The BR-360 operates all Pioneer Voyager BD-V1000BD-V3000 series Digital Home Terminals, as well as some home terminal models from other manufacturers. You need the BR-360 to experience all the viewing options Voyager offers, because you can't access all Voyager functions from the Home Terminal front panel keys or from other brand remotes.

The BR-360 also supports basic remote control functions for nearly all TVs, VCRs, stereo receivers/amplifiers, and some DVD players. You don't have to remember to switch “modes” with the BR-360 — each key always transmits to one device.

This instruction sheet contains setup instructions and device codes. Keep this sheet in case you need to set up the BR-360 remote again in the future.

### Batteries

Two AA batteries power the BR-360. To install batteries:

1. Push the battery cover tab toward the center, and lift the cover off.
2. Insert two fresh AA batteries, in the directions shown inside the battery compartment.
3. Replace the battery cover.

### BR-360 keypad

The BR-360 operates your Voyager Home Terminal, TV, VCR, and audio equipment (stereo receiver/amplifier). Certain keys only operate certain devices. Keys that work together are clumped to make them easier to locate.

Each key is described below. These are basic descriptions only. Refer to the manual(s) that came with your Home Terminal to learn how to use the keys.

The device(s) in parentheses are those the key will operate. For example, note that item 18 below (CH –/+) will change the channel on the Voyager terminal only, not on the TV or the VCR. Before you can use the BR-360 to operate your TV and other equipment, see Programming your BR-360 below to learn how to set up the BR-360.

#### Indicator

1. Indicator light
   - Blinks when the remote transmits a command. Also helps you during setup.

#### Power control

1. AUD, TV, CBL, VCR: Device power keys
   - (Audio, TV, Voyager, VCR/DVD player) Turn power on of these devices off/on.

#### On-screen operations

1. MENU: Main menu access key
   - Displays the menu of Voyager Features.
2. INFO: Information key
   - Displays information about the program currently playing or highlighted in the program guide.
3. GUIDE: Interactive program guide key
   - (Voyager) Displays the program guide listings.
   - [ , , , , , ] Display navigation keys
     - (Voyager) Highlight an item from the on-screen choices.
4. SELECT: Display action key
   - (Voyager) Activates the highlighted item.
5. PAGE +/- Page rocker key
   - (Voyager) Accesses pages above or below the information currently displayed.
6. SETTINGS: Voyager settings menu key
   - (Voyager) Displays the menu of preferences for your Voyager home terminal.

#### Exit key

1. Exit key
   - (Voyager) Hides all on-screen graphics and returns you to regular TV viewing.

#### Help

1. Help access key
   - (Voyager) Displays helpful information about Voyager operation.
2. A, B, C: Function keys
   - (Voyager) Make direct selections from on-screen menus.

#### DVR +/- Program guide day skip keys

1. DVR +/-
   - (Program guide day skip keys (Voyager) Skip forward or backward a whole day in the program guide.

#### Channel/Volume control

1. FAQ: Favorite channel recall key
   - (Voyager) Tunes channels previously stored in the Voyager terminal’s favorite channel memory.
2. LAST: Last channel recall key
   - (Voyager) Accesses the previously tuned channel.
3. MUTE: Mute key
   - (Audio, TV, Voyager) Silences the audio. Press to activate. Press this key again to restore sound to the previous level.
4. VOL +/- Volume rocker key
   - (Audio, TV, Voyager) Raises or lowers the sound level.
5. CH +/-: Channel rocker key
   - (Voyager) Selects the next higher or lower channel.

#### Numeric keys

1. 0 - 9: Numeric keys
   - (Voyager) Directly tunes channels by number. Also make numeric entries in on-screen menus.
2. ENTER: Enter key
   - (Voyager) Immediately tunes the channel number you’ve just entered.

#### BR-360 programming

1. SETUP: BR-360 setup key
   - (Voyager) Starts programming your BR-360.
2. VCR/DVD/VOD operations
   - (VCR, AUD, TV, DVD): (VCR/DVD/BR-360) Transport keys
     - (VCR, AUD, TV, DVD): (Voyager) Activate play ( ), rewinds ( ), fast-forward ( ), stops ( ), and pauses ( ) functions of your VCR or DVD player. Take the same actions on Video-On-Demand programming through the Voyager terminal. Determined by position of VCR/ VOD toggle switch ( ).
   - (VCR) Record key
     - (VCR) Starts recording on your VCR.
   - TV/VCR: VCR/VOD toggle switch
     - (VCR) Selects the device to which the BR-360 transports transport keys ( ) to transmit. Slide to “VCR” to send transportphase commands to your VCR or DVD player. Slide to “VOD” to pause, scan forward/backward, stop, and resume play of a current Video-On-Demand program.

#### Setup for Voyager Home Terminal

No setup is required. The BR-360 is ready to run the Voyager Home Terminal.

