Searching for a video/music by category on page 43.

### Artwork display

- Starting Album Link Search on your iPod when you touch the artwork display. Refer to Displaying lists related to the currently playing song (Link Search) on page 46.

#### Playing back sound

1. Insert the disc into the disc loading slot with the label side up. Playback will automatically start.
   - While an iPod is connected to this unit, PIONEER, Accessory Attached or ✓ (check mark) is displayed on the iPod.
   - When the source icon is not displayed, it can be displayed by touching the screen.
   - Disconnect headphones from the iPod before connecting it to this unit.
   - Depending on the iPod model and the amount of data stored in the iPod, it may take some time for playback to begin.
   - Use the touch panel keys to select the iPod after connecting it to this unit.
   - No Device is displayed when disconnecting the iPod.

#### Ejecting a disc

- Refer to Ejecting a disc on page 17.

#### Selecting a track using the buttons

1. Press ‹ or › (TRK).

#### Fast forwarding or reversing using the buttons

1. Press and hold ‹ or › (TRK).

### Note

Touch panel keys not listed under Introduction of sound playback operations may appear on the display. Refer to Indicator list on page 97.

### Setting up for Bluetooth audio

Before you can use the Bluetooth audio function you must set up the unit for use with your Bluetooth audio player. This entails establishing a Bluetooth wireless connection between this unit and your Bluetooth audio player, and pairing your Bluetooth audio player with this unit.

#### Connection

1. **First,** you need to connect a Bluetooth audio to this unit.
   - For detailed instructions on connecting your Bluetooth audio to this unit via Bluetooth wireless technology, see Introduction of Bluetooth connection menu operations on page 71.

### Notes

- When playing back files recorded as VBR (variable bit rate) files, the play time will not be correctly displayed if fast forward or reverse operations are used.
- To ensure proper operation, connect the dock connector cable from the iPod directly to this unit.
- While the iPod is connected to this unit, the iPod cannot be turned on or off.
- If the characters recorded on the disc are not compatible with this unit, those characters will not be displayed.
- Text information may not be correctly displayed depending on the recorded environment.
- Disconnect the USB portable audio player/USB memory when you are done using it.
- When you select Clock or Speana on Selecting the background display on page 74, the artwork is not displayed.

En 29
Introduction of Pandora operations

You can play the Pandora by connecting your iPod which was installed the Pandora application.

Important

Requirements to access the Pandora music service using the Pioneer car audio/video products:

- iPod compatibility
  - iPhone (first generation), iPhone 3G, iPhone 3GS, iPhone 4G, iPod touch 1G, iPod touch 2G, iPod touch 3G or iPod touch 4G (firmware version 3.0 or later).
  - Certain firmware versions for the iPod touch and iPhone may not be compatible with the Pandora application. If this appears to be the case, please update the firmware to a version that is compatible with Pandora.
- Latest version of the Pandora application for the iPhone, downloaded to your device.
  - (Search Apple iTunes App Store for “Pandora”).
- Current Pandora account (Free account and paid accounts available from Pandora; create a free account online at http://www.pandora.com/register or through the Pandora application for the iPhone).
- iPhone Data Plan.
  - Note: If the Data Plan for your iPhone does not provide for unlimited data usage, additional charges from your carrier may apply for accessing the Pandora service via 3G and/or EDGE networks.
- Connection to the Internet via 3G, EDGE or Wi-Fi network.
- Optional Pioneer adapter cable connecting your iPhone to the Pioneer car audio/video products.

Limitations:

- Access to the Pandora service will depend on the availability of a cellular and/or Wi-Fi network for purposes of allowing your iPhone to connect to the Internet.
- Pandora’s service is currently only available in the U.S.
- Ability of the Pioneer car audio/video products to access the Pandora service is subject to change without notice and could be affected by any of the following: compatibility issues with future firmware versions of iPhones; compatibility issues with future firmware versions of the Pandora application for the iPhone; changes to the Pandora music service by Pandora; discontinuation of the Pandora music service by Pandora.
- Certain functionality of the Pandora service is not available when accessing the service through the Pioneer car audio/video products, including, but not limited to, creating new stations, deleting stations, emailing current stations, buying tracks from iTunes, viewing additional text information, logging in to Pandora, and adjusting Cell Network Audio Quality.

Pandora Internet radio is a music service not affiliated with Pioneer. More information is available at http://www.pandora.com.

You can play the Pandora by connecting your iPod which was installed the Pandora application and starting up the Pandora application.
Touch panel keys

1 S.Rtrv

Switching the S.Rtrv (sound retriever) function setting while playing Pandora. Refer to Using sound retriever on page 46.

2 EQ

Switching the equalizer curves. Refer to Using the equalizer on page 57. Touch and hold for more than two seconds to turn the auto equalizer on or off. Refer to Using the auto equalizer on page 58.

3

Displaying the QuickMix/station list to select QuickMix or the desired station. Refer to Selecting and playing the QuickMix/station list on page 48.

4

Giving a “Thumbs up” for the track currently playing.

5

Giving a “Thumbs down” for the track currently playing and then skipping to the next track.

6

Storing track information (Bookmark).

7

Pausing and starting playback.

Text information

8 Playing the station list.

Playing tracks
1 Open the USB port cover.
2 Connect an iPod to the USB cable using an iPod Dock Connector.
3 Start up the Pandora application installed on the iPod.

Skipping tracks
1 Press ▶.
Introduction of still image playback operations

You can view still images saved in CD R/CD RW/USB.

Still image

When playing a disc containing a mixture of various media file types

When loading a CD R/RW or USB containing JPEG picture files, this unit starts a slideshow from the first folder/picture on the disc/device. The table below shows the controls for viewing a slideshow.

Touch panel keys

1 Selecting the repeat range. Refer to Repeating playback on page 42.
2 Playing files in a random order. Refer to Random play (shuffle) on page 42.
3 Changing the screen mode. Refer to Changing the wide screen mode on page 47.
4 Displaying the file name list to select the files. Refer to Selecting files from the file name list on page 46.
5 Selecting a folder.
6 Capturing an image in JPEG files. Refer to Capture an image in JPEG files on page 47.
7 Rotating the displayed picture 90° clockwise.
8 Starting or pausing the slideshow.
9 Switching between media file types when there is more than one media file type saved to the CD R/RW or USB device. This key does not appear if there is only one media file type saved to the CD R/RW or USB device. Refer to Switching the media file type on page 40.

Playing still images

1 Insert the disc into the disc loading slot with the label side up. Playback will automatically start.
   • When the source icon is not displayed, it can be displayed by touching the screen.

Ejecting a disc.
   • Refer to Ejecting a disc on page 17.

Selecting a file using the buttons

1 Press ◄ or ► (TRK).

Fast file searching

1 Press and hold ◄ or ► (TRK).
   • You can search 10 JPEG files at a time.

Notes

- Files are played back in file number order and folders are skipped if they contain no files. (If folder 1 (ROOT) contains no files, playback commences with folder 2.)
- Touch panel keys not listed under Introduction of still image playback operations may appear on the display. Refer to Indicator list on page 97.
Introduction of still image playback as a slideshow operations

You can view still images saved in CD R/CD RW/USB as a slideshow when listening to an other source.

The table below shows the controls for viewing a slideshow.

</tr>
</tbody>
</table>

1. **Start slideshow when listening to another source.**

   Refer to Common operations for menu settings/lists on page 17.

2. **Select the device containing the files that you want to display.**

   - Disc: Built in DVD player
   - USB/iPod: USB/iPod

   To cancel searching, touch Cancel.

**Notes**

- This unit cannot be used to view still images on disc or by USB/iPod as a slideshow when the corresponding source, Disc or USB/iPod, is selected.
- Touch panel keys not listed under **Introduction of still image playback as a slideshow operations** may appear on the display. Refer to **Indicator list** on page 97.
Introduction of Bluetooth telephone operations

You can use Bluetooth telephone (AVH P4400BH/AVH P3400BH/AVH P2400BT).

If you are unable to complete the connection using this unit, use the device to connect to the unit.

If you connect more than one device at a time, connected device may not operate properly. Connecting one device at a time is recommended.

Incoming call notice
Indicates that an incoming call has been received and has not been checked yet.
• Not displayed for calls made when your cellular phone is disconnected from this unit.

Touch panel keys

1 Switching the mode to enter the phone number directly. Refer to Making a call by entering phone number on page 54.

2 Switching to the call history list. Refer to Using the missed, received and dialed call lists on page 53.

3 Switching to the phone book mode. Refer to Calling a number in the phone book on page 51. Refer to Selecting a number by alphabet search mode on page 52.

4 Displaying the preset dial screen. Refer to Using the preset dial lists on page 54.

5 Turning the ring tone for incoming calls on or off. Refer to Switching the ring tone on page 54.

6 Turning automatic answering on or off. Refer to Setting automatic answering on page 53.

7 Displaying the Bluetooth connection menu. Refer to the instructions from page 71 to page 73.

Important
• Since this unit is on standby to connect with your cellular phone via Bluetooth wireless technology, using it without the engine running can drain the battery power.
• Advanced operations that require attention such as dialing numbers on the monitor, etc., are prohibited while driving. Park your vehicle in a safe place when using these advanced operations.
• Operations available may be limited depending on the cellular phone connected to this unit.
• Be sure to park your vehicle in a safe place and apply the parking brake when performing this operation.
### Bluetooth telephone

<p>| | | |</p>
<table>
<thead>
<tr>

</tr>
</tbody>
</table>

### Notes
- Private mode can only be operated while you are talking on the phone.
- To end the call, both you and the other caller must hang up your phones.
- Touch panel keys not listed under Introduction of Bluetooth telephone operations may appear on the display. Refer to Indicator list on page 97.

### Setting up for hands-free phoning

Before you can use the hands free phoning function you must set up the unit for use with your cellular phone. This entails establishing a Bluetooth wireless connection between this unit and your phone, registering your phone with this unit, and adjusting the volume level.

1. **Connection**
   First, you need to connect a Bluetooth telephone to this unit. For detailed instructions on connecting your phone to this unit via Bluetooth wireless technology, see following section. Using a Bluetooth device to pair on page 72 and Pairing from this unit on page 71.

2. **Volume adjustment**
   Adjust the earpiece volume of your cellular phone to your preference. The unit will record the adjusted volume level as the default setting.
   - The volume of the caller’s voice and ring tone may vary depending on the type of cellular phone.
   - If there is a large volume difference between the ring tone and caller’s voice, the overall volume level may become unstable.
   - Make sure to adjust the volume to a proper level before disconnecting the cellular phone from the unit. If the volume is muted (zero level) on your cellular phone, the volume level of your cellular phone remains muted even after the cellular phone is disconnected.
Introduction of Bluetooth telephone operations

You can use Bluetooth wireless technology (AVH P1400DVD).

During a call

1. Accepting an incoming call.
2. Ending a call.
3. Switching the equalizer curves.
4. Turning the ring tone for incoming calls on or off.

Except during a call

5. Turning automatic answering on or off.
6. Registering connected cellular phone to take full advantage of the features available with Bluetooth wireless technology.

Important

- In some countries, CD BTB200 is not sold on the market.
- Since this unit is on standby to connect with your cellular phone via Bluetooth wireless technology, using it without the engine running can drain the battery power.
- Advanced operations that require attention such as dialing numbers on the monitor, etc., are prohibited while driving. Park your vehicle in a safe place when using these advanced operations.
- Operations available may be limited depending on the cellular phone connected to this unit.

When you connect a Bluetooth adapter (e.g. CD BTB200)(sold separately) to AVH P1400DVD, you can control Bluetooth telephone. But the available features are limited.

Operations available may be limited depending on the cellular phone connected to this unit.
Using Bluetooth wireless technology

1. Connection
   First, you need to connect a Bluetooth telephone to this unit.
   For detailed instructions on connecting your phone to this unit via Bluetooth wireless technology, see following section. Using a cellular phone to initiate a connection on page 55 and Registering a connected cellular phone on page 55.

2. Volume adjustment
   Adjust the earpiece volume of your cellular phone to your preference. The unit will record the adjusted volume level as the default setting.
   - The volume of the caller’s voice and ring tone may vary depending on the type of cellular phone.
   - If there is a large volume difference between the ring tone and caller’s voice, the overall volume level may become unstable.
   - Make sure to adjust the volume to a proper level before disconnecting the cellular phone from the unit. If the volume is muted (zero level) on your cellular phone, the volume level of your cellular phone remains muted even after the cellular phone is disconnected.

Bluetooth audio operations

When you connect a Bluetooth adapter (e.g. CD BTB200) (sold separately) to AVH-P1400DVD, you can control Bluetooth audio.

- Important
  - Depending on the Bluetooth audio player connected to this unit, the available operations will be limited to the following two levels:
    - A2DP profile (Advanced Audio Distribution Profile): You can only playback songs on your audio player.
    - AVRCP profile (Audio/Video Remote Control Profile): You can perform playback, pause playback, select songs, etc.
  - Since there are a number of Bluetooth audio players available on the market, available operations will vary extensively. When operating your player with this unit, refer to the instruction manual that came with your Bluetooth audio player as well as this manual.

Note

Touch panel keys not listed under Introduction of Bluetooth telephone operations may appear on the display.
Refer to Indicator list on page 97.

Setting up for hands-free phoning

Before you can use the hands-free phoning function you must set up the unit for use with your cellular phone. This entails establishing a Bluetooth wireless connection between this unit and your phone, registering your phone with this unit, and adjusting the volume level.
Information related to a song (such as the elapsed playing time, song title, song index, etc.) cannot be displayed on this unit.

As the signal from your cellular phone may cause noise, avoid using it when you are listening to songs on your Bluetooth audio player.

When a call is in progress on the cellular phone connected to this unit via Bluetooth wireless technology, the sound of the Bluetooth audio player connected to this unit is muted.

When the Bluetooth audio player is in use, you cannot connect to a Bluetooth telephone automatically.

Playback continues even if you switch from your Bluetooth audio player to another source while listening to a song.

Touch panel keys

Switching between Bluetooth telephone and Bluetooth audio.

Skipping back or forward to another track when Auto is set for the auto/manual setting. Performing fast forward or reverse when Manual is set for the auto/manual setting.

Pausing a song. Touch and hold for more than two seconds to activate connection mode on this unit and establish a Bluetooth wireless connection from your player. Refer to Connecting a Bluetooth audio player on page 56.

Playback starts. Touch and hold for more than two seconds to terminate the Bluetooth wireless connection.

Setting up for Bluetooth audio

Before you can use the Bluetooth audio function you must set up the unit for use with your Bluetooth audio player. This entails establishing a Bluetooth wireless connection between this unit and your Bluetooth audio player, and pairing your Bluetooth audio player with this unit.

1 Connection
First, you need to connect a Bluetooth audio to this unit. For detailed instructions on connecting your Bluetooth audio to this unit via Bluetooth wireless technology, see Connecting a Bluetooth audio player on page 56.

Note
Touch panel keys not listed under Bluetooth audio operations may appear on the display. Refer to Indicator list on page 97.
Storing and recalling stations

You can easily store up to six stations for each band as presets.
- Six stations for each band can be stored in memory.
- Channels are stored and recalled on a broadcast station basis. This means that if the broadcast station you stored has been assigned to a different channel by SIRIUS, you can still recall the same broadcast station (though a different channel number may appear in the display).

1 Display the preset channel list screen.
Refer to Introduction of tuner operations on page 19.
Refer to Introduction of XM/SIRIUS tuner operations on page 22.
Refer to Introduction of HD Radio tuner operations on page 20.
The preset channel list appears in the display.

2 Touch and hold one of the preset tuning keys to store the selected frequency in the memory.
The selected radio station frequency has been stored in the memory.

