Scott's best solid-state components! Build them yourself and save $160

Now you can enjoy the world's most advanced solid-state engineering, and save up to $160, when you build these Scott solid-state kits. Scott kits give you the same features, performance, quality, and long-lived reliability you've come to expect from their factory-wired counterparts...the only difference is, you build them.

And building them is easy...Scott's exclusive kit construction book with full-size, full-color step-by-step diagrams reduces the possibility of wiring error...cuts construction time to a minimum. All critical circuits are pre-wired, pre-tested, and mounted on heavy-duty printed circuit boards at the Scott factory. All wires are color-coded, pre-cut and pre-stripped to the proper length. Here is a preview of the exclusive Scott features you'll find in your Scott Kit Pak:

Power-Packed LK-60 120-Watt Stereo Amplifier Kit

Rugged silicon output transistors give full audio frequency performance at high power...drive even the most inefficient speakers.

Massive military-type heat sinks keep output transistors running cool...assure top performance under high power output conditions.

Rugged pre-wired, pre-tested printed circuit boards greatly reduce the possibility of error...stand up under years of strenuous use.

Exclusive Circuit Monitor allows you to set output stage bias and balance for absolutely minimum distortion, without external test equipment.

Ultra-sensitive LT-112 FM Stereo Tuner Kit

Patented Scott Time-Switching multiplex circuitry insures lowest distortion and best stereo separation. Multiplex section is pre-wired and pre-tested.

Scott silicon transistor IF circuit provides amazing stability, selectivity, and wide bandwidth...far superior to germanium transistor performance.

New Scott silver-plated front end gives exceptional sensitivity...outperforms and outlasts even the best conventional tube or transistor front ends.

Exclusive "Three-Way" front panel tuning meter serves as a signal-strength indicator, zero-center indicator, or highly accurate alignment meter.

Specifications LK-60: Music Power/Channel @ 4 ohms 60/60; Frequency Response 15,30,000 cps ±1 dB; Power Bandwidth 20/20,000 cps. Price, $189.95.

Specifications LT-112: Usable Sensitivity (IHF), 2.2 µV; Selectivity 4.0 db; Cross Modulation Rejection, 80 db; Price, $179.95.