#### Setup for TV operation

Find your TV brand and its three-digit codes under TV setup options on the back of this sheet. If your brand is not listed, go to Searching the code library.

1. Turn on the TV.
2. Press and hold SETUP. The indicator light comes on. Keep holding until the light goes off.
3. Enter the setup code.
4. Press TV. The indicator light blinks once.
5. Enter the three-digit code. Indicator light blinks twice to confirm acceptance.
6. Point the BR-360 toward the TV.
7. Press TV. Did the TV turn on?

#### No:
   - Setup complete. Write down the three-digit setup code below for future reference.
   - Try setup again starting from step 2, using the next code listed for your brand. If you’ve tried all codes for your brand without success, try the method under Searching the code library.

#### Yes:
   - Setup complete. Write down the three-digit setup code below for future reference.
   - Try setup again starting from step 2, using the next code listed for your brand. If you’ve tried all codes for your brand without success, try the method under Searching the code library.

#### My TV setup code is:

1. Press and hold SETUP. The indicator light comes on. Keep holding until the light goes off.
2. Release SETUP. The indicator light blinks once.
3. Press VCR.
4. Enter the three-digit code. Indicator light blinks twice to confirm acceptance.
5. Press BR-360 toward the VCR.
6. Press VCR. Did the VCR turn off?

#### No:
   - Setup complete. Write down the three-digit setup code below for future reference.
   - Try setup again starting from step 2, using the next code listed for your brand. If you’ve tried all codes for your brand without success, try the method under Searching the code library.

#### Yes:
   - Setup complete. Write down the three-digit setup code below for future reference.
   - Try setup again starting from step 2, using the next code listed for your brand. If you’ve tried all codes for your brand without success, try the method under Searching the code library.

#### My VCR or DVD player setup code is: 

#### Setup for stereo receiver/amplifier operation

Find the audio equipment brand and its three-digit codes under Stereo receiver/amplifier setup options on the back of this sheet. If your brand is not listed, go to Searching the code library.

1. Turn your receiver (or amplifier) on.
2. Press and hold SETUP. The indicator light comes on. Keep holding until the light goes off.
3. Enter the setup code.
4. Press TV. The indicator light blinks once.
5. Enter the three-digit code. Indicator light blinks twice to confirm acceptance.
6. Point the BR-360 toward the TV.
7. Press TV. Did the TV turn off?

#### No:
   - Setup complete. Write down the three-digit setup code below for future reference.
   - Press AUD.

#### Yes:
   - Setup complete. Write down the three-digit setup code below for future reference.
   - Press BR-360 toward the receiver.
   - Press AUD. Did the receiver turn on?

#### No:
   - Setup complete. Write down the three-digit setup code below for future reference.
   - Try setup again starting from step 2, using the next code listed for your brand. If you’ve tried all codes for your brand without success, try the method under Searching the code library.

#### Yes:
   - Setup complete. Write down the three-digit setup code below for future reference.
   - Press BR-360 toward the receiver.
   - Press AUD. Did the receiver turn on?

#### No:
   - Setup complete. Write down the three-digit setup code below for future reference.
   - Try setup again starting from step 2, using the next code listed for your brand. If you’ve tried all codes for your brand without success, try the method under Searching the code library. This instruction sheet contains setup instructions for your DVD player and all three-digit codes under DVD player setup options on the back of this sheet. If your brand is not listed, go to Searching the code library.

#### No:
   - Setup complete. Write down the three-digit setup code below for future reference.
   - Try setup again starting from step 2, using the next code listed for your brand. If you’ve tried all codes for your brand without success, try the method under Searching the code library.

#### Yes:
   - Setup complete. Write down the three-digit setup code below for future reference.
   - Try setup again starting from step 2, using the next code listed for your brand. If you’ve tried all codes for your brand without success, try the method under Searching the code library.

#### My DVD player setup code is:
Searching the code library

If none of the codes on this sheet seem to work, or your brand is not listed, you can search the BRA-360 code library for one that works. The BRA-360 automatically selects the proper code for your TV, VCR, or receiver/amplifier. Make sure the equipment is turned on before you program the BRA-360.

To search the library of TV codes:

1. Turn on the TV.
2. Press and hold SETUP. The indicator light comes on. Keep holding until the light goes off.
3. Release SETUP. The indicator light blinks once.
4. Press TV.

Point the remote control at your TV and press SELECT. The indicator light stays on. Do this several times until the light goes off. Repeat until the Setup is complete. To make sure programming was done correctly, aim the remote at the TV and press TV. The TV should turn back on.

Note: Now you are free to use the codes in the library. Pressing any button will display the code for that button. Make sure the batteries are inserted correctly.

To get the VCR/EVD or stereo receiver/amplifier code:

Follow the steps below, but substitute “VCR” or “AUD” for “TV,” for each key transceiver code for future reference, under Setup for VCR or DVD player setup, or Setup for stereo receiver/amplifier operation.