3 Touch one of the preset tuning keys to select the desired station.

Storing the strongest stations

BSM (best stations memory) automatically stores the six strongest stations in the order of their signal strength.
Storing broadcast frequencies with BSM may replace broadcast frequencies you have saved using the preset tuning keys.

1 Display the preset channel list screen.
Refer to Introduction of tuner operations on page 19.
Refer to Introduction of HD Radio tuner operations on page 20.
The preset channel list appears in the display.

2 Touch BSM to turn BSM on.
The six strongest broadcast frequencies will be stored under preset tuning keys in order of their signal strength.
- To cancel the storage process, touch Cancel.

Tuning in to strong signals

Local seek tuning lets you tune in to only those radio stations with sufficiently strong signals for good reception.

FM: Off
- - - - - -
AM: Off
- -
The highest level setting allows reception of only the strongest stations, while lower levels allow the reception of weaker stations.

Tuning in to strong HD Radio signals

Local seek tuning lets you tune in to only those radio stations with sufficiently strong signals for good reception.

1 Display the local setting screen.
Refer to Introduction of HD Radio tuner operations on page 20.

2 Touch On on Local to turn on.
- To turn off, touch Off.

3 Touch ◀ or ▶ on Level to select the desired level.
   (AVH P2400BT/AVH P1400DVD)
   Level1 Level2 Level3 Level4
   (AVH P4400BH/AVH P3400BH)
   FM: Level1 Level2 Level3 Level4
   AM: Level1 Level2
- The highest level setting allows reception of only the strongest stations, while lower levels allow the reception of weaker stations.
**Using iTunes tagging**

This function can be operated with the following iPod models:
- iPod touch 4th generation
- iPod touch 3rd generation
- iPod touch 2nd generation
- iPod touch 1st generation
- iPod classic 160GB
- iPod classic 120GB
- iPod classic
- iPod with video
- iPod nano 6th generation
- iPod nano 5th generation
- iPod nano 4th generation
- iPod nano 3rd generation
- iPhone 4
- iPhone 3GS
- iPhone 3G
- iPhone

However, tag information can be stored in this unit even while other iPod models are used. When you want to use this function in the HD Radio tuner source, use an HD Radio tuner (GEX P20HD).

The song information (tag) can be saved from the broadcasting station to your iPod. The songs will show up in a playlist called “Tagged playlist” in iTunes the next time you sync your iPod. Then you can directly buy the songs you want from the iTunes Store. The tagged songs and the song that you can buy from the iTunes Store may be different. Make sure to confirm the song before you make the purchase. If you cannot use this function normally, update your iPod firmware.

**Storing the tag information to this unit**

1. Tune in to the broadcast station.
2. Store the tag information to this unit.

Refer to *Introduction of tuner operations* on page 19.

<table>
<thead>
<tr>
<th>Media Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CD</td>
<td>Audio data (CD DA)</td>
</tr>
<tr>
<td>Music/ROM</td>
<td>Compressed audio</td>
</tr>
<tr>
<td>Video</td>
<td>DivX, MPEG 1, MPEG 2, MPEG 4 video files</td>
</tr>
<tr>
<td>Photo</td>
<td>JPEG picture files</td>
</tr>
</tbody>
</table>

3. When completed, the **TAG** indicator turns off and the **H** indicator is displayed.

**Storing the tagged information to your iPod**

1. Connect your iPod.

When your iPod is connected to this unit, your iPod starts storing the tagged information automatically.

2. When completed, the **TAG** indicator turns off and the tagged information is stored on your iPod.

**Switching the media file type**

When playing a disc containing a mixture of various media file types, such as DivX, MPEG 1, MPEG 2, MPEG 4 and MP3, you can switch between media file types to play. Audio data (CD DA) and JPEG picture files on DVD R/RW/ROM cannot be played back on this unit.
Operating the DVD menu
(Function for DVD video)
Some DVDs allow you to make a selection from the disc contents using a menu.

Using the arrow keys
1 Display arrow keys to operate the DVD menu.
   Refer to Playing moving images on page 24.
2 Select the desired menu item.

Using the touch panel keys
1 Touch the menu item to operate.
   Operating the DVD menu by directly touching the menu item.
2 Starting playback from the selected menu item.
3 Returning to the normal DVD video display.
4 Displaying arrow keys.

Ways to display the menu will differ depending on the disc.
Depending on the contents of the DVD disc, this function may not work properly. In such cases, use the touch panel keys to operate the DVD menu.

Operating this unit’s iPod function from your iPod
You can listen to the sound from your iPod applications using your car’s speakers, when App Mode is selected.
This function is not compatible with the following iPod models:
- iPod nano 1st generation
- iPod with video

- While this function is in use, the iPod will not turn off even if the ignition key is turned off. Operate the iPod to turn off the power.

1 Switch the control mode to App Mode.
   Refer to Introduction of video playback operations on page 24.
   Refer to Introduction of sound playback operations on page 27.
2 Operate the connected iPod to select a video/song and play.

Notes
- The following functions are still accessible from the unit even if the control mode is set to App Mode.
  However, the operation will depend on your applications.
  Playing/pausing
  Fast forwarding/reversing
  Tracking up/down
  Moving to a chapter up/down
- App Mode is compatible with the following iPod models.
  iPod touch 4th generation
  iPod touch 3rd generation
  iPod touch 2nd generation
  iPod touch 1st generation
  iPod classic 160GB
  iPod classic 120GB
  iPod classic
  iPod nano 6th generation
  iPod nano 5th generation
  iPod nano 4th generation
  iPod nano 3rd generation
**Random play (shuffle)**

iPod videos/songs can be played back in random order.

- **Songs**  Play back videos/songs in the selected list in random order.
- **Albums**  Play back videos/songs from a randomly selected album in order.
- **Folder**  Play back songs/tracks in the selected folder in random order.
- **Disc**  Play back songs/tracks in the selected disc in random order.
- **On**  Play back files in random order within the repeat range, **Folder** and **Disc**.
- **Off**  Cancel random play.

**Repeating playback**

- **Disc**  Play through the current disc
- **Chapter**  Repeat the current chapter
- **Title**  Repeat the current title
- **Track**  Repeat the current track
- **File**  Repeat the current file
- **Folder**  Repeat the current folder
- **One**  Repeat just the current video/song
- **All**  Repeat all videos/songs in the selected list on the iPod

- If you select another folder during repeat play, the repeat play range changes to **Disc**.
  If you select USB source, the repeat play range changes to **All**.
- If you perform track search or fast forward/reverse during **File**, the repeat play range changes to **Folder**.
- If you perform title/chapter search or fast forward/reverse during **Chapter**, the repeat play is set to off automatically.
- If you perform track search or fast forward/reverse during **Track**, the repeat play range changes to **Disc**.
- When **Folder** is selected, it is not possible to play back a subfolder of that folder.

**Playing videos from your iPod**

(Function for iPod)

Videos can be played on this unit if an iPod with video capabilities is connected.

- This unit can play back “Movies”, “Music videos”, “Video Podcast” and “TV show” which are downloaded from the iTunes store.

1. **Display the iPod menus.**
   Refer to **Playing moving images** on page 24.

2. **Switch to iPod video mode.**

   ![Video Switching to iPod video mode.](image)

- If you want to switch to iPod video mode, touch the icon.

   - If you perform chapter search, fast forward/reverse, frame by frame playback or slow motion playback, the repeat play will stop.
   - When playing discs with compressed audio and audio data (CD DA), playback is repeated within the type of data currently playing even if **Disc** is selected.
3 Play the video from the iPod.

If you want to switch to iPod music mode, touch the icon.

Switching to iPod music mode.

Browsing for a video/music on the iPod
(Function for iPod)
To make operating and searching easy, operations to control an iPod with this unit are designed to be as similar to the iPod as possible.

Searching for a video/music by category
1 Display the iPod menus.
Refer to Playing moving images on page 24.
Refer to Playing audio on page 27.

2 Touch one of the categories in which you want to search for a video/music.
- Video Playlists (video playlists)
- Movies (movies)
- Music Videos (music videos)
- Video Podcasts (video podcasts)
- TV Shows (TV shows)
- Rentals (rentals)
- Playlists (playlists)
- Artists (artists)
- Albums (albums)
- Songs (songs)
- Podcasts (podcasts)
- Genres (genres)

3 Touch the title of the list that you want to play.
Repeat this operation until you find the desired video/music.

Notes
- You can play playlists created with the PC application (MusicSphere). The application will be available on our website.
- Playlists that you created with the PC application (MusicSphere) are displayed in abbreviated form.

Searching the list by alphabet
(Function for iPod)
1 Select a category.
Refer to Searching for a video/music by category on this page.

2 Switch to alphabet search mode.

Switching to alphabet search mode.

Alphabet search mode is displayed.

3 Touch the first letter of the title of the video/song you are looking for.
While searching, touch panel key operation is not available.
- To refine the search with a different letter, touch Cancel.

4 Touch the title of the list that you want to play.
Repeat this operation until you find the desired song/video.

Resume playback (Bookmark)
(Function for DVD video)
By using the Bookmark function, you can resume playback from a selected scene the next time the disc is loaded.

The selected scene will be bookmarked so that playback resumes from that point next time.
- To clear the bookmark on a disc, touch and hold the key during playback.
- The oldest bookmark is replaced by the new one.

Frame-by-frame playback
(Function for DVD video/video CD/DivX file/MPEG 1/MPEG 2/MPEG 4)

Note
Images during frame by frame playback may be unclear for some discs.

Slow motion playback
Notes
- There is no sound during slow motion playback.
- Images during slow motion playback may be unclear for some discs.
- Reverse slow motion playback is not available.

Searching for the part you want to play
You can use the search function to find the part you want to play.
For DVD videos, you can select Title (title), Chapter (chapter) or 10key (numeric keypad). For video CDs, you can select Track (track) or 10key (numeric keypad).
- Chapter search is not available when disc playback is stopped.
- This function cannot be operated during some DVD videos or Video CD playback featuring PBC (playback control).

1 Start the search function.
Refer to Playing moving images on page 24.

2 Touch the desired search option (e.g., Chapter).

3 Touch 0 to 9 to input the desired number.
- To cancel the entered numbers, touch C.

4 Start playback from the selected part.

Note
With discs featuring a menu, you can also use the DVD menu to make your selection.
Refer to Playing moving images on page 24.

Changing audio language during playback (Multi-audio)
With DVDs/DivX files that provides audio playback in different languages and different audio systems (Dolby Digital, DTS, etc.), you can switch between languages/audio systems during playback.

Notes
- With some DVDs, switching between languages/audio systems may only be possible using a menu display.
- You can also switch between languages/audio systems using Video Setup menu. For details, refer to Setting the audio language on page 60.
- Depending on the setting, the video may not be played back with the audio system used to record the DVD.
- You will return to normal playback if you change the Audio during fast forward/fast reverse, pause or slow motion playback.

Registering the numbers and starting playback.
Changing the subtitle language during playback (Multi-subtitle)

With DVDs/DivX files featuring multi subtitle recordings, you can switch between subtitle languages during playback.

Notes

- With some DVDs, switching between subtitle languages may only be possible using a menu display.
- You can also switch between subtitle languages using Video Setup menu. For details, refer to Setting the subtitle language on page 60.
- You will return to normal playback if you change the Subtitle during fast forward/fast reverse, pause or slow motion playback.

Selecting audio output

When playing DVD video discs recorded with LPCM audio, you can switch the audio output. When playing video CDs, you can switch between stereo and monaural audio output.

- This function is not available when disc playback is stopped.
  - L+R Left and right
  - Left Left
  - Right Right
  - Mix Mixing left and right

Note

You may not be able to select or use this function depending on the disc and the playback location.

Changing the viewing angle during playback (Multi-angle)

With DVDs featuring multi angle (scenes shot from multiple angles) recordings, you can switch among viewing angles during playback.

- During playback of a scene shot from multiple angles, the angle icon is displayed. Use the Video Setup menu to turn the angle icon display on or off. For details, refer to Setting the multi angle DVD display on page 61.

Note

You will return to normal playback if you change the viewing angle during fast forward/fast reverse, pause or slow motion playback.

Return to the specified scene (Function for DVD video)

This function cannot be used if a specified scene has not been preprogrammed on the DVD disc.

PBC playback

(Function for Video CDs)

During playback of Video CDs featuring PBC (playback control), PBC On is displayed.

1 Start the search function.
   Refer to Playing moving images on page 24.

2 Touch 10key to display the numeric keypad.

3 Touch 0 to 9 corresponding to a menu number.

4 Start playback from the selected part.

Registering the numbers and starting playback.
**Detailed instructions**

**Notes**
- You can display the menu by touching **Return** during PBC playback. For details, refer to the instructions provided with the disc.
- PBC playback of a Video CD cannot be canceled.
- During playback of Video CDs featuring PBC (playback control), you cannot select the repeat play range or use the search function.

**Selecting tracks from the track title list**
You can select tracks to playback using the track title list which is a list of the tracks recorded on a disc.

1. **Display the track title list.**
   Refer to *Playing audio* on page 27.

2. **Touch your favorite track title.**
   Playback begins.

**Selecting files from the file name list**
(Function for compressed audio/DivX/JPEG/MPEG 1/MPEG 2/MPEG 4)
File name list is a list of file names (or folder names) from which you can select a file (or folder) to play back.

1. **Display the file (or folder) name list.**
   Refer to *Playing audio* on page 27.
   Refer to *Introduction of still image playback operations* on page 32.

2. **Touch your favorite file (or folder) name.**
   - When you have selected a folder, a list of the names of the files (or the folders) in it can be viewed. Repeat this operation to select the desired file name.
   - If folder 1 (ROOT) contains no files, playback commences with folder 2.

**Note**
If part of the recorded information does not display, a scroll key appears on the right side of list. Touch the scroll key to scroll.

**Using sound retriever**
Automatically enhances compressed audio and restores rich sound.

- **Off**
- **is more effective than**

**Changing audiobook speed**
(Function for iPod)

- **Playback at a speed faster than normal**
- **Playback at normal speed**
- **Playback at a speed slower than normal**

**Displaying lists related to the currently playing song (Link Search)**
(Function for iPod)

1. **Start Link Search.**
   Refer to *Introduction of sound playback operations* on page 27.

2. **Touch one of the categories in which you want to play.**
   - **Artist**  Displays an album list of the artist currently being played.
   - **Album**  Displays a song list from the album currently being played.
   - **Genre**  Displays an album list from the genre currently being played.
   - To cancel searching, touch **Cancel**.

3. **Touch the title of the list that you want to play.**
Note
If part of the recorded information does not display, a scroll key appears on the right side of list. Touch the scroll key to scroll.

Playing DivX® VOD content
Some DivX video on demand (VOD) content may only be playable a fixed number of times. When you load a disc containing this type of content, the number of times it has been played will be shown on screen. You can then decide whether or not to play the disc.

- If there is no limit to the number of times the DivX VOD content can be viewed, then you may load the disc into your player and play the content as often as you like, and no message will be displayed.
- You can confirm the number of times that the content can be played by checking the number displayed after This DivX rental has used □□ out of □□ views.

⚠️ Important
- In order to play DivX VOD contents on this unit, you first need to register the unit with your DivX VOD contents provider. For details on your registration code, refer to Displaying the DivX® VOD registration code on page 63.
- DivX VOD content is protected by a DRM (Digital Rights Management) system. This restricts playback of content to specific, registered devices.

- If a message is displayed after loading a disc containing DivX VOD content, touch Play.
Playback of the DivX VOD content will start.
- To skip to the next file, touch Next Play.
- If you do not want to play the DivX VOD content, touch Stop.

