

Scott's best solid-state components! Build them yourself and save \$160

Now you can enjoy the world's most advanced solid-state engineering, and save up to \$160, when you build these Scott solid-state kits. Scott kits give you the same features, performance, quality, and long-lived reliability you've come to expect from their factory-wired counterparts . . . the only difference is, you build them.

And building them is easy . . . Scott's exclusive kit construc-

tion book with full-size, full-color step-by-step diagrams reduces the possibility of wiring error . . . cuts construction time to a minimum. All critical circuits are pre-wired, pre-tested, and mounted on heavy-duty printed circuit boards at the Scott factory. All wires are color-coded, pre-cut and pre-stripped to the proper length. Here is a preview of the exclusive Scott features you'll find in your Scott Kit Pak:

Power-Packed LK-60 120-Watt Stereo Amplifier Kit

Rugged silicon output transistors give full audio frequency performance at high power . . . drive even the most inefficient speakers.

Massive military-type heat sinks keep output transistors running cool . . . assure top performance under high power output conditions.

Rugged pre-wired, pre-tested printed circuit boards greatly reduce the possibility of error . . . stand up under years of strenuous use.

Exclusive Circuit Monitor allows you to set output stage bias and balance for absolutely minimum distortion, without external test equipment.

Ultra-sensitive LT-112 FM Stereo Tuner Kit

Patented Scott Time-Switching multiplex circuitry insures lowest distortion and best stereo separation. Multiplex section is pre-wired and pre-tested.

Scott silicon transistor IF circuit provides amazing stability, selectivity, and wide bandwidth . . . far superior to germanium transistor performance.

New Scott silver-plated front end gives exceptional sensitivity . . . outperforms and outlasts even the best conventional tube or transistor front ends.

Exclusive "Three-Way" front panel tuning meter serves as a signal-strength indicator, zero-center indicator, or highly accurate alignment meter.

Specifications LK-60: Music Power/Channel @ 4 ohms. 60/60; Frequency Response, 15-30,000 cps \pm 1 db; Power Bandwidth, 20-20,000 cps. Price, \$189.95.
Specifications LT-112: Usable Sensitivity (IHF), 2.2 μ v; Selectivity, 4.0 db; Cross Modulation Rejection, 80 db; Price, \$179.95.