Setup up volume control

The BRA-360 comes to you ready to control volume and mute functions through the Voyager Home Terminal. You can set up the BRA-360 to do these through the TV or stereo receiver/amplifier instead.

Select SETUP, and press and hold SETUP. The indicator light comes on. Keep holding until the light goes off.

Release SETUP. The indicator light blinks once. Press SETUP to switch volume control to the TV, the receiver/amplifier, or back to the Voyager Home Terminal.

1. Press and hold SETUP. The indicator light comes on. Keep holding until the light goes off.
2. Release SETUP. The indicator light blinks once.
3. Press the key for the device on which you want to control volume:
   - AUD: receiver/amplifier
   - TV: Voyager Home Terminal

TV set up

The BRA-360 volume and mute now controls volume on the new device.

To make sure programming was done correctly, aim the remote at the device and press VOL+ or VOL-. The volume setting on the device should change.

Helpful hints

- Follow the steps above, but substitute “VCR” or “AUD” for “TV” in each step.

Getting your code

If you've used the searching code library method to program your remote and you've misplaced your setup code, you can find it out by using the direct setup method over.

1. Try the following code list for the device.
2. Try the search method.

Many devices use similar remote control codes. You may have selected a similar code for which only common commands work. Select another code from the list or, start checking the code library method over. Repeat the process until you find the correct code that operates all applicable functions for your equipment.

Note: Remember to remove any batteries that limit to only one device. See the BRA-360 keypad section.

Operation

If the red indicator light does not blink when you press a key, or the operation is intermittent:

- Make sure the batteries are inserted correctly.
- Replace both batteries with two new AA batteries.
- Always replace both batteries at the same time.

Stereo receiver/amplifier setup

If none of the codes on the sheet seem to work, or your brand is not listed, you can search the code library for one that works. The BRA-360 automatically selects the proper code for your TV, VCR, or receiver/amplifier. Make sure the equipment is turned on before you program the BRA-360.

To search the TV code:

1. Turn on the TV.
2. Press and hold SETUP. The indicator light comes on. Keep holding until the light goes off.
3. Release SETUP. The indicator light blinks once.
4. Press TV.

Point the remote control at your TV and press SELECT. The indicator light stays on. Do this several times until the light goes off. Repeat until the Setup is complete. To make sure programming was done correctly, aim the remote at the TV and press TV. The TV should turn back on.

Note: Now you are free to use the codes in the library. Pressing any button will display the code for that button. Make sure the batteries are inserted correctly.

To get the VCR/EVD or stereo receiver/amplifier code:

Follow the steps below, but substitute “VCR” or “AUD” for “TV,” for each key transceiver code for future reference, under Setup for VCR or DVD player setup, or Setup for stereo receiver/amplifier operation.

Stereo receiver/amplifier setup

If none of the codes on the sheet seem to work, or your brand is not listed, you can search the code library for one that works. The BRA-360 automatically selects the proper code for your TV, VCR, or receiver/amplifier. Make sure the equipment is turned on before you program the BRA-360.

To search the TV code:

1. Turn on the TV.
2. Press and hold SETUP. The indicator light comes on. Keep holding until the light goes off.
3. Release SETUP. The indicator light blinks once.
4. Press TV.

Point the remote control at your TV and press SELECT. The indicator light stays on. Do this several times until the light goes off. Repeat until the Setup is complete. To make sure programming was done correctly, aim the remote at the TV and press TV. The TV should turn back on.

Note: Now you are free to use the codes in the library. Pressing any button will display the code for that button. Make sure the batteries are inserted correctly.

To get the VCR/EVD or stereo receiver/amplifier code:

Follow the steps below, but substitute “VCR” or “AUD” for “TV,” for each key transceiver code for future reference, under Setup for VCR or DVD player setup, or Setup for stereo receiver/amplifier operation.

Stereo receiver/amplifier setup

If none of the codes on the sheet seem to work, or your brand is not listed, you can search the code library for one that works. The BRA-360 automatically selects the proper code for your TV, VCR, or receiver/amplifier. Make sure the equipment is turned on before you program the BRA-360.

To search the TV code:

1. Turn on the TV.
2. Press and hold SETUP. The indicator light comes on. Keep holding until the light goes off.
3. Release SETUP. The indicator light blinks once.
4. Press TV.

Point the remote control at your TV and press SELECT. The indicator light stays on. Do this several times until the light goes off. Repeat until the Setup is complete. To make sure programming was done correctly, aim the remote at the TV and press TV. The TV should turn back on.

Note: Now you are free to use the codes in the library. Pressing any button will display the code for that button. Make sure the batteries are inserted correctly.

To get the VCR/EVD or stereo receiver/amplifier code:

Follow the steps below, but substitute “VCR” or “AUD” for “TV,” for each key transceiver code for future reference, under Setup for VCR or DVD player setup, or Setup for stereo receiver/amplifier operation.