Capture an image in JPEG files
You can capture image data and use it as wallpaper. Images can be stored and recalled easily in this unit.

- Only one image can be stored on this unit. Old image is overwritten with the new one.

1 Pause the slideshow when the desired image is displayed.
Refer to Introduction of still image playback operations on page 32.
Refer to Introduction of still image playback as a slideshow operations on page 33.

2 Capture the image.
Refer to Introduction of still image playback operations on page 32.
Refer to Introduction of still image playback as a slideshow operations on page 33.

3 When “Do you save this image?” is displayed, touch Yes.
While storing the image to this unit, “Saving the image. Don’t switch off the battery.” is displayed. When the process is finished, “Image saved.” is displayed.
- To cancel the storage process, touch No.

Changing the wide screen mode
You can select a desired mode for enlarging a 4:3 picture to a 16:9 picture.

1 Display the screen mode.
Refer to Introduction of video playback operations on page 24.
Refer to Introduction of still image playback operations on page 32.
Refer to Introduction of still image playback as a slideshow operations on page 33.

2 Touch the desired wide mode setting.
Full (full screen)
The 4:3 picture is enlarged in the horizontal direction only, giving you a 4:3 TV picture (normal picture) without any omissions.

Just (just)
The picture is enlarged slightly at the center and the amount of enlargement increases horizontally toward the edges of the screen, enabling you to enjoy a 4:3 picture without sensing any disparity even when viewing on a wide screen.

Cinema (cinema)
The picture is enlarged by the same proportion as Full or Zoom in the horizontal direction and by an intermediate proportion between Full and Zoom in the vertical direction; ideal for a cinema sized picture (wide screen picture) where captions lie outside the picture.

Zoom (zoom)
The 4:3 picture is enlarged in the same proportion both vertically and horizontally; ideal for a cinema sized picture (wide screen picture).

Normal (normal)
The 4:3 picture is displayed as it is, giving you no sense of disparity since its proportions are the same as that of the normal picture.

Notes
- You cannot operate this function while driving.
- Different settings can be stored for each video source.
- When a video is viewed in a wide screen mode that does not match its original aspect ratio, it may appear different.
- Remember that using the wide mode feature of this system for commercial or public viewing purposes may constitute an infringement on the author’s rights protected by the Copyright Law.
- The video image will appear coarser when viewed in Cinema or Zoom mode.

Selecting and playing the QuickMix/station list
Touch the list for your Pandora stations to select one of them to play.

1 Display the QuickMix/station list.
Refer to Introduction of Pandora operations on page 30.

2 Change the sort order.

   A-Z  You can sort the items in the list alphabetically.

   By Date  You can sort the items in the list in order of the dates on which the items were created.

   You can scroll the titles in the list while you touch and hold down the scroll icon.

3 Select QuickMix or the desired station.

   You can play only one song at a time from a shuffled mix of several stations.

Switching the XM/SIRIUS channel selection mode
You have two methods for selecting a channel: by number and by category. When selecting by number, channels in any category can be selected. Select by category to narrow your search down to only channels in a particular category.

Mode All CH (channel number select setting)
Mode Category (channel category select setting)
Selecting a SIRIUS channel from a channel category
Channels are organized into various program categories, e.g. Rock, Classic, Jazz while listening to a SIRIUS station. You can specify channels by selecting the desired category.

1 Select channel category selection mode.
Refer to Introduction of XM/SIRIUS tuner operations on page 22.
Mode All CH (channel number select setting)
Mode Category (channel category select setting)

2 Touch ▲ or ▼ to select the desired channel category.

3 Touch ◀ or ▶ on the buttons to select the desired channel in the selected channel category.

Selecting a channel from the XM channel list display
The list content can be switched so you can search for the track you want to listen to not only by the channel name but also by the artist name or song title.
- This function is available for GEX P920XM.
- The channel list shows all the channels during Mode All CH mode, and the channels included in the selected category during Mode Category mode.

1 Display the preset channel list.
Refer to Introduction of XM/SIRIUS tuner operations on page 22.

2 Switch the channel list mode.

3 Touch the desired channel that you want to listen to.

Selecting an XM/SIRIUS channel directly
You can select an XM/SIRIUS channel directly by entering the desired channel number.

1 Display the preset channel list.
Refer to Introduction of XM/SIRIUS tuner operations on page 22.

2 Switch to direct input display.

3 Touch 0 to 9 to input the desired channel number.
- To cancel the input numbers, touch C.

4 Select the XM/SIRIUS channel of the entered number.
The XM/SIRIUS channel of the entered number is selected.

Using the Game Alert function
This system can alert you when games involving your favorite teams are about to start. To use this function you need to set up a game alert for the teams in advance.
- This function is available for SIR PNR2/SIR PNR2C.

Selecting teams for Game Alert
1 Start Game Alert setup.
Refer to Introduction of XM/SIRIUS tuner operations on page 22.
2 Select a desired league in League.

Switching the league name.

3 Select a desired team in Team.

Switching the team name.

4 Turn the alert on or off.

The game alert function is activated for that team.
- When you have already selected 12 teams, FULL is displayed and additional teams cannot be selected. In this case, first delete a selected team and then try again.

5 Repeat these steps to select other teams.
Up to 12 teams can be selected.

Switching the Game Alert on or off
Once you select the teams, you need to turn the Game Alert function on.
The Game Alert function is on at the default setting.

When a game of a selected team starts
When a game of the selected team is about to start (or is currently playing) on a different station, a game alert is displayed.

Jump Switching to the other station to listen to the game.

Stay Not tuning in to the other station.

Displaying game information
If any games of the selected teams are currently playing, you can display information on the games and tune in to the broadcast channel.

1 Display the game information for the selected team.
Refer to Introduction of XM/SIRIUS tuner operations on page 22.

2 Touch ◀ or ► to select a game.
The game is displayed, followed by more detailed game information.
- The game score will be updated automatically.

3 Switch to the other station to listen to the game.

Displaying the Radio ID
Channel number selection setting
If you select CH000, the ID code is displayed.
- Select CH000.
Refer to Introduction of XM/SIRIUS tuner operations on page 22.

% Select CH000.
Switching the SIRIUS display

- Actions will differ depending on the connected SIRIUS tuner.

- Touch SIRIUS tuner information to switch the SIRIUS display.
Refer to Introduction of XM/SIRIUS tuner operations on page 22.
Channel number  Channel name  Category name  Artist name  Song title/Title name  Composer name  Play time

Note
Play time is displayed during the Instant Replay mode.

Using the Instant Replay function

The following functions can be operated in Instant Replay mode.
- To use this function, a Pioneer SIRIUS bus interface (e.g. CD SB10) is required.
- To use this function, a SIRIUS plug and play unit with an Instant Replay Function is required.
- For details, refer to the SIRIUS plug and play unit’s manuals.

- To exit from Instant Replay mode, select another source or touch the following icon.

Select a track
Press ◀ or ► (TRK).

Fast forward or reverse
Press and hold ◀ or ► (TRK).

Pause and play
Playing and pausing.

Switching the seek mode

There are two seek tuning settings, one is HD (Digital broadcasting stations seek) and the other is All (normal seek).

All  HD

Switching the reception mode

If the reception for a digital broadcast becomes poor, this unit automatically switches to the analog broadcast of the same frequency. If this function is set to D/A Auto, the tuner switches between digital broadcast and analog broadcast automatically. If this function is set to Analog, the tuner will only receive analog broadcasts.

D/A Auto  Analog

Calling a number in the phone book

(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
The phone book in your cellular phone will be transferred automatically when the phone is connected to this unit. After finding the number you want to call in the phone book, you can select the entry and make the call.

1 Switch to phone book mode.
Refer to Introduction of Bluetooth telephone operations on page 34.
The phone book display appears.

2 Select the phone number list.
The detailed phone number list of the selected entry is displayed.

3 Select the phone number.
- If you want to store the phone number, touch and hold the list.

4 Make the call.
Refer to Introduction of Bluetooth telephone operations on page 34.

5 End the call.
Refer to Introduction of Bluetooth telephone operations on page 34.

Note
Depending on the cellular phone, the phone book may not be transferred automatically. In this case, operate your cellular phone to transfer the phone book. The visibility of this unit should be on. Refer to Switching visible unit on page 73.

Selecting a number by alphabet search mode
(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
If a lot of numbers are registered in the phone book, you can search for the phone number by alphabet search mode.

1 Switch to phone book mode.
Refer to Introduction of Bluetooth telephone operations on page 34.
The phone book display appears.

2 Touch ABC to switch to alphabet search mode.

3 Touch the first letter of the entry you are looking for.
The Phone Book entries starting with that letter (e.g. “Ben”, “Brian” and “Burt” when “B” is selected) will be displayed.

- If you want to change the character to Russian, touch the icon. To return to English, touch the icon again.

Changing the character to Russian.

- The order of the first name and last name may be different from that of the cellular phone.

4 Touch the list to display the phone number list of the selected entry.
- If several phone numbers are included in an entry, select one by touching the list.
- If you want to switch to the call history list, touch the icon.

Switching to the call history list.

5 Make the call.
Refer to Introduction of Bluetooth telephone operations on page 34.

6 End the call.
Refer to Introduction of Bluetooth telephone operations on page 34.

Inverting names in phone book
(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
When your cellular phone is connected to this unit, the first and last names of your contacts may be registered to the phone book in reverse order. You can use this function to change the order back.
(Inverting the names in the phone book)

1 Switch to phone book mode.
Refer to Introduction of Bluetooth telephone operations on page 34.
The phone book display appears.
2 Invert names in phone books.

Inverting names in phone books.

3 “Would you like to invert all names?” appears. Touch Yes to continue.

While the names are inverted, ☒ is displayed.

- If the inversion fails, “Invert Name Error” appears. In such cases, try again from the beginning.

Note

Inverting the names of your contacts from this unit does not affect the data on your Bluetooth device.

Using the missed, received and dialed call lists

(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
The 80 most recent calls dialed, received, and missed are stored in the memory. You can browse them and call numbers from these lists.

1 Switch to the call history list.

Refer to Introduction of Bluetooth telephone operations on page 34.

2 Select Missed Calls, Dialed Calls or Received Calls.

- Displaying the received call list.
- Displaying the dialed call list.
- Displaying the missed call list.

3 Touch the list number to select a phone number.

Name and phone number are displayed in the detailed list.

- If you want to store the phone number, touch and hold the list.

4 Make the call.

Refer to Introduction of Bluetooth telephone operations on page 34.

5 End the call.

Refer to Introduction of Bluetooth telephone operations on page 34.

Using the missed, received and dialed call lists on the optional Bluetooth adapter

(Function of AVH P1400DVD)
The 80 most recent calls dialed, received, and missed are stored in the memory. You can browse them and call numbers from these lists.

1 Switch to the call history list.

Refer to Introduction of Bluetooth telephone operations on page 36.

2 Touch a phone number or name (if entered) you want to call.

3 Make the call.

Refer to Introduction of Bluetooth telephone operations on page 36.

4 End the call.

Refer to Introduction of Bluetooth telephone operations on page 36.

Setting automatic answering

If this function is on, this unit automatically answers all incoming calls.

- Turn automatic answering on or off.

(AVH P1400DVD)
Adjusting the other party’s listening volume

(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
To maintain the good sound quality, this unit can adjust the other party’s listening volume. If the volume is not loud enough for the other party, use this function.

- Select Far-End VOL.
Refer to Introduction of Bluetooth telephone operations on page 34.

1 2 3

- This function can be performed even while talking on the phone.
- Settings can be stored for each device.

Switching the ring tone

You can select whether or not to use this unit’s ring tone. If this function is set to on, the ring tone for this unit will sound.

1 Connect your cellular phone to this unit.

2 Turn ring tone on or off.
(AVH P1400DVD)
Refer to Introduction of Bluetooth telephone operations on page 36.
(AVH P4400BH/AVH P3400BH/AVH P2400BT)
Refer to Introduction of Bluetooth telephone operations on page 34.

Using the preset dial lists

(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
You can easily store up to six phone numbers as presets.

1 Display the preset screen.
Refer to Introduction of Bluetooth telephone operations on page 34.

2 Touch one of preset dial keys to select the desired phone number.

- If you want to delete a preset phone number, touch and hold the preset dial key.

3 Make the call.
Refer to Introduction of Bluetooth telephone operations on page 34.

4 End the call.
Refer to Introduction of Bluetooth telephone operations on page 34.

Important
Be sure to park your vehicle in a safe place and apply the parking brake when performing this operation.

1 Switch to the entering phone number mode.
Refer to Introduction of Bluetooth telephone operations on page 34.

2 Touch the number icons to input the numbers.

- Up to 24 digits can be entered.
3 Make the call.
Refer to Introduction of Bluetooth telephone operations on page 34.

4 End the call.
Refer to Introduction of Bluetooth telephone operations on page 34.

Note
Entering phone number mode cannot be operated unless a Bluetooth telephone is connected to this unit.

Setting the private mode
(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
During a conversation, you can switch to private mode (talk directly on your cellular phone).
Refer to Introduction of Bluetooth telephone operations on page 34.

Using a cellular phone to initiate a connection
(Function of AVH P1400DVD)
A Bluetooth wireless connection can be established from your phone by putting the unit into initiating a connection mode.
You may need to refer to the operation manual that came with your phone if you are unsure how to initiate a connection from your phone.

1 Put the unit in initiating a connection mode.
Refer to Introduction of Bluetooth telephone operations on page 36.

2 Use a cellular phone to connect to this unit.
- Operation varies depending on the type of cellular phone.
- You may need to enter the link code on your cellular phone to complete the connection.

Registering a connected cellular phone
(Function of AVH P1400DVD)
You can register a phone that is temporarily connected to this unit in order to take full advantage of the features available with Bluetooth wireless technology. Only one cellular phone can be registered.

1 Start registering a connected cellular phone.
Refer to Introduction of Bluetooth telephone operations on page 36.

2 Use cellular phone to register to this unit.
If registration is successful, the device name of the connected phone is displayed in the selected assignment.
- If the assignment is already taken, the device name will be displayed. To replace an assignment with a new phone, first delete the current assignment.
- If registration failed, the device name of the connected phone will not be displayed in the selected assignment. In such cases, return to step 1 and try again.

Voice recognition
(Function of AVH P1400DVD)
If your cellular phone features voice recognition technology, you can make a call by voice commands.
- Operation varies depending on the type of cellular phone. Refer to the instruction manual that came with your cellular phone for detailed instructions.

1 Start voice recognition.
Refer to Introduction of Bluetooth telephone operations on page 36.

2 Say the name of your contact aloud.
Connecting a Bluetooth audio player
(Function of AVH P1400DVD)
A Bluetooth wireless connection can be established by putting the unit into initiating a connection mode.

- Put the unit in initiating a connection mode.
Refer to Bluetooth audio operations on page 37.
This unit is now on standby for connection from Bluetooth audio player.
If your Bluetooth audio player is set ready for Bluetooth wireless connection, connection to this unit is automatically established.

Displaying Bluetooth Device address
(Function of AVH P1400DVD)
This unit displays its Bluetooth Device address.

- Touch Device Information to display device information.
Refer to Introduction of Bluetooth telephone operations on page 36.
The Bluetooth Device address is displayed.

Connecting to a Bluetooth device automatically
(Function of AVH P1400DVD)
If this function is set to on, a connection between your Bluetooth device and this unit will take place automatically as soon as the two devices are less than a few meters apart.
Initially, this function is set to on.

1 Touch Auto Connect to turn automatic connection on.
Refer to Introduction of Bluetooth telephone operations on page 36.
If your Bluetooth device is ready for a Bluetooth wireless connection, a connection to this unit will automatically be established.
- To turn automatic connection off, touch Auto Connect again.

2 Turn your vehicle’s ACC switch off and on.
Once you turn your vehicle’s ACC switch on again, a connection is established automatically.
Introduction of menu operations

Audio adjustments

Using fader/balance adjustment
You can change the fader/balance setting to provide an ideal listening environment for all of the occupied seats.

1 Display the audio function menu. Refer to Introduction of menu operations on this page.

2 Touch Fader/Balance on the audio function menu.

3 Touch ▲ or ▼ to adjust the front/rear speaker balance.
Range: Front 15 to Rear 15
- Select F/R 0 L/R 0 when only using two speakers.
- The front/rear speaker balance cannot be adjusted when the rear output setting is Subwoofer. Refer to Setting the rear output and subwoofer controller on page 64.

4 Touch ◀ or ▶ to adjust the left/right speaker balance.
Range: Left 15 to Right 15

Using the equalizer
You can adjust the equalization to match the car’s interior acoustic characteristics as desired.

Recalling equalizer curves
There are seven stored equalizer curves which you can easily recall at any time. Here is a list of the equalizer curves.

<table>
<thead>
<tr>

</tr>
<tr>
<td>Natural</td>
<td>Natural</td>
</tr>
<tr>
<td>Vocal</td>
<td>Vocal</td>
</tr>
<tr>
<td>Flat</td>
<td>Flat</td>
</tr>
<tr>
<td>Custom1</td>
<td>Custom 1</td>
</tr>
</tbody>
</table>

Notes
- You can display the Video Setup menu when a Disc or USB source is selected.
- If you start the Video Setup menu, playback is stopped.
- You cannot display the Audio function menu when the mute function is on or a JPEG file is playing.
The equalizer curves for Custom1 and Custom2 can be adjusted.
You cannot select Custom1 and Custom2 when using the auto equalizer.
When Flat, no changes are made to the sound. You can check the effects of the equalizer curves by switching alternatively between Flat and another equalizer curve.

1. Display the audio function menu. Refer to Introduction of menu operations on the previous page.
2. Touch Graphic EQ on the audio function menu.
   - You can select Graphic EQ when Auto EQ function is off.
3. Touch ◄ or ► to select the desired item.
   Powerful Natural Vocal Flat Custom1 Custom2 Super Bass
4. Touch the Equalizer band to adjust.
5. Touch ▲ or ▼ to adjust the level of the equalizer band.
   Range: +12dB to −12dB
   - You can then select another band and adjust the level.

Using the auto-equalizer
The auto equalizer is an equalizer curve created by auto EQ (refer to Auto EQ (auto equalizing) on page 68). You can turn the auto equalizer on or off. If you connect an optional microphone to this unit, you can use this function.

1. Display the audio function menu. Refer to Introduction of menu operations on the previous page.
2. Touch Auto EQ to turn the auto-equalizer on or off.
   - You cannot use this function if auto EQ has not been carried out.

Using sonic center control
Sound that is suited for the listening position can easily be created with this function.

1. Display the audio function menu. Refer to Introduction of menu operations on the previous page.
2. Touch Sonic Center Control on the audio function menu.
3. Touch ◄ or ► to select a listening position.
   Range: Left 7 to Right 7

Adjusting loudness
Loudness compensates for deficiencies in the low frequency and high frequency ranges at low volume.

1 Display the audio function menu.
Refer to Introduction of menu operations on page 57.

2 Touch Loudness on the audio function menu.

3 Touch ◄ or ► to select a desired level.
Off (off) Low (low) Mid (mid) High (high)

Using subwoofer output
This unit is equipped with a subwoofer output which can be turned on or off.
• The cut off frequency and output level can be adjusted when the subwoofer output is on.

1 Display the audio function menu.
Refer to Introduction of menu operations on page 57.

2 Touch Subwoofer on the audio function menu.

3 Touch On or Off next to Subwoofer to turn the subwoofer output on or off.

4 Touch Normal or Reverse next to Phase to select the phase of subwoofer output.

5 Touch ◄ or ► next to Level to adjust the output level of the subwoofer.
Range: +6 to –24

6 Touch ◄ or ► next to Frequency to select the cut-off frequency.
50Hz 63Hz 80Hz 100Hz 125Hz
Only frequencies lower than those in the selected range are outputted from the subwoofer.

Boosting the bass
You can boost the bass level.

1 Display the audio function menu.
Refer to Introduction of menu operations on page 57.

2 Touch ◄ or ► to select a desired level.
Range: 0 to +6

Using the high pass filter
When you do not want low sounds from the subwoofer output frequency range to play from the front or rear speakers, turn on the HPF (high pass filter). Only frequencies higher than those in the selected range are output from the front or rear speakers.

1 Display the audio function menu.
Refer to Introduction of menu operations on page 57.

2 Touch ◄ or ► next to the frequency to select cut-off frequency.
Off (off) 50Hz 63Hz 80Hz 100Hz 125Hz
Only frequencies higher than those in the selected range are output from the front or rear speakers.

Adjusting source levels
With SLA (source level adjustment), the volume levels of each source can be adjusted to prevent significant differences between sources.
• Settings are based on the FM volume level, which remains unchanged.

1 Display the audio function menu.
Refer to Introduction of menu operations on page 57.

2 Compare the FM volume level with the level of the source you wish to adjust.
3 Touch Source Level Adjuster on the audio function menu.

4 Touch ▲ or ▼ to adjust the source volume.
   Range: +4 to –4

Notes
- When selecting FM as the source, you cannot switch to Source Level Adjuster.
- The AM volume level can also be adjusted with this function.
- Video CD, CD, compressed audio, DivX, MPEG 1, MPEG 2 and MPEG 4 are automatically set to the same source level adjustment volume.
- iPod and USB storage device are automatically set to the same source level adjustment volume.
- External unit 1 and external unit 2 are automatically set to the same source level adjustment volume.

Setting up the DVD player

Setting the subtitle language
You can set a desired subtitle language. When available, the subtitles will be displayed in the selected language.

1 Display the Video Setup menu.
   Refer to Introduction of menu operations on page 57.

2 Touch Subtitle Language on the Video Setup menu.
   A subtitle language menu is displayed.

3 Touch the desired language.
   The subtitle language is set.

   # If you have selected Others, refer to When you select Others on this page.

Notes
- If the selected language is not available, the language specified on the disc is displayed.
- You can also switch the subtitle language by touching the icon during playback. (Refer to Playing moving images on page 24.)
- The setting made here will not be affected even if the subtitle language is switched during playback using Subtitle.

When you select Others
A language code input display is shown when Others is selected. Refer to Language code chart for DVD on page 107.

   ● Touch 0 to 9 to input the language code.
     ■ To cancel the entered numbers, touch C
     ■ To register the code, touch the following touch panel key.

   Registering the code.

Setting the audio language
You can set the preferred audio language.
1 Display the Video Setup menu. Refer to Introduction of menu operations on page 57.

2 Touch Audio Language on the Video Setup menu. An audio language menu is displayed.

3 Touch the desired language. The audio language is set.
   - If you have selected Others, refer to When you select Others on the previous page.

Notes
- If the selected language is not available, the language specified on the disc is used.
- You can also switch the audio language by touching Audio during playback. (Refer to Playing moving images on page 24.)
- The setting made here will not be affected even if the audio language is switched during playback using Audio.

Setting the menu language
You can set the preferred language in which the menus recorded on a disc are displayed.

1 Display the Video Setup menu. Refer to Introduction of menu operations on page 57.

2 Touch Menu Language on the Video Setup menu. A menu language menu is displayed.

3 Touch the desired language. The menu language is set.
   - If you have selected Others, refer to When you select Others on the previous page.

Note
If the selected language is not available, the language specified on the disc is displayed.

Setting the multi-angle DVD display
The angle icon can be set so it appears on scenes where the angle can be switched.

1 Display the Video Setup menu. Refer to Introduction of menu operations on page 57.

2 Touch Multi Angle on the Video Setup menu to turn angle icon display on or off.

Setting the aspect ratio
There are two kinds of display: a wide screen display that has a width to height ratio (TV aspect ratio) of 16:9, and regular display that has a TV aspect of 4:3. Be sure to select the correct TV aspect for the display connected to V OUT.
- When using regular display, select either Letter Box or Pan Scan. Selecting 16:9 may result in an unnatural picture.
- If you select the TV aspect ratio, the unit’s display will change to the same setting.

1 Display the Video Setup menu. Refer to Introduction of menu operations on page 57.

2 Touch TV Aspect on the Video Setup menu to select the TV aspect ratio. Touch TV Aspect repeatedly until the desired aspect ratio appears.
   - 16:9 Wide screen picture (16:9) is displayed as is (initial setting)
   - Letter Box The picture is the shape of a letterbox with black bands on the top and bottom of the screen
   - Pan Scan The picture is cut short on the right and left sides of the screen

Notes
- When playing discs that do not specify Pan Scan, the disc is played back in Letter Box display even if you select the Pan Scan setting. Confirm whether the disc package bears the 16:9 LB mark.
• The TV aspect ratio cannot be changed for some discs. For details, refer to the disc’s instructions.

**Setting the slideshow interval**

JPEG files can be viewed as a slideshow on this unit. In this setting, the interval between each image can be set.

1. **Display the Video Setup menu.** Refer to *Introduction of menu operations* on page 57.
2. **Touch Time Per Photo Slide on the Video Setup menu to select the slideshow interval.**
   Touch **Time Per Photo Slide** repeatedly until the desired setting appears.
   - **5sec** JPEG images switch at intervals of 5 seconds
   - **10sec** JPEG images switch at intervals of 10 seconds
   - **15sec** JPEG images switch at intervals of 15 seconds
   - **Manual** JPEG images can be switched manually

**Setting parental lock**

Some DVD video discs let you use parental lock to restrict children from viewing violent and adult oriented scenes. You can set parental lock to the desired level.

- When you have a parental lock level set and play a disc featuring parental lock, code number input indications may be displayed. In such cases, playback will begin when the correct code number is entered.

1. **Display the Video Setup menu.** Refer to *Introduction of menu operations* on page 57.
2. **Touch Parental on the Video Setup menu.**
3. **Touch 0 to 9 to input a four digit code number.**
   - To cancel the entered numbers, touch **C**
   - To register the code, touch the following touch panel key.

```
[←] Registering the code.
```

The code number is set, and the level can now be set.

4. **Touch 1 to 8 to select the desired level.**
5. **Touch Enter.**

The parental lock level is set.

- **8** Playback of the entire disc is possible (initial setting)
- **7 to 2** Playback of discs for children and non adult oriented discs is possible
- **1** Playback of discs for children only is possible

**Notes**

- We recommend to keep a record of your code number in case you forget it.
- The parental lock level is stored on the disc. Look for the level indication written on the disc package, included literature or on the disc itself. Parental lock of this unit is not possible if a parental lock level is not stored on the disc.
- With some discs, the parental lock may be active only for certain levels of scenes. The playback of those scenes will be skipped. For details, refer to the instruction manual that came with the disc.

**Changing the level**

You can change the set parental lock level.

1. **Display the Video Setup menu.** Refer to *Introduction of menu operations* on page 57.
2 Touch Parental on the Video Setup menu.

3 Touch 0 to 9 to input the registered code number.
   - To register the code, touch the following touch panel key.

   Registering the code.

This sets the code number, and the level can now be changed.
   - If you enter an incorrect code number, the icon is displayed. Touch and enter the correct code number.

4 Touch 1 to 8 to select the desired level.
5 Touch Enter.
The new parental lock level is set.
   - If you forget your code number, touch 10 times.

Setting the DivX subtitle file
You can select whether or not to display DivX external subtitles.
   - The DivX subtitles will be displayed even when Custom is selected if no DivX external subtitle files exist.

1 Display the Video Setup menu. Refer to Introduction of menu operations on page 57.

2 Touch DivX® Subtitle on the Video Setup menu to select the desired subtitle setting.
   - Original Display the DivX subtitles
   - Custom Display the DivX external subtitles

Notes
   - Up to 42 characters can be displayed on one line. If more than 42 characters are set, the line breaks and the characters are displayed on the next line.
   - Up to 126 characters can be displayed on one screen. If more than 126 characters are set, the excess characters will not be displayed.

Displaying the DivX® VOD registration code
In order to play DivX VOD (video on demand) contents on this unit, the unit must first be registered with a DivX VOD contents provider. For registration, generate a DivX VOD registration code and submit it to your provider.
   - Keep a record of the code as you will need it when you register your unit to the DivX VOD provider.

1 Display the Video Setup menu. Refer to Introduction of menu operations on page 57.

3 Touch Registration Code.
Your registration code is displayed.

Displaying the deregistration code
If your device is already registered, deregister it by entering the deregistration code.

1 Display the Video Setup menu. Refer to Introduction of menu operations on page 57.

2 Touch DivX® VOD on the Video Setup menu.

3 Touch Deregistration Code.
   - To cancel deregistration, touch Cancel.

4 Touch OK.
The deregistration is complete.
Automatic playback of DVDs
When a DVD disc with a DVD menu is inserted, this unit will cancel the menu automatically and start playback from the first chapter of the first title.

- Some DVDs may not operate properly. If this function is not fully operated, turn this function off and start playback.

1 Display the Video Setup menu.
Refer to Introduction of menu operations on page 57.

2 Touch DVD Auto Play to turn automatic playback on.
   - To turn automatic playback off, touch DVD Auto Play again.

System settings
Switching the auxiliary setting
Activate this setting when using an auxiliary device connected to this unit.

1 Display the system menu.
Refer to Introduction of menu operations on page 57.

2 Touch AUX Input on the system menu to turn AUX Input on or off.

Setting AV input
Activate this setting when using an external video component connected to this unit.

1 Display the system menu.
Refer to Introduction of menu operations on page 57.

2 Touch AV Input on the system menu to turn AV Input on or off.

Setting the rear output and subwoofer controller
This unit’s rear output (rear speaker leads output and RCA rear output) can be used for full range speaker (Full) or subwoofer (Subwoofer) connection. If you switch the rear output setting to Subwoofer, you can connect a rear speaker lead directly to a subwoofer without using an auxiliary amp. Initially, the unit is set for a rear full range speaker connection (Full).

1 Turn the unit off.
Refer to Basic operations on page 14.

2 Press HOME to switch to the HOME display.

3 Touch System key.
System menu is displayed.
4 Touch Rear Speaker on the system menu to switch the subwoofer output or full-range speaker.
- When no subwoofer is connected to the rear output, select Full (full range speaker).
- When a subwoofer is connected to the rear output, select Subwoofer (subwoofer).

Notes
- Even if you change this setting, there will be no output unless you turn the subwoofer output on (refer to Using subwoofer output on page 59).
- Both rear speaker lead outputs and RCA rear output are switched simultaneously in this setting.

Switching sound muting/attenuation
Sound from this system is automatically muted or attenuated when a signal from equipment with a mute function is received.
- Sound from this system returns to normal when the muting or attenuation is canceled.

1 Display the system menu.
Refer to Introduction of menu operations on page 57.

2 Touch Mute/ATT until the desired setting appears.
Touch Mute/ATT until the desired setting appears in the display.
- Mute Muting
- ATT –20dB Attenuation (ATT –20dB has a stronger effect than ATT –10dB)
- ATT –10dB Attenuation
- Off Turns the sound muting/attenuation off

Notes
- When Mute is displayed, the sound is turned off and no audio adjustments can be made.
- When ATT is displayed, the sound is attenuated and only the volume can be adjusted. (No other audio adjustments can be made.)
- Operation returns to normal when the phone connection is ended.

Selecting the system language
The system language can be selected from nine languages.
If text information such as the title name, artist name or a comment is embedded in a European language, they can also be displayed on this unit.
- The language can be changed for the following:
  System menu
  On screen display (English and Russian only)
  Multi language setting for DivX (English and Russian only)
  Language for cautions
  Some operations on this unit are prohibited from use while driving or require careful attention when operated. In such cases, a caution will appear on the display. You can change the language for caution messages with this setting.
- If the embedded language and the selected language setting are not the same, text information may not display properly.
- Some characters may not be displayed properly.

1 Display the system menu.
Refer to Introduction of menu operations on page 57.

2 Touch System Language on the system menu to select the desired language.

3 Touch the desired language.
English (English) Français (French)
Deutsch (German) Español (Spanish)
Русский (Russian) Português (Portuguese)
العربية (Arabic) فارسی (Persian)
עברית (Hebrew)
Setting the ever scroll
When ever scroll is set to **On**, recorded text in information scrolls continuously in the display. Set to **Off** if you prefer the information to scroll just once.

1. Display the system menu.
   Refer to *Introduction of menu operations* on page 57.

2. Touch Ever Scroll on the system menu to turn ever scroll on or off.

Setting the Bluetooth audio
(Function of AVH P4400BH/AVH P3400BH/ AVH P2400BT)
You need to activate the **Audio** source in order to use a Bluetooth audio player.

1. Display the system menu.
   Refer to *Introduction of menu operations* on page 57.

2. Touch Bluetooth Audio on the system menu to turn Bluetooth audio on or off.

Clearing Bluetooth memory
(Function of AVH P4400BH/AVH P3400BH/ AVH P2400BT)

**Important**
Never turn the unit off while the Bluetooth memory is being cleared.

1. Turn the unit off.
   Refer to *Basic operations* on page 14.

2. Press HOME to switch to the HOME display.

3. Touch System key.
   System menu is displayed.

4. Touch Bluetooth Memory Clear on the system menu.

5. Touch Clear.
   After selecting a desired item, a confirmation display appears. Touch **OK** to delete the memory.
   - If you do not want to clear the memory, touch **Cancel**.

Updating Bluetooth connection software
(Function of AVH P4400BH/AVH P3400BH/ AVH P2400BT)
This function is used to update this unit with the latest software. For information on the software and updating, refer to our website.

**Important**
Never turn the unit off and never disconnect the phone while the software is being updated.

1. Turn the unit off.
   Refer to *Basic operations* on page 14.

2. Press HOME to switch to the HOME display.

3. Touch System key.
   System menu is displayed.

4. Touch Bluetooth Software Update.

5. Touch Start to display the data transfer mode.
   - Follow the on screen instructions to finish updating the software.

Displaying the Bluetooth system version
(Function of AVH P4400BH/AVH P3400BH/ AVH P2400BT)
If this unit fails to operate properly, you may need to consult your dealer for repair. In such cases, you may be asked to specify the system version. Perform the following procedure to check the version on this unit.
1 Turn the unit off. Refer to Basic operations on page 14.

2 Press HOME to switch to the HOME display.

3 Touch System key. System menu is displayed.

4 Touch Bluetooth Version Information to display the version of the Bluetooth module of this unit.

Setting the rear view camera (back up camera)

**CAUTION**
Pioneer recommends the use of a camera which outputs mirror-reversed images. Otherwise, the screen image will appear reversed.

This unit features a function that automatically switches to the rear view camera video (R.C IN) when a rear view camera is installed on your car and the shift lever is moved to the REVERSE (R) position. (For more details, consult your dealer.)

- After you set up the rear view camera setting, move the shift lever to REVERSE (R) and confirm that the rear view camera video is shown on the display.
- Change this setting if the display switches to the rear view camera video by error while you are driving forward.
- To stop watching the rear view camera video and return to the source display, press and hold MUTE.
- Touch the RearView source icon to display the rear view camera image while driving. Touch the source icon again to turn the rear view camera off. For details, refer to Selecting a source using the touch panel keys on page 15.

1 Display the system menu. Refer to Introduction of menu operations on page 57.

2 Touch Camera Polarity on the system menu to select the appropriate setting.
   - **Battery** When the polarity of the connected lead is positive while the shift lever is in REVERSE (R) position
   - **Ground** When the polarity of the connected lead is negative while the shift lever is in REVERSE (R) position
   - **Off** When a rear view camera is not connected to this unit

**Note**
You can also switch the rear view image by pressing the touch key, regardless of the Camera Polarity setting on the system menu. Refer to Basic operations on page 14.

Setting the video signal

When you connect this unit to an AV equipment to this unit, select the suitable video signal setting.

- As this function is initially set to Auto, the unit will automatically adjust the video signal setting.
- You can operate this function only for the video signal input into the AV input.

1 Display the system menu. Refer to Introduction of menu operations on page 57.

2 Touch Video Signal Setting on the function menu.

**Video Signal Setting** items are displayed.

- **AV** Adjusts the AV video signal
- **AUX** Adjusts the AUX video signal
- **Camera** Adjusts the rear view camera video signal

3 Touch ◀ or ▶ to select the desired video signal appears.

Auto PAL NTSC PAL-M PAL-N SECAM
Changing the picture adjustment

You can adjust the Brightness (brightness), Contrast (contrast), Color (color), Hue (hue), Dimmer (dimmer), Temperature (temperature), Black Level (black level) and Dot Adjustment (RGB dot clock adjustment) for each source and rear view camera.

* You cannot adjust Color, Hue, Contrast and Black Level for the audio source.

1 Display the system menu.
Refer to Introduction of menu operations on page 57.

2 If you are adjusting the Picture Adjustment, select the unit.

<table>
<thead>
<tr>
<th>NAVI</th>
<th>Adjusting the Picture Adjustment for the Navigation system.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rear View</td>
<td>Adjusting the Picture Adjustment for the rear view camera.</td>
</tr>
<tr>
<td>Source</td>
<td>Adjusting the Picture Adjustment for the source.</td>
</tr>
</tbody>
</table>

3 Touch any of the following touch panel keys to select the function to be adjusted.

Picture Adjustment items are displayed.

* Brightness Adjusts the black intensity
* Contrast Adjusts the contrast
* Color Adjusts the color saturation
* Hue Adjusts the tone of color (red or green is emphasized)
* Dimmer Adjusts the brightness of the display
* Temperature Adjusts the color temperature, resulting in a better white balance
* Black Level Emphasizes the dark portions of images making the difference between bright and dark more distinct
* Dot Adjustment Adjusts phase shifting by dot clock when a Navigation system is connected

* You cannot adjust the picture adjustment for the rear view camera when Camera Polarity is set to Off. (Refer to Setting the rear view camera (back up camera) on the previous page.)
* You can adjust Hue only when the color system is set to NTSC.
* With some rear view cameras, picture adjustment may not be possible.

4 Touch ‹ or › to adjust the selected item.
Each time you touch ‹ or ›, the level of the selected item increases or decreases.

* Dimmer can be adjusted from +1 to +48.
* Temperature can be adjusted from +3 to –3.

5 Touch Black Level and Dot Adjustment to adjust.

* Black Level can be set on or off.
* Dot Adjustment can be set to 1 or 2.

Notes

* You cannot operate this function while driving.
* Different Brightness/Contrast/Dimmer settings can be set for when the illumination switch is on and when it is off.

Auto EQ (auto-equalizing)

The auto equalizer automatically measures the car’s interior acoustic characteristics, and then creates an auto equalizer curve based on that information.

* To perform this function, dedicated microphone (e.g. CD MC20) is required.

**WARNING**

As a loud tone (noise) may be emitted from the speakers when measuring the car’s interior acoustic characteristics, never perform auto TA or auto EQ while driving.

**CAUTION**

* Thoroughly check the conditions before performing auto EQ as the speakers may be damaged if these functions are performed when:
The speakers are incorrectly connected. (For example, when a rear speaker is connected as a subwoofer output.) A speaker is connected to a power amp delivering output higher than the speaker’s maximum input power capability.

- If the microphone is placed in an unsuitable position the measurement tone may become loud and measurement may take a long time, resulting in battery drainage. Be sure to place the microphone in the specified location.

Before operating the auto EQ function

- Carry out auto EQ in as quiet a place as possible, with the car engine and air conditioning switched off. Also cut power to car phones or portable telephones in the car, or remove them from the car before carrying out auto EQ. Sounds other than the measurement tone (surrounding sounds, engine sound, telephones ringing etc.) may prevent correct measurement of the car interior acoustic characteristics.
- Be sure to carry out auto EQ using the optional microphone. Using another microphone may prevent measurement, or result in incorrect measurement of the car interior acoustic characteristics.
- In order to perform auto EQ, the front speaker must be connected.
- When this unit is connected to a power amp with input level control, auto EQ may not be possible if the power amp’s input level is set below the standard level.
- When this unit is connected to a power amp with an LPF, turn this LPF off before performing auto EQ. Also set the cut off frequency for the built in LPF of an active subwoofer to the highest frequency.
- The distance has been calculated by computer to be the optimum delay to give accurate results for the circumstances, so please continue to use this value. The reflected sound within the car is strong and delays occur.

The LPF on active subwoofers or external amps delay the lower sounds.

- Auto EQ changes the audio settings as follows:
  - The fader/balance settings return to the center position. (Refer to Using fader/balance adjustment on page 57.)
  - The equalizer curve switches to Flat. (Refer to Recalling equalizer curves on page 57.)
  - The front, center and rear speakers will automatically be adjusted to a high pass filter setting.
- Previous settings for auto EQ will be overwritten.

Performing auto EQ

1. Stop the car in a place that is quiet, close all the doors, windows and sun roof, and then turn the engine off.
   If the engine is left running, engine noise may prevent correct auto EQ.

2. Fix the optional microphone in the center of the headrest of the driver’s seat, facing forward.
   The auto EQ may differ depending on where you place the microphone. If desired, place the microphone on the front passenger seat to carry out auto EQ.

3. Turn the ignition switch to ON or ACC.
   If the car’s air conditioner or heater is turned on, turn it off. Noise from the fan in the air conditioner or heater may prevent correct auto EQ.
4 Display the system menu.
Refer to Introduction of menu operations on page 57.

5 Touch Auto EQ Measurement to enter auto EQ measurement mode.

6 Plug the microphone into the microphone input jack on this unit.

7 Touch Start to start auto EQ.

8 When the 10-second countdown starts, get out of the car and close the door within 10 seconds.
A measurement tone (noise) is emitted from the speakers, and auto EQ measurement begins.
When auto EQ is completed, Complete is displayed.
When the car’s interior acoustic characteristics cannot be measured correctly, an error message will be displayed. (Refer to Understanding auto EQ error messages on page 96.)
- It takes about nine minutes for auto EQ measurement to be completed when all the speakers are connected.
- To stop auto EQ, touch Stop.

9 Store the microphone carefully in the glove compartment or another safe place.
If the microphone is subjected to direct sunlight for an extended period, high temperatures may cause distortion, color change or malfunction.

10 Press (eject) to close the panel.
(AVH-P4400BH only)
**Menu operations**

**Favorite menu**

1. Display menu columns to register. Refer to *Introduction of menu operations* on page 57.
   - You can customize menus except Video Setup menu.

2. Touch and hold the menu column to register it.
   - To cancel registration, touch and hold the menu column again.

3. Display the favorite menu and choose a registered menu. Refer to *Introduction of menu operations* on page 57.

**Note**
You can register up to 12 columns.

**Introduction of Bluetooth connection menu operations**

Refer to *Basic operations* on page 14.
If you are using a cellular phone that can be connected via Bluetooth wireless technology, we recommend that you use your phone to search for this unit and establish a connection between it and your phone. The PIN code is set to 0000 as default. The product name for this unit will display on your phone as the device name. For details, refer to *Entering PIN code for Bluetooth wireless connection* on page 73. For further details concerning the procedures for establishing Bluetooth wireless connections, refer to the instruction manual for the phone.

**Pairing from this unit**

(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)

1. Display the Bluetooth Connection Menu. Refer to *Introduction of Bluetooth telephone operations* on page 34.

2. Touch Connection to select a device.

3. Start to search.

While searching, is displayed and when available devices are found, the device names or Bluetooth device addresses (if names can not be obtained) are displayed.
If you want to switch between the device names and Bluetooth device addresses, touch the icon.

Switching between the device names and Bluetooth device addresses.

- To cancel searching, touch Stop.
- If five devices are already paired, Memory Full is displayed and pairing cannot be performed. In such cases, delete a paired device first. Refer to this page.
- If no device can be found, Not Found is displayed. In such cases, check the status of the Bluetooth device and search again.

4 Touch a device name to select the device you want to connect to.
While connecting, Pairing is displayed. If the connection is established, Paired is displayed.
- 6 digit number appears on the display of this unit. Once the connection is established, this number disappears.
- If the connection fails, Error is displayed. In such cases, try again from the beginning.
- The PIN code is set to 0000 as the default, but can be changed. Refer to Entering PIN code for Bluetooth wireless connection on the next page.
- Once the connection is established, the device name is displayed. Touch the device name to disconnect.
- If you want to delete a paired Bluetooth telephone, display Delete OK?. Touch Yes to delete the device.

Deleting a paired device.

- Never turn the unit off while the paired Bluetooth telephone is being deleted.

Using a Bluetooth device to pair
(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)

If you cannot open the connection between your Bluetooth device and this unit from your Bluetooth device, you can use this function to establish a connection.

1 Display the Bluetooth Connection Menu.
Refer to Introduction of Bluetooth telephone operations on page 34.

2 Touch Special Device to select the special device.
- Bluetooth devices that are difficult to establish a connection with are called special devices. If your Bluetooth device is listed as a special device, select the appropriate one.

3 Touch the special device list to open the connection.
This unit is now on standby for a connection with the Bluetooth device.
- If three devices are already paired, Memory Full is displayed and pairing cannot be performed. In such cases, delete a paired device first. Refer to this page.

4 Use your Bluetooth device to establish a connection.
The connection method is different depending on the Bluetooth device. Refer to the manual for your Bluetooth device to establish a connection.
While connecting, Pair your phone is displayed. If the connection is established, Paired is displayed.
- If the connection fails, Error is displayed. In such cases, try again from the beginning.
- You may also need to enter a PIN code into this unit. If your telephone requires a PIN code to establish a connection, look for the code on the telephone or in its accompanying documentation.
- The PIN code is set to 0000 as the default, but can be changed. Refer to Entering PIN code for Bluetooth wireless connection on the next page.
Connecting to a Bluetooth device automatically
(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
If this function is set to on, a connection between your Bluetooth device and this unit will take place automatically as soon as the two devices are less than a few meters apart. Initially, this function is set to on.

1 **Display the Bluetooth Connection Menu.**
Refer to *Introduction of Bluetooth telephone operations* on page 34.

2 **Touch Auto Connect to turn automatic connection on.**
If your Bluetooth device is ready for a Bluetooth wireless connection, a connection to this unit will automatically be established.

   - To turn automatic connection off, touch **Auto Connect** again.
If connection fails, “Auto connection failed. Retry?” appears. Touch **Yes** to reconnect.

3 **Once you turn your vehicle’s ACC switch on again, a connection is established automatically.**

Switching visible unit
(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
This function sets whether or not to make this unit visible to the other device. Initially, this function is set to on.

1 **Display the Bluetooth Connection Menu.**
Refer to *Introduction of Bluetooth telephone operations* on page 34.

2 **Touch Visibility to select visibility off.**
   - To turn visibility on, touch **Visibility** again.

Displaying Bluetooth Device address
(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
This unit displays its Bluetooth device address.

1 **Display the Bluetooth Connection Menu.**
Refer to *Introduction of Bluetooth telephone operations* on page 34.

2 **Touch Device Information to display device information.**
The Bluetooth device address is displayed.

Entering PIN code for Bluetooth wireless connection
(Function of AVH P4400BH/AVH P3400BH/AVH P2400BT)
To connect your Bluetooth device to this unit via Bluetooth wireless technology, you need to enter a PIN code on your Bluetooth device to verify the connection. The default code is 0000, but you can change it with this function.

1 **Display the Bluetooth Connection Menu.**
Refer to *Introduction of Bluetooth telephone operations* on page 34.

2 **Touch PIN Code Input to select PIN Code Input.**

3 **Touch 0 to 9 to input pin code.**

4 **After inputting PIN code (up to 8 digits), store in this unit.**

Storing the PIN code in this unit.
**Introduction of Theme setting menu operations**
Refer to *Basic operations* on page 14.

**Selecting the illumination color**
This unit is equipped with multiple color illumination.

**Direct selection from preset illumination colors**
You can select an illumination color from the color list.

1. Display the Theme menu.  
   Refer to *Basic operations* on page 14.
2. Touch Illumination and then touch a color on the list.

**Customizing the illumination color**

1. Display the Theme menu.  
   Refer to *Basic operations* on page 14.
2. Touch Illumination and then touch Custom.
3. Display the customizing menu.

   ![Displaying the customizing menu.](image)

4. Touch the color bar to customize the color.
5. Touch ◀ or ▶ to fine-tune the color.
6. Touch the icon and hold to store the customized color in the memory.

**Selecting the OSD (on-screen display) color**
The OSD color can be changed.

1. Display the Theme menu.  
   Refer to *Basic operations* on page 14.
2. Touch Screen.
3. Touch one of the colors on the list.

**Selecting the background display**
You can switch the background that is displayed when listening to a source.

1. Display the Theme menu.  
   Refer to *Basic operations* on page 14.
2. Touch Background.
3. Touch the desired setting.

   - If no JPEG images are stored in this unit, you cannot select photo. To store a JPEG image to this unit, refer to *Capture an image in JPEG files* on page 47.

**Memo**
Storing the customized color in the memory.
The customized color has been stored in the memory.
The set color will be recalled from the memory the next time you touch the same icon.
**Adjusting the response positions of the touch panels (Touch Panel Calibration)**

If you feel that the touch panel keys on the screen deviate from the actual positions that respond to your touch, adjust the response positions of the touch panel. There are two adjustment methods: 4 point adjustment, in which you touch four corners of the screen; and 16 point adjustment, in which you make fine adjustments on the entire screen.

- Touch the screen gently for adjustment. Forcefully pressing the touch panel may damage the touch panel. Do not use a sharp pointed tool such as a ballpoint pen or mechanical pen. Doing so may damage the screen.
- If the touch panel cannot be adjusted properly, consult your local Pioneer dealer.

1. **Turn the unit off.**
   Refer to *Basic operations* on page 14.

2. **Press and hold HOME to start Touch Panel Calibration.**
   The 4 point touch panel adjustment screen appears.

3. **Touch each of the arrows on the four corners of the screen.**
   - To cancel the adjustment, press and hold HOME.

4. **Press HOME to complete 4-point adjustment.**
   Data for the adjusted position is saved.
   - Do not turn off the engine while the data is being saved.

5. **Press HOME to proceed to 16-point adjustment.**
   The 16 point touch panel adjustment screen appears.
   - To cancel the adjustment, press and hold HOME.

6. Gently touch the center of the + mark displayed on the screen.
   After you touch all the marks, the data for the adjusted position is saved.
   - Do not turn off the engine while the data is being saved.

7. **Press and hold HOME to complete the adjustment.**

**Using an AUX source**

A separately sold auxiliary device such as a VCR or portable device can be connected to this unit. When connected, the auxiliary device is automatically recognized as an AUX source and is assigned to **AUX**.

**About AUX connection methods**

You can connect auxiliary devices to this unit.

**Mini pin plug cable (AUX)**

*When connecting an auxiliary device using a mini plug cable*  

iPods and portable audio/video players can be connected to this unit via mini plug cable.

- If an iPod with video capabilities is connected to this unit via 3.5 mm plug (4 pole) cable (such as the CD V150M), you can enjoy the video contents of the connected iPod.
- A portable audio/video player can be connected by using a 3.5 mm plug (4 pole) with an RCA cable (sold separately). However, depending on the cable, a reverse connection between the red (right side audio) cable and yellow (video) cable may be required in order for the sound and video image to be reproduced correctly.

- **Insert the stereo mini plug into the AUX input jack on this unit.**
  Refer to *Installation* on page 77.
  Refer to *What’s what* on page 11.
Using an external unit
An external unit refers to a Pioneer product, such as those which will be available in the future. Although incompatible as a source, the basic functions of up to two external units can be controlled with this unit. When two external units are connected, the external units are automatically allocated to external unit 1 or external unit 2.
The basic operations of the external unit are explained below. The allocated functions will differ depending on the connected external unit. For details concerning these functions, refer to the owner’s manual for the external unit.

Basic operations
The functions allocated to the following operations will differ depending on the connected external unit. For details concerning these functions, refer to the owner’s manual for the connected external unit.

- Auto
  - Switching to auto or manual.

- Manual

- Audio
  - Switching to video and audio.

- Video

- Wide
  - Changing the screen mode.
  - Refer to Changing the wide screen mode on page 47.

- EQ
  - Switching the equalizer curves.
  - Refer to Using the equalizer on page 57.
  - Touch and hold for more than two seconds to turn the auto equalizer on or off.
  - Refer to Using the auto equalizer on page 58.

Function 1 to 4
- Actions will differ depending on the connected external unit.

Using the functions allocated to 1 to 6 keys.
- Actions will differ depending on the connected external unit.
Connecting the units

**WARNING**
- To avoid the risk of accident and the potential violation of applicable laws, no viewing of front seat video should ever occur while the vehicle is being driven. Also, rear displays should not be in a location where they are visibly distracting to the driver.
- In some countries or states the viewing of images on a display inside a vehicle even by persons other than the driver may be illegal. Where such regulations apply, they must be obeyed and this unit’s DVD features should not be used.

**CAUTION**
- PIONEER does not recommend that you install or service your display unit yourself. Installing or servicing the product may expose you to risk of electric shock or other hazards. Refer all installation and servicing of your display unit to authorized Pioneer service personnel.
- Secure all wiring with cable clamps or electrical tape. Do not allow any bare wiring to remain exposed.
- Do not drill a hole into the engine compartment to connect the yellow cable of the display unit to the vehicle battery. Engine vibration may eventually cause the insulation to fail at the point where the wire passes from the passenger compartment into the engine compartment. Take extra care in securing the wire at this point.
- It is extremely dangerous to allow the microphone lead to become wound around the steering column or shift lever. Be sure to install the unit in such a way that it will not obstruct driving.
- Make sure that cables will not interfere with moving parts of the vehicle, such as the shift lever, parking brake or seat sliding mechanism.
- Do not shorten any cables. If you do, the protection circuit may fail to work properly.

**WARNING**
- LIGHT GREEN LEAD AT POWER CONNECTOR IS DESIGNED TO DETECT PARKED STATUS AND MUST BE CONNECTED TO THE POWER SUPPLY SIDE OF THE PARKING BRAKE SWITCH. IMPROPER CONNECTION OR USE OF THIS LEAD MAY VIOLATE APPLICABLE LAW AND MAY RESULT IN SERIOUS INJURY OR DAMAGE.

**WARNING**
- Use speakers over 50 W (output value) and between 4 Ω to 8 Ω (impedance value). Do not use 1 Ω to 3 Ω speakers for this unit.
- The black cable is ground. When installing this unit or power amp (sold separately), make sure to connect the ground wire first. Make sure that the ground cable is properly connected to metal parts of the car body using a spade terminal sold commercially. The ground wire of the power amp and the one of this unit or any other device must be connected to the car separately with different screws. If the screw for the ground wire loosens or falls out, it could result in fire, generation of smoke or malfunction.

![Diagram](en77.png)

*Non supplied for this unit.*
Important

- This unit cannot be installed in a vehicle without ACC (accessory) position on the ignition switch.

![ACC position]( ACC position) ![No ACC position]( No ACC position)

- Use this unit with a 12 volt battery and negative grounding only. Failure to do so may result in a fire or malfunction.

- To prevent a short circuit, overheating or malfunction, be sure to follow the directions below.
  
  Disconnect the negative terminal of the battery before installation.
  
  Secure the wiring with cable clamps or adhesive tape. Wrap adhesive tape around wiring that comes into contact with metal parts to protect the wiring.
  
  Place all cables away from moving parts, such as the shift lever and seat rails.
  
  Place all cables away from hot places, such as near the heater outlet.
  
  Do not connect the yellow cable to the battery by passing it through the hole to the engine compartment.
  
  Cover any disconnected cable connectors with insulating tape.
  
  Do not shorten any cables.
  
  Never cut the insulation of the power cable of this unit in order to share the power with other devices. The current capacity of the cable is limited.
  
  Use a fuse of the rating prescribed.
  
  Never wire the negative speaker cable directly to ground.
  
  Never band together negative cables of multiple speakers.

- When this unit is on, control signals are sent through the blue/white cable. Connect this cable to the system remote control of an external power amp or the vehicle’s auto antenna relay control terminal (max. 300 mA 12 V DC). If the vehicle is equipped with a glass antenna, connect it to the antenna booster power supply terminal.

- Never connect the blue/white cable to the power terminal of an external power amp. Also, never connect it to the power terminal of the auto antenna. Doing so may result in battery drain or a malfunction.

- IP BUS connectors are color coded. Be sure to connect connectors of the same color.
Connecting the power cord

- **Yellow**
  - Connect to the constant 12 V supply terminal.

- **Orange/white**
  - Connect to lighting switch terminal.

- **Red**
  - Connect to terminal controlled by ignition switch (12 V DC).

- **Black (chassis ground)**
  - Connect to a clean, paint free metal location.

- **White**
  - Front speaker Left
  - Rear speaker or Subwoofer (4 Ω)

- **Gray**
  - Front speaker Right
  - Rear speaker or Subwoofer (4 Ω)

- **Gray/black**
  - Rear speaker or Subwoofer (4 Ω)

- **Violet**
  - Rear speaker or Subwoofer (4 Ω)

- **Violet/black**
  - Rear speaker or Subwoofer (4 Ω)

- **Not used.**
  - Green
  - Violet
  - Green/black
  - Violet/black

- **Fuse (10 A)**

- **26 pin cable (Supplied with navigation unit)**
  - Insert the 26 pin cable in the direction indicated in the figure.

- **RGB input**
  - Navigation system (AVIC U220 sold separately)

- **AUX jack (3.5 ø) (AVH P4400BH only)**
  - Use a mini plug cable to connect with auxiliary device.

- **Fuse (10 A)**

When using a subwoofer of 70 W (2 Ω), be sure to connect with Violet and Violet/black leads of this unit. Do not connect anything to Green and Green/black leads.
**Installation**

4 m (13 ft. 1 in.)

Microphone (AVH P4400BH/AVH P3400BH/AVH P2400BT only)

Microphone input (AVH P4400BH/AVH P3400BH/AVH P2400BT only)

Wired remote input
Hard wired remote control adaptor can be connected (sold separately).

- Violet/white
  - Of the two lead wires connected to the back lamp, connect the one in which the voltage changes when the gear shift is in the REVERSE (R) position. This connection enables the unit to sense whether the car is moving forwards or backwards.

- Yellow/black
  - If you use an equipment with Mute function, wire this lead to the Audio Mute lead on that equipment. If not, keep the Audio Mute lead free of any connections.

- Light green
  - Used to detect the ON/OFF status of the parking brake. This lead must be connected to the power supply side of the parking brake switch.

- Blue/white
  - Connect to system control terminal of the power amp or auto antenna relay control terminal (max. 300 mA 12 V DC).

  With a 2 speaker system, do not connect anything to the speaker leads that are not connected to speakers.

**Note:**
- Change the initial setting of this unit. The subwoofer output of this unit is monaural.
When connecting to separately sold power amp

Connect with RCA cables (sold separately)

Rear output
Front output
Subwoofer output
This product

Blue/white Connect to system control terminal of the power amp or auto-antenna relay control terminal. (max. 300 mA 12 V DC).

Perform these connections when using the optional amplifier.
Connecting the system (for AVH-P1400DVD model)

- Bluetooth adapter (e.g. CD BTB200) (sold separately)
- IP BUS cable (Supplied with Bluetooth adapter)
- Microphone for hands free phoning (supplied with Bluetooth adapter)

Connecting the system (for AVH-P2400BT/AVH-P1400DVD model)

- HD Radio tuner (sold separately)
- IP BUS cable (Supplied with HD Radio tuner)
When connecting with optional CD-IU201V cable

- This product
- USB input
- iPod with video capabilities (sold separately)
- Dock connector
- 1.5 m (4 ft. 11 in.)
- 2 m (6 ft. 7 in.)
- USB cable (Supplied with this unit for AVH P4400BH. Sold separately for other models.)
- Interface cable (CD IU201V) (sold separately)
- AUX input (AUX)
When connecting the external video component and the display

- It is necessary to change AV Input in the system menu when connecting the external video component. Refer to Setting AV input on page 64.

When using a display connected to rear video output

This product’s rear video output and rear audio output are for connection of a display to enable passengers in the rear seats to watch the DVD, etc.

**WARNING**
- Never install the display in a location where it is visible to the driver while driving.
When connecting with a rear view camera

When the shift lever is switched to REVERSE (R), the display on this unit automatically switches to the rear view image. You need to set the Camera Polarity properly in the system menu. For details about the settings, refer to Setting the rear view camera (back up camera) on page 67.

You can also switch the rear view image by pressing the touch key. For details, refer to Basic operations on page 14.

**WARNING**

USE INPUT ONLY FOR REVERSE OR MIRROR IMAGE REAR VIEW CAMERA. OTHER USE MAY RESULT IN INJURY OR DAMAGE.

**CAUTION**

- You must use a camera which outputs mirror reversed images.
- The screen image may appear reversed.
- The rear view camera function is to be used as an aid to keep an eye on trailers, or while backing up. Do not use for entertainment purposes.
- Objects in the rear view may appear closer or more distant than they actually are.
Installation

Notes

- Check all connections and systems before final installation.
- Do not use unauthorized parts as this may cause malfunctions.
- Consult your dealer if installation requires drilling of holes or other modifications to the vehicle.
- Do not install this unit where:
  - it may interfere with operation of the vehicle.
  - it may cause injury to a passenger as a result of a sudden stop.
- Do not install the display where it may (i) obstruct the driver’s vision, (ii) impair the performance of any of the vehicle’s operating systems or safety features, including air bags, hazard lamp buttons or (iii) impair the driver’s ability to safely operate the vehicle.
- The semiconductor laser will be damaged if it overheats. Install this unit away from hot places such as near the heater outlet.
- Optimum performance is obtained when the unit is installed at an angle of less than 30°.
- When installing, to ensure proper heat dispersion when using this unit, make sure you leave ample space behind the rear panel and wrap any loose cables so they are not blocking the vents.
- To some types of vehicles, this unit cannot be properly installed. In such case, use the optional installation kit (ADT VA133).

Installation using the screw holes on the side of the unit

- Fastening the unit to the factory radio-mounting bracket.
  Position the unit so that its screw holes are aligned with the screw holes of the bracket, and tighten the screws at 3 locations on each side.
If the pawl gets in the way, bend it down.

Factory radio mounting bracket

Use either truss (5 mm × 8 mm) or flush surface (5 mm × 9 mm) screws, depending on the bracket screw holes.

Frame

In some types of vehicles, discrepancy may occur between the unit and the dashboard. If this happens, use the supplied frame to fill the gap.

Dashboard or console

---

Installing the microphone (For AVH-P4400BH/AVH-P3400BH/AVH-P2400BT model)

⚠️ CAUTION

It is extremely dangerous to allow the microphone lead to become wound around the steering column or shift lever. Be sure to install the unit in such a way that it will not obstruct driving.

Note

Install the microphone in a position and orientation that will enable it to pick up the voice of the person operating the system.

When installing the microphone on the sun visor

1. Install the microphone on the microphone clip.

2. Install the microphone clip on the sun visor.

With the sun visor up, install the microphone clip. (Lowering the sun visor reduces the voice recognition rate.)
When installing the microphone on the steering column

1  Install the microphone on the microphone clip.

2  Install the microphone clip on the rear side of the steering column.

- Microphone clip
- Clamp

Use separately sold clamps to secure the lead where necessary inside the vehicle.

- Double sided tape
- Clamp

Use separately sold clamps to secure the lead where necessary inside the vehicle.

Adjusting the microphone angle

The microphone angle can be adjusted.
## Troubleshooting

### Common

<table>
<thead>
<tr>
<th>Symptom</th>
<th>Cause</th>

</tr>
</thead>
<tbody>
<tr>
<td>The power will not turn on.</td>
<td>Leads and connectors are incorrectly connected.</td>
<td>Confirm once more that all connections are correct.</td>
</tr>
<tr>
<td>The unit will not operate.</td>
<td>The fuse is blown.</td>
<td>Rectify the cause and then replace the fuse. Be sure to install a fuse with the same rating.</td>
</tr>
<tr>
<td>Operation with the remote control is not possible. The unit does not operate correctly even when the appropriate remote control buttons are pressed.</td>
<td>Battery power is low.</td>
<td>Load a new battery.</td>
</tr>
<tr>
<td>Some operations are prohibited with certain discs.</td>
<td>Try operating with another disc.</td>
<td></td>
</tr>
<tr>
<td>Playback is not possible.</td>
<td>The disc is dirty.</td>
<td>Clean the disc.</td>
</tr>
<tr>
<td>The type of disc loaded cannot be played on this unit.</td>
<td>Check the disc type.</td>
<td></td>
</tr>
<tr>
<td>The disc loaded is not compatible with this video system.</td>
<td>Change the disc to one that is compatible with your video system.</td>
<td></td>
</tr>
<tr>
<td>There is no sound. The volume level will not rise.</td>
<td>Cables are not connected correctly.</td>
<td>Connect the cables correctly.</td>
</tr>
<tr>
<td>The unit is performing still, slow motion or frame by frame playback.</td>
<td>There is no sound during still, slow motion or frame by frame playback.</td>
<td></td>
</tr>
<tr>
<td>There is no image displayed.</td>
<td>The parking brake cable is not connected.</td>
<td>Connect the parking brake cable, and apply the parking brake.</td>
</tr>
<tr>
<td>The parking brake is not applied.</td>
<td>Connect the parking brake cable, and apply the parking brake.</td>

### Additional information

- **Camera Polarity** is at incorrect setting. **Press and hold HOME** to return to the source display and then select the correct setting for **Camera Polarity**. (Page 67)
### Additional information

#### Symptom | Cause | Action (Reference page)
---|---|---
No xxxx appears when a display is changed (No Title, for example). | There is no embedded text information. | Switch the display or play another track/file.  
Subfolders cannot be played back. | Folder repeat play has been selected. | Select the repeat range again.  
The repeat range changes automatically. | Another folder was selected during repeat play. | Select the repeat range again.  
Track search or fast forward/reverse was performed during file repeat play. | Select the repeat range again.  

#### DVD

#### Symptom | Cause | Action (Reference page)
---|---|---
Playback is not possible. | The loaded disc has a different region number from this unit. | Replace the disc with one featuring the same region number as this unit.  
A parental lock message is displayed and playback is not possible. | Parental lock is activated. | Turn parental lock off or change the level. (Page 62)  
Parental lock cannot be canceled. | The code number is incorrect. | Enter the correct code number. (Page 62)  
You have forgotten your code number. | Touch C 10 times to cancel the code number.  
Dialog language (and subtitle language) cannot be switched. | The DVD being played does not feature multiple language recordings. | The language cannot be switched if they are not recorded on the disc.  
You can only switch between items indicated in the disc menu. | Switch the language using the disc menu.  

#### Symptom | Cause | Action (Reference page)
---|---|---
No subtitles are displayed. | The DVD being played does not feature subtitles. | Subtitles are not displayed if they are not recorded on the disc.  
You can only switch between items indicated in the disc menu.  
The language cannot be switched if the selected language is not recorded on the disc.  
Playback is not performed with the audio language and subtitle language settings selected in Video Setup menu. | The DVD being played does not feature dialog or subtitles in the selected language. | Switch the language using the disc menu.  
The viewing angle cannot be switched. | The DVD being played does not feature scenes shot from multiple angles. | Switch between multiple angles when watching scenes recorded from multiple angles.  
The image is extremely unclear/distorted and dark during playback. | Some discs feature a signal to prohibit copying. | Since this unit is compatible with the analog copy generation management system, when playing a disc that has a signal prohibiting copying, horizontal stripes or other imperfections may appear when viewed on some displays. This is not a malfunction.

Understanding auto EQ error messages

When correct measurement of the car’s interior acoustic characteristics is not possible using auto EQ, an error message may appear on the display. In such cases, refer to the table below to see what the problem is and how it may be corrected. After checking, try again.

<table>
<thead>
<tr>
<th>Message</th>
<th>Cause</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>Error. Please check MIC.</td>
<td>The microphone is not connected.</td>
<td>Plug the optional microphone securely into the jack.</td>
</tr>
<tr>
<td>Error. Please check xxxx speaker.</td>
<td>The microphone cannot pick up the measuring tone of a speaker.</td>
<td>• Confirm that the speakers are connected correctly. • Correct the input level setting of the power amp connected to the speakers. • Plug the microphone securely into the jack.</td>
</tr>
<tr>
<td>Error. Please check noise.</td>
<td>The surrounding noise level is too high.</td>
<td>• Stop your car in a place that is quiet, and switch off the engine, air conditioner and heater. • Set the microphone correctly.</td>
</tr>
</tbody>
</table>

Understanding messages

Screen image may appear reversed.

Pioneer recommends the use of a camera which outputs mirror-reversed images. Otherwise, the screen image will appear reversed.
### Indicator list

**Area 1**

- ![Bluetooth icon](bluetooth.png) Indicates that a Bluetooth telephone is connected.
- ![Dolby D icon](dolby_d.png) Indicates that the digital format is Dolby Digital.
- ![MPEG-A icon](mpeg-a.png) Indicates that the digital format is MPEG Audio.
- ![LPCM icon](lpcm.png) Indicates that the digital format is Linear PCM.
- ![48k16 icon](48k16.png) Indicates the sampling frequency.
- ![DTS icon](dts.png) Indicates that the digital format is DTS.
- ![1 ch icon](1ch.png) Indicates the audio channel.
- ![1+1 ch icon](1+1ch.png)
- ![2 ch icon](2ch.png)
- ![Mch icon](mch.png)
- ![PBC On icon](pbc_on.png) Indicates that a disc with PBC On is being played.

**Area 2**

- ![Battery icon](battery.png) Indicates the battery strength of the cellular phone.
  - The level shown on the indicator may differ from the actual battery strength.
  - If the battery strength is not available, nothing is displayed in the battery strength indicator area.

**Area 3**

- ![Cell icon](cell.png) Indicates that a disc with PBC On is being played.
- ![Call icon](call.png) Indicates that a cellular phone is connected.
- ![Incoming call icon](incoming_call.png) Indicates that an incoming call has been received and has not been checked yet.
- Not displayed for calls made when your cellular phone is disconnected from this unit.

- ![Signal strength icon](signal_strength.png) Indicates the signal strength of the cellular phone.
- ![Auto EQ icon](auto_eq.png) Indicates that Auto EQ is on.
- ![Radio signal icon](radio_signal.png) Shows when radio signal is received.
- ![HD Radio icon](hd_radio.png) Shows when HD Radio signal is received.
- ![HD Radio station information icon](hd_radio_station_info.png) Shows when HD Radio station information is received.
- ![Downloadable song information icon](downloadable_song_info.png) Shows when downloadable song information (tag) from a radio station is received.
- ![Song information (tag) being saved icon](song_info_saved.png) Shows when song information (tag) is being saved to this unit.
- ![Song information (tag) saved icon](song_info_saved.png) Shows when this unit has the song information (tag).
- ![Language icon](language.png) Shows which audio language has been selected.

### DEMO

Indicates that the feature demo is on.
Handling guidelines

Discs and player

Use only discs featuring any of the following logos.

Use 12 cm discs. Do not use 8 cm discs or an adapter for 8 cm discs.

Use only conventional, fully circular discs. Do not use shaped discs.

Do not insert anything other than a DVD R/RW or CD R/RW into the disc loading slot.

Do not use cracked, chipped, warped, or otherwise damaged discs as they may damage the player.

Unfinalized CD R/RW discs cannot be played back.

Do not touch the recorded surface of the discs.

Store discs in their cases when not in use.

To clean a disc, wipe the disc with a soft cloth outward from the center.

Condensation may temporarily impair the player’s performance. Let it rest for about one hour to adjust to a warmer temperature. Also, wipe any damp discs off with a soft cloth.

Playback of discs may not be possible because of disc characteristics, disc format, recorded application, playback environment, storage conditions, and so on.

Road shocks may interrupt disc playback.

Read the precautions for discs before using them.

Certain functions may not be available for some DVD video discs.

It may not be possible to play back some DVD video discs.

It is not possible to play back DVD RAM discs.

This unit is not compatible with discs recorded in AVCHD (Advanced Video Codec High Definition) format. Do not insert AVCHD discs as you may not be able to eject the disc.

When using discs that can be printed on label surfaces, check the instructions and the warnings of the discs. Depending on the discs, inserting and ejecting may not be possible. Using such discs may result in damage to this equipment.

Do not attach commercially available labels or other materials to the discs.

! The discs may warp making the disc unplayable.

! The labels may come off during playback and prevent ejection of the discs, which may result in damage to the equipment.

External storage device (USB)

Depending on the external storage device (USB), the following problems may occur.

- Operations may vary.
- The storage device may not be recognized.
- Files may not be played back properly.

USB storage device

Connections via USB hub are not supported.

Do not connect anything other than a USB storage device.

Firmly secure the USB storage device when driving. Do not let the USB storage device fall onto the floor, where it may become jammed under the brake or accelerator pedal.

Depending on the USB storage device, the device may cause noise to occur in the radio.

Copyright protected files that are stored in the USB devices cannot be played back.

You cannot connect a USB portable audio player/USB memory to this unit via USB hub.

Partitioned USB memory is not compatible with this unit.
Depending on the kind of USB portable audio player/USB memory you use, the device may not be recognized or audio files may not be played back properly.

Do not leave the USB portable audio player/USB memory in direct sunlight for extended amounts of time. Doing so may cause the device to malfunction from the extreme rise in temperature.

iPod

To ensure proper operation, connect the dock connector cable from the iPod directly to this unit.

Firmly secure the iPod when driving. Do not let the iPod fall onto the floor, where it may become jammed under the brake or accelerator pedal.

About iPod settings
- When an iPod is connected, this unit changes the EQ (equalizer) setting of the iPod to off in order to optimize the acoustics. When you disconnect the iPod, the EQ returns to the original setting.
- You cannot set Repeat to off on the iPod when using this unit. Repeat is automatically changed to All when the iPod is connected to this unit.

Incompatible text saved on the iPod will not be displayed by the unit.

DVD-R/RW discs

Unfinalized DVD R/RW discs which have been recorded in the Video format (video mode) cannot be played back.

Playback of DVD R/RW discs may not be possible, due to disc characteristics, scratches or dirt on the disc, or dirt, condensation, etc. on the lens of this unit.

Depending on the application settings and the environment, playback of discs recorded on a personal computer may not be possible. (For details, contact the manufacturer of the application.)

Playback of CD R/RW discs may become impossible in case of direct exposure to sunlight, high temperatures, or the storage conditions in the vehicle.

Titles and other text information recorded on a CD R/RW disc may not be displayed by this unit (in the case of audio data (CD DA)).

DualDiscs

DualDiscs are two sided discs that have a recordable CD for audio on one side and a recordable DVD for video on the other.

Playback of the DVD side is possible with this unit. However, since the CD side of DualDiscs is not physically compatible with the general CD standard, it may not be possible to play the CD side with this unit.

Frequent loading and ejecting of a DualDisc may result in scratches on the disc. Serious scratches can lead to playback problems on this unit. In some cases, a DualDisc may become stuck in the disc loading slot and will not eject. To prevent this, we recommend you refrain from using DualDisc with this unit.

Please refer to the information from the disc manufacturer for more detailed information about DualDiscs.

JPEG picture files

JPEG is short for Joint Photographic Experts Group and refers to a still image compression technology standard.

Files are compatible with Baseline JPEG and EXIF 2.1 still images up to a resolution of 8192 × 7680. (EXIF format is used most commonly with digital still cameras.)

Playback of EXIF format files that were processed by a personal computer may not be possible.

There is no progressive JPEG compatibility.

DivX video files

Depending on the composition of the file information, such as the number of audio streams or file size, there may be a slight delay when playing back discs.

Some special operations may be prohibited due to the composition of the DivX files.
Only DivX files downloaded from a DivX partner site are guaranteed for proper operation. Unauthorized DivX files may not operate properly.

DRM rental files cannot be operated until playback is started.

Recommended file size: 2 GB or less with a transmission rate of 2 Mbps or less.

The ID code of this unit must be registered to a DivX VOD provider in order to playback DivX VOD files. For information on ID codes, refer to Displaying the DivX VOD registration code on page 63.

For more details about DivX, visit the following site: http://www.divx.com/

MPEG-1/MPEG-2/MPEG-4 video files

Elapsed playback time may not be displayed correctly.

Important

- When naming a JPEG image file, add the corresponding file name extension (.jpg, .jpeg, .jpe or .jfif).
- This unit plays back files with these file name extensions (.jpg, .jpeg, .jpe or .jfif) as a JPEG image file. To prevent malfunctions, do not use these extensions for files other than JPEG image files.

Compressed file compatibility (disc, USB)

WMA

File extension: .wma

Bit rate: 5 kbps to 320 kbps (CBR), VBR

Sampling frequency: 8 kHz to 48 kHz

Windows Media Audio Professional, Lossless, Voice/DRM Stream/Stream with video: Not compatible

MP3

File extension: .mp3

Bit rate: 8 kbps to 320 kbps (CBR), VBR

Sampling frequency: 8 kHz to 48 kHz (32 kHz, 44.1 kHz, 48 kHz for emphasis)

Compatible ID3 tag version: 1.0, 1.1, 2.2, 2.3 (ID3 tag Version 2.x is given priority over Version 1.x.)

M3u playlist: Not compatible

MP3i (MP3 interactive), mp3 PRO: Not compatible

AAC

Compatible format: AAC encoded by iTunes

File extension: .m4a

Sampling frequency: 8 kHz to 44.1 kHz

Bit rate: 8 kbps to 320 kbps

Apple Lossless: Not compatible

AAC file bought from the iTunes Store (.m4p file extension): Not compatible

DivX compatibility

Compatible format: DivX video format implemented in relation to DivX standards

File extensions: .avi or .divx

DivX Ultra format: Not compatible

DivX HD format: Not compatible

DivX files without video data: Not compatible

DivX plus: Not compatible

Compatible audio codec: MP2, MP3, Dolby Digital

LPCM: Not compatible

Bit rate: 8 kbps to 320 kbps (CBR), VBR

Sampling frequency: 8 kHz to 48 kHz

Compatible external subtitle file extension: .srt

MPEG-1/MPEG-2/MPEG-4 video

File extensions: .wpg or .mpeg (MPEG 1/MPEG 2), .avi (MPEG 4)

Compatible audio codec: MP2 (MPEG 1/MPEG 2), MP2, MP3, Dolby Digital (MPEG 4)

H.264 (MPEG 4AVC): Not compatible

LPCM: Not compatible
Additional information

Bit rate: 8 kbps to 320 kbps (CBR), VBR
Sampling frequency: 8 kHz to 48 kHz

Supplemental information

Some characters in a file name (including the file extension) or a folder name may not be displayed.

This unit may not operate correctly depending on the application used to encode WMA files.

There may be a slight delay at the start of playback of audio files embedded with image data or audio files stored on a USB storage device that has numerous folder hierarchies.

Disc

Playable folders: up to 700
Playable files: up to 999 for CD R/RW
Playable files: up to 3 500 for DVD R/RW
File system: ISO 9660 Level 1 and 2, Romeo, Joliet, UDF 1.02 (DVD R/RW)
Multi session playback: Compatible
Packet write data transfer: Not compatible
Regardless of the length of blank sections between the songs from the original recording, compressed audio discs play with a short pause between songs.

External storage device (USB)

Playable folders: up to 6 000 (up to 700 for DivX/MPEG 1/MPEG 2/MPEG 4)
Playable files: up to 65 535, up to 1 000 for one folder
Playback of copyright protected files: Not compatible
Partitioned external storage device (USB): Only the first playable partition can be played.

There is no compatibility for Multi Media Cards (MMC).

iPod compatibility

This unit supports only the following iPod models. Supported iPod software versions are shown below. Older versions may not be supported.

Made for

- iPod touch 4th generation (software version 4.3.1)
- iPod touch 3rd generation (software version 4.1)
- iPod touch 2nd generation (software version 4.2.1)
- iPod touch 1st generation (software version 3.1.3)
- iPod classic 160GB (software version 2.0.4)
- iPod classic 120GB (software version 2.0.1)
- iPod classic (software version 1.1.2)
- iPod with video (software version 1.3)
- iPod nano 6th generation (software version 1.0)
- iPod nano 5th generation (software version 1.0.1)
- iPod nano 4th generation (software version 1.0.4)
- iPod nano 3rd generation (software version 1.1.3)
- iPod nano 2nd generation (software version 1.1.3)
- iPod nano 1st generation (software version 1.3.1)
- iPhone 4 (software version 4.3.3)
- iPhone 3GS (software version 4.1)
- iPhone 3G (software version 4.2.1)
- iPhone (software version 3.1.3)

Depending on the generation or version of the iPod, some functions may not be available.

Operations may vary depending on the software version of iPod.

When using an iPod, an iPod Dock Connector to USB Cable is required.

When you use Pioneer CD IU51V/CD IU201V interface cable, consult your dealer for details.

About the file/format compatibility, refer to the iPod manuals.

Audiobook, Podcast: Compatible

CAUTION

- Pioneer accepts no responsibility for data lost on the USB memory/USB portable audio player even if that data is lost while using this unit.

- Pioneer cannot guarantee compatibility with all USB mass storage devices and assumes no responsibility for any loss of data on media players, smart phones, or other devices while using this product.

- Do not leave the discs/external storage device (USB) or iPod in places with high temperatures.
Using the display correctly

CAUTION

- If liquid or foreign matter should get inside this unit, turn off the power immediately and consult your dealer or the nearest authorized PIONEER Service Station. Do not use the unit in this condition because doing so may result in fire, electric shock, or other failure.
- If you notice smoke, a strange noise or smell, or any other abnormal signs from the display, turn off the power immediately and consult your dealer or the nearest authorized PIONEER Service Station. Using this unit in this condition may result in permanent damage to the system.
- Do not disassemble or modify this unit, as there are high voltage components inside which may cause electric shock. Be sure to consult your dealer or the nearest authorized PIONEER Service Station for internal inspection, adjustments, or repairs.

Handling the display

- Never touch the screen with anything besides your finger when operating the touch panel function. The screen can scratch easily.
- When the display is subjected to direct sunlight for a long period of time, it will become very hot resulting in possible damage to the LCD screen. You should avoid exposing the display unit to direct sunlight as much as possible.
- The display should be used within the temperature range of 10 °C to +60 °C (14 °F to 140 °F). At temperatures higher or lower than this operating temperature range, the display may not operate normally.
- The LCD screen is exposed in order to increase its visibility within the vehicle. Do not press it strongly on it as this may damage it.
- Do not push the LCD screen forcefully as this may scratch it.
**Liquid crystal display (LCD) screen**

- Heat from the heater may damage the LCD screen, and cool air from the cooler may cause moisture to form inside the display resulting in possible damage.
- Small black dots or white dots (bright dots) may appear on the LCD screen. These are due to the characteristics of the LCD screen and do not indicate a malfunction.
- When using a cellular phone, keep the antenna away from the display to prevent disruption of the video image by the appearance of spots, colored stripes, etc.

**LED (light-emitting diode) backlight**

- At low temperatures, using the LED backlight may increase image lag and degrade the image quality due to the characteristics of the LCD screen. Image quality will improve with an increase in temperature.
- To protect the LED backlight, the display will darken in the following environments:
  - In the direct sunlight
  - Near the heater vent
- The product lifetime of the LED backlight is more than 10,000 hours. However, it may decrease if used in high temperatures.
- If the LED backlight reaches the end of its product lifetime, the screen will become dark and the image will no longer be projected. In such cases, please consult your dealer or the nearest authorized PIONEER Service Station.

**Keeping the display in good condition**

- When removing dust from the screen or cleaning the display, first turn the system power off, then wipe with a soft dry cloth.
- When wiping the screen, take care not to scratch the surface. Do not use harsh or abrasive chemical cleaners.

**Bluetooth profiles**

In order to use Bluetooth wireless technology, devices must be able to interpret certain profiles. This unit is compatible with the following profiles.

- GAP (Generic Access Profile)
- SDP (Service Discovery Protocol)
- OPP (Object Push Profile)
- HFP (Hands Free Profile)
- HSP (Head Set Profile)
- PBAP (Phone Book Access Profile)
- A2DP (Advanced Audio Distribution Profile)
- AVRCP (Audio/Video Remote Control Profile) 1.3

**Copyright and trademark**

This item incorporates copy protection technology that is protected by U.S. patents and other intellectual property rights of Rovi Corporation. Reverse engineering and disassembly are prohibited.

**Bluetooth**

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by PIONEER CORPORATION is under license. Other trademarks and trade names are those of their respective owners.

- Bluetooth is a short range wireless radio connectivity technology that is developed as a cable replacement for mobile phones, handheld PCs and other devices. Bluetooth operates in 2.4 GHz frequency range and transmits voice and data at speeds up to 1 megabit per second. Bluetooth was launched by a special interest group (SIG) that comprises of Ericsson Inc., Intel Corp., Nokia Corp., Toshiba and IBM in 1998, and it is currently developed by nearly 2000 companies worldwide.
**DVD video**

DVD is a trademark of DVD Format/Logo Licensing Corporation.

**iTunes**

Apple and iTunes are trademarks of Apple Inc., registered in the U.S. and other countries.

**MP3**

Supply of this product only conveys a license for private, non-commercial use and does not convey a license nor imply any right to use this product in any commercial (i.e. revenue generating) real time broadcasting (terrestrial, satellite, cable and/or any other media), broadcasting/streaming via internet, intranets and/or other networks or in other electronic content distribution systems, such as pay audio or audio on demand applications. An independent license for such use is required. For details, please visit http://www.mp3licensing.com.

**WMA**

Windows Media is either a registered trademark or trademark of Microsoft Corporation in the United States and/or other countries. This product includes technology owned by Microsoft Corporation and cannot be used or distributed without a license from Microsoft Licensing, Inc.

**iPod & iPhone**

iPhone, iPod, iPod classic, iPod nano, and iPod touch are trademarks of Apple Inc., registered in the U.S. and other countries.

“Made for iPod” and “Made for iPhone” mean that an electronic accessory has been designed to connect specifically to iPod or iPhone, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod or iPhone may affect wireless performance.

**Dolby Digital**

Manufactured under license from Dolby Laboratories. “Dolby” and the double D symbol are trademarks of Dolby Laboratories.

**DivX**

DivX®, DivX Certified® and associated logos are trademarks of DivX, Inc. and are used under license.

**ABOUT DIVX VIDEO**: DivX® is a digital video format created by DivX, Inc. This is an official DivX Certified® device that plays DivX video. Visit divx.com for more information and software tools to convert your files into DivX video.

**ABOUT DIVX VIDEO-ON-DEMAND**: This DivX Certified® device must be registered in order to play purchased DivX Video on Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in Menu operations. Go to vod.divx.com for more information on how to complete your registration.

**About the SAT RADIO READY mark**

The SAT RADIO READY mark indicates that the Satellite Radio Tuner for Pioneer (i.e., XM tuner and Sirius satellite tuner which are sold separately) can be controlled by this unit. Please inquire to your dealer or nearest authorized Pioneer service station regarding the satellite radio tuner that can be connected to this unit. For satellite radio tuner operation, please refer to the satellite radio tuner owner’s manual.
Additional information

- Everything worth listening to is on SiriusXM, getting over 130 channels, including the most commercial free music, plus the best sports, news, talk and entertainment. A SiriusXM Vehicle Tuner and Subscription are required. For more information, visit “http://www.siriusxm.com”
- Sirius, XM, SAT Radio Ready and all related logos and marks are trademarks of Sirius XM Radio, Inc. All rights reserved.

**HD Radio™ Technology**
- AVH P4400BH and AVH P3400BH
  HD Radio Technology manufactured under license from iBiquity Digital Corporation. U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp.

**Pandora**
Pandora is a registered trademark of Pandora Media, Inc.

## Specifications

### General

- **Power source**: 14.4 V DC (10.8 V to 15.1 V allowable)
- **Grounding system**: Negative type
- **Maximum current consumption**: 10.0 A
- **Dimensions (W × H × D):**
  - **Chassis**: 178 mm × 100 mm × 165 mm (7 in. × 3 7/8 in. × 6 1/2 in.)
  - **Nose**: 171 mm × 97 mm × 18 mm (6 3/4 in. × 3 7/8 in. × 3/4 in.)
  - **AVH-P4400BH**
  - **Nose**: 171 mm × 97 mm × 9 mm (6 3/4 in. × 3 7/8 in. × 3/8 in.)
  - **AVH-P3400BH/AVH-P2400BT/AVH-P1400DVD**
- **Weight**
  - **AVH-P4400BH**: 2.0 kg (4.4 lbs)
  - **AVH-P3400BH/AVH-P2400BT/AVH-P1400DVD**: 1.7 kg (3.7 lbs)

### Display

- **Screen size/aspect ratio**: 6.95 inch wide/16:9 (effective display area: 156.4 mm × 81.7 mm)
- **AVH-P4400BH**
- **Screen size/aspect ratio**: 5.8 inch wide/16:9 (effective display area: 128.4 mm × 70.9 mm)
- **AVH-P3400BH/AVH-P2400BT/AVH-P1400DVD**
- **Pixels**: 345 600 (1 440 × 240)
- **Display method**: TFT active matrix, driving type
- **Color system**: NTSC/PAL/PAL M/PAL N/SECAM compatible
- **Durable temperature range (power off)**: 20 °C to +80 °C

### Audio

- **Maximum power output**: 50 W × 4
  - 70 W × 1/2 Ω (for subwoofer)
- **Continuous power output**: 22 W × 4 (50 Hz to 15000 Hz, 5 % THD, 4 Ω load, both channels driven)
- **Load impedance**: 4 Ω (4 Ω to 8 Ω (2 Ω for 1 ch) allowable)

### DVD Player

- **System**: DVD video, Video CD, CD, WMA, MP3, AAC, DivX, JPEG, MPEG system
- **Usable discs**: DVD video, Video CD, CD, CD R/RW, DVD R/RW/R DL
- **Region number**: 1
- **Frequency response**: 5 Hz to 44 000 Hz (with DVD, at sampling frequency 96 kHz)
- **Signal to noise ratio**: 96 dB (1 kHz) (IHF A network) (RCA level)
- **AVH-P4400BH**
- **Signal to noise ratio**: 91 dB (1 kHz) (IHF A network) (RCA level)
- **AVH-P3400BH/AVH-P2400BT/AVH-P1400DVD**
- **Output level**: Video: 1.0 Vp p/75 Ω (±0.2 V)
- **Number of channels**: 2 (stereo)
- **MP3 decoding format**: MPEG 1 & 2 Audio Layer 3
- **WMA decoding format**: Ver. 7, 7.1, 8, 9, 10, 11, 12 (2 ch audio) (Windows Media Player)
- **AAC decoding format**: MPEG 4 AAC (iTunes encoded only) (.m4a) (Ver. 9.0.3 and earlier)
- **DivX decoding format**: Home Theater Ver. 3, 4, 5.2, 6 (.avi, .divx)
- **MPEG video decoding format**: MPEG1, MPEG2, MPEG4

### Additional Information

- **Preout maximum output level**
  - **AVH-P4400BH**: 4.0 V
  - **AVH-P3400BH/AVH-P2400BT/AVH-P1400DVD**: 2.0 V
- **HPF**
  - **Frequency**: 50 Hz/63 Hz/80 Hz/100 Hz/125 Hz
  - **Slope**: 12 dB/oct
- **Subwoofer (mono)**
  - **Frequency**: 50 Hz/63 Hz/80 Hz/100 Hz/125 Hz
  - **Gain**: 6 dB to 24 dB
  - **Phase**: Normal/Reverse
- **Bass boost**
  - **Gain**: +12 dB to 0 dB

---

**Appendix**

**Additional information**
USB
USB standard specification
.................................................... USB 1.1, USB 2.0 full speed
Maximum current supply .... 1.0 A
USB Class ...................... MSC (Mass Storage Class)
File system ...................... FAT16, FAT32
MP3 decoding format ........ MPEG 1 & 2 Audio Layer 3
WMA decoding format ........ Ver. 7, 7.1, 8, 9, 10, 11, 12
(2 ch audio)
(Windows Media Player)
AAC decoding format ........ MPEG 4 AAC (iTunes encoded only)
(Ver. 9.0.3 and earlier)
DivX decoding format ........ Home Theater Ver. 3, 4, 5.2,
6 (.avi, .divx)
MPEG video decoding format
.................................................... MPEG1, MPEG2, MPEG4

FM tuner
Frequency range .............. 87.9 MHz to 107.9 MHz
Usable sensitivity ............ 9 dBf (0.8 μV/75 Ω mono,
S/N: 30 dB)
Signal to noise ratio ........ 72 dB (IHF A network)

AM tuner
Frequency range .............. 530 kHz to 1 710 kHz
(10 kHz)
Usable sensitivity ............ 25 μV (S/N: 20 dB)
Signal to noise ratio ........ 62 dB (IHF A network)

Bluetooth
(AVH-P4400BH/AVH-P3400BH/AVH-P2400BT)
Version ......................... Bluetooth 3.0 certified
Output power ................. +4 dBm Maximum
(Power class 2)

CEA2006 Specifications

Power output .................. 14 W RMS × 4 Channels
(4 Ω and ≤ 1 % THD+N)
S/N ratio ....................... 91 dBA (reference: 1 W into
4 Ω)

Note
Specifications and the design are subject to modifications without notice.
